Project Narrative:

Describe what has been accomplished year-to-date.
Include any adjustments due to COVID-19 or any other helpful information

Due to COVID- 19 closing all county schools, we were not able to begin this project. We emailed asking for an extension and proposed doing an online curriculum for students to be able to cover the materials we would have presented on a weekly basis had we been able to conduct the curriculum in person . We have not received a response from the CTAC board on being permitted to adapt our program to fit within COVID restrictions and to be able to adhere to social distancing guidelines. We are very interested in providing these tools and resource to students, but feel online is the best way to do so if given your approval.
