Brief Description of Proposed Activity/Event (100 words or less)

Manhood Youth Development Foundation, Inc., (MYDF) is a mentor program serving elementary, middle and high school students in Alachua County, Florida. In doing so, we help students with getting to and completing high school.

For the past two years we have conducted several Civil Rights "Road Trips". This trip has received superb ratings from educators, parents and student alike. These trips are very educational and provided the students and their families with a better appreciation of who they are and what it takes to succeed in today's rapidly changing environment/s.

We are reaching out to the Alachua County Children Trust and support from the military bases for assistance with providing much needed support to funds to pay for transportation, food, lodging, materials, equipment, uniforms, supplies and other educational items.

One of the takes aways from these trips is that the student gains a better appreciation as to who they are. The exposure to the quality of life with people and ethnicity in other cities, the traveling through the many rural communities and the up-close tours of the many historical sites gave them an understanding of the great sacrifices that Americans have made in keeping the country free. These sacrifices were important to the students, and they continuously said that they can now better appreciate their history and completing high school would be one of their goals. Together we can collaborate and continue exposing our young people to the many national historical sites while broadening their awareness of the many educational and cultural events making America what it is today. We are planning our 3rd Annual Spring Break "Road Trip" for March 10-15th 2024.
