Submittal Package Items:

- General and Supplemental application forms** **Fee**
- Questionnaire for Land Divisions**
- All items identified on the Land Division Submittal Checklist**
- Map prepared by a surveyor or engineer**

TYPES OF LAND DIVISION PERMITS

The types of land division included in this application typically create new lots, merge lots of a previous map (Reversion to Acreage), or change the lots of a previous map (Map of Amendment). All of these are approved by the Board of County Commissioners, following a recommendation from the Planning Commission, and require two public hearings or meetings.

- **Division of Land into Large Parcels (DLLP):** This permit is used to create very large lots. Lots must be between 40 and 640 acres in size. Any number of lots can be created. There are few infrastructure requirements. It uses the same forms and process as a Parcel Map
- **Parcel Map:** This permit is used to create up to 4 new lots (of less than 40 acres). Minimum lot size depends on the zoning district, but smaller lots are contingent on meeting infrastructure installation requirements – important size triggers are 5 acres and 20 acres. Note that second/subsequent parcel maps are subject to stricter infrastructure installation requirements. Check your deed to determine if your lot was created by a previous parcel map.
- **Tentative Parceling Plan:** A Tentative Parceling Plan is usually required when a series of parcel maps are planned (usually creating 3 small lots and a larger remainder, then splitting the remainder into another 3 small lots and a remainder, etc.). Such proposals are not normally allowed except under a few limited situations, such as for

larger lots in a standard development or for smaller lots in a Cluster Development. After the Tentative Parceling Plan is approved, the series of parcel maps can be submitted.

- **Subdivision:** This permit is used to create 5 or more new lots (of less than 40 acres). Minimum lot size depends on the zoning district, but smaller lots are contingent on meeting infrastructure installation requirements – important size triggers are 5 acres and 20 acres. However, most subdivisions in the County are for small urban-style lots that are also part of a PUD (see below). Note that State approval is required for a subdivision.
- **Reversion to Acreage:** This permit is required for merging any lots that were created through a land division map. (Also see Deed of Combination on the Parcel Modification form.) It is normally simpler to prepare than other land division permits in that the surveyor does not have to do a field survey; but rather prepares the map using existing records. It is also simpler to review and approve than other land division permits.
- **Map of Amendment:** Correcting a map error affecting the lines or points of parcels (including for a BLA) requires a Map of Amendment. This permit uses the same forms and procedures required for the original land division map. Thus, you should also check the appropriate box for the applicable type of land division map.
- **With a Planned Unit Development (PUD):** In addition to checking the box for the applicable type of land division map, check this box to indicate that the map is in support of an approved Planned Unit Development. Also, provide appropriate information to show how this map conforms with the PUD approval.

SUMMARY OF PROPOSAL

Summarize your project: Include how road, sewer, and water services will be provided. Discuss any soil limitation that may affect the use of septic systems, as well as other limitations of the property. Provide details about your responses in the questionnaire.

These 6 consecutive Parcel Maps shows 5 Acre parcels created fronting on Dillon Road.

The Tentative Map was approved by the ~~Planning Commission on January 13, 2021~~

and answers these questions.

Questionnaire for Land Divisions

Please review these questions before designing the project. They are intended to help you foresee problems, may prompt you to make changes, point out the need for additional permits, etc. The questions are also intended to help staff determine compliance with County Code requirements. The questions include references to code sections so that you may better understand the standards that apply. The questions are divided into subject categories. **Circle the correct Yes / No / N/A or other answer.** Most questions have a follow-up statement or informational note afterward. Provide additional information about your answer in your summary on the main application form.

Ownership and Fees

- Does the property have a Conservation Easement? **NO** YES > Parcel changes may not be allowed
- Circle the community development fees that will be due with recording of the map?
None: Mainly Parcel Modifications
 Water dedication/fee: 2 acre-feet of surface water for new lots using wells. If the parcel has none, \$3176 per lot. Developments connecting to the community water system must dedicate groundwater.
 Road Impact Fee: \$2300 per lot or development. Subdivisions and PUDs pay before recording new lots, other land divisions and developments pay at the time of site development.
NOTE: Residential Construction Tax for Parks, and Residential Construction Tax for Schools are due with construction of new residences.
- Is there a loan, Deed of Trust, or other security interest active on the existing parcels? **NO** YES
NOTE: Holders of security interest will have to sign land division maps. They do not have to sign parcel modification maps, **but you are responsible for notifying them as required by law.** Be aware that default on a loan can void a boundary line adjustment, in some cases.

Lots size and area

- Will the resulting parcels meet the minimum parcel size requirements for the zoning district? (CCC Table 16.16.020.1) **YES** NO > Not allowed unless a Variance is obtained.
- Will the resulting parcels meet the minimum parcel width and average width requirements for the zoning district? (CCC Table 16.16.020.1) **YES** NO > Not allowed unless a Variance is obtained.
- Will the resulting lot lines meet the yard and road setback requirements from all existing buildings? (CCC Table 16.16.020.1) **N/A** YES NO > Not allowed unless a Variance is obtained.
NOTE: If buildings or facilities are to be removed to conform to code requirements, they must be removed before recording.
- Do all parcels have acceptable area for development (buildings, well, septic system with suitable soil) while meeting setbacks and site limitations (river, hazards, etc.)? **YES** NO > Configuration changes may be needed

Layout of Easements and Lot Lines

- Will new parcel lines follow the middle of linear features, such as a road, canal, or tree line, and split the feature between lots? **NO** YES > You may want to put the feature entirely on the lot it serves, or on just one lot so only one party has control over it. If the feature is to be split, easements for it may be needed.

- Will linear features (such as a road, power line, or canal) that serve one lot have to run across another lot? N/A NO YES > Easements for it may be needed.

Irrigation

- Does the property have surface water rights? NO YES > TCID approval is required to divide the water rights among the lots. (CCC 16.12.020.C)
- Does the property have irrigation facilities to serve on-site agricultural lands, or Newlands Project facilities crossing the property to serve other lands? NO YES > TCID approval is required for protection of existing facilities, and to ensure satisfactory service for new parcel configurations. (CCC 16.12.020.D) Additional irrigation easements or new facilities may be required.
- Will any new access or utility easements cross over agricultural water delivery or drainage facilities? N/A NO YES > Permits from TCID & BOR may be required. Please consult with them.

Abandonment of roads or easement

- Are there public easements or roads on the property that are being abandoned or moved? NO YES > An Abandonment application (and fee) may be needed – refer to it for details. It can be reviewed along with the map review process but may be done multiple ways, and some require public hearings.
NOTE: All easements are not necessarily shown on the map creating the lot. Be sure to check your title, and check for notes on the map that created the lot regarding easements following property lines, etc.

Roads And Access Easements

- Is there a public access/road easement or public road frontage to the edges of the development that meets code? (CCC 16.16.010.1.A & CCC 16.12.040.2.A.4.a.4) YES NO > Easements need to be acquired
- Are there access easements or road frontage to each lot? (CCC 16.16.010.1.A) YES NO > Additional easements are needed
- Does the property border large tracts of undeveloped land? NO YES > Access easements for fire protection must be provided to those borders (CCC 16.16.010.1.E)
- Are more than 8 lots being created? NO YES > A Traffic Study and traffic improvements may be needed (CCC 16.16.010.8)
- Are new roads being created? NO YES > Circle the road standard to be used below. Show the conceptual layout of the road and associated stormwater control features on the map. Engineered drawings will be required before construction or recording lots.

Paved Required for subdivisions & PUDs. Required for other divisions with lots 20 acres or less, and paving must reach the nearest County/State maintained road (which may be gravel).

Gravel Minimum required for lots of more than 20 acres, and it must reach the nearest County/State maintained road (which may be gravel).

Minimum Access Only allowed in limited situations and by special request. Must meet construction standards and provide for private maintenance and stormwater control?

None Required Lots of 40 acres or more that are created by Division of Land into Large parcels must provide easements, but road construction is not required. SEE NRS DROP THIS??

NOTE: See CCC 16.12.040.2.A.4, -B.2, & -C.1 for requirements. See CCC 16.16.010.7.B for construction standards. Roads not built before recording the lots must be financially guaranteed (CCC 16.12.030.3).

- For new roads, will they be publicly or privately maintained? N/A Public Private
NOTE: The County will accept maintenance of the road at its own discretion. Otherwise roads will be privately maintained (CCC 16.12.040.2.A.1.dd.5 & CCC 16.12.040.1.d.4.g). This must be decided by Road Dept and BOCC. Some situations may require special funding to support future road maintenance.
- For new roads, circle the road classification you are proposing. (See CCC 10.04.020)

 - Community water system:** Presumed to meet the standard
 - Community sewer system:** Presumed to meet the standard
 - Wells:** Application must demonstrate adequacy – see notes below
 - Septics:** Application must demonstrate adequacy – see notes below

NOTE: Most land divisions in the Urbanizing area that are less than 5 acres in size typically need to connect to the county sewer or water system, with some exceptions (Master Plan Ch. 9)

NOTE: All PUDs & Subdivisions must connect to a community water system and are only allowed in the Urbanizing and Industrial Master Plan designations. And those creating lots less than 5 acres in size must also connect to a community sewer system. (Master Plan Ch. 9)

NOTE: Community sewer and water facilities must be dedicated to the County (CCC 16.12.030.6 & CCC 16.16.010.9). Facilities not built before recording the lots must be financially guaranteed (CCC 16.12.030.3).

NOTE FOR WELL AND SEPTIC ON LOTS OF 5 ACRES OR MORE: A well is presumed to meet the standard, but must be able to meet setbacks. A septic is presumed to meet the standard, unless the site has soil with severe septic limitations (clay, alkali, lake bottom (playa), etc.). If the site has such soils, provide a soil report that identifies areas on-site with acceptable septic system characteristics, or identifies alternative systems. Limitations must be noted on the map.

NOTE FOR WELL AND SEPTIC ON LOTS OF LESS THAN 5 ACRES: The application must demonstrate that it meets the standard. A well is presumed to meet the standard, but must be able to meet setbacks. Provide a soil report with percolation test results that identifies suitable septic system locations that meet the setbacks. Show on the map that there is space to provide a well and/or septic system while meeting required well and septic setbacks within the development and from adjacent properties. If the site has severe soil limitations, identify alternative systems. Limitations must be noted on the map.

- For lots connecting to a community water system, do you have ground water rights **(N/A) YES** **NO**
NOTE: Enough groundwater rights to serve the development must be dedicated before recording, with limited options to use surface water and cash payments (CCC 16.12.030.5.D & CCC 13.02.010.D.2)

- Will the lots need to be graded, or are they planned to be graded to support future development, or will grading be needed to build infrastructure? NO YES > If over 1 acre, a Grading Plan & Dust control plan must be provided (CCC 16.16.010.11). For subdivisions, there are clearing restrictions (CCC 16.16.010.4)

Dean,

The only comment I have, is basically the same as I submitted with the previous maps:

At the discretion of the Building Official, all parcels may be required to have a Soil Test Pit dug and inspected, prior to septic system approval.

If you have any questions, please let me know.

Subject: Dillon Rd North - 6 Parcel Maps

Hi all. For the last few months the McCreary's have been trying to get their Dillon Road – North Side project approved by the BOCC. This is NOT the Michelle Drive project right next door. They recently got the parceling plan approved by the BOCC and have submitted the 6 Parcel Maps to implement the plan. These are attached. Note that the “flagpole” lots have access on Dillon, so no official road needs to be built. But they will need to build the driveways to provide fire access to the sites, as well as paved road apron onto Dillon, and a road maintenance agreement for the driveways.

Please let me know if you have comments.

I would like to know if you want to meet to talk about it. Otherwise please provide comments – OR say that you have no comments. Thanks!
