Subject: Formal Request for Parking Restriction Signage / Curb Marking and driveway signage at Princeton

Dear Town Board and Administration,

I am writing to formally request the assistance of the Town of Clayton in resolving a recurring safety and accessibility hazard constantly on Princeton Dr. Vehicles frequently park directly behind and within the immediate buffer zone of driveways.

This violates Wisconsin Statute 346.53, which prohibits parking within 4 feet of a private driveway entrance and or behind it.

Because the vehicle operators are typically different visitors (most common), delivery drivers, or patrons to the surrounding area, addressing this on an individual basis has proven ineffective. This chronic issue poses several severe concerns:

#1 Many are routinely blocked from safely exiting or entering our own property.

#2 Severe Blind Spot: Vehicles parking within the 4-foot buffer zone completely obstruct our line of sight when backing out into the roadway, creating an immediate traffic hazard.

#3 Emergency Vehicle Access: Should an emergency occur, first responders would face obstructed access to our driveway.

While I have contacted the Winnebago County Sheriff's Office non-emergency dispatch line for individual violations, a permanent structural solution is necessary to deter drivers before they park.

We respectfully request that the Town of Clayton evaluate this location for one of the following interventions: the installation of an official town sign (e.g., "No Parking - Driveway Access Required" or "Do Not Block Driveway").

Please advise on the next steps to have this request officially reviewed by the Public Works Department or placed on the agenda for an upcoming Town Board of Supervisors meeting.

I would be glad to send photos of the frequency of this issue for your review.

Thank you for your time, attention, and commitment to keeping our local roadways and neighborhoods safe.
