Categorical Exemption CE 2023-03

The California Environmental Quality Act (CEQA) Statute and Guidelines, Article 5, Preliminary Review of Projects and Conduct of Initial Study, Section 15061, Review for Exemptions (b)(3), states that “activity is covered by the common sense exemption that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. Further, Article 12, Special Situations, Section 15183 (a), Projects Consistent with a Community Plan or Zoning,

mandates that projects which are consistent with the development density established by existing zoning, community plan, or general plan policies for which an EIR was certified shall not require additional environmental review, except as might be necessary to examine whether there are project-specific significant effects which are peculiar to the project or site.

Staff has determined that the GPCD is consistent with zoning, general plan policies, and does not require additional environmental review.
