<p><b>PROGRAM H 3.7</b> Residential Infill Study 5th and 6th Cycle</p>	<p>To address concentrated higher density and mixed use housing strategies in the 2040 General Plan there is a need to identify potential opportunities within existing buildings for conversion to housing units, particularly in the upper floors in three of the identified growth areas: Cluster 1 (Austin Park), Cluster 2 (The Avenues) and Cluster 4 (Lower Lakeshore). This would lead to more building renovations, create live work studios and improve affordable housing opportunities in the focused growth areas. The presence of additional residents in these areas will also improve the City's economic vitality. The City will prepare (contingent upon grant funding) a residential infill study that identifies these opportunities, working with property owners to evaluate the economic potential for creating more housing within existing buildings and identify funding sources to develop this housing.</p>	<p>Timeframe: 2022 pending grant funding. In the next few years the city will target homeowners and survey parcels in each of these clusters in order to complete a detailed assessment that will allow us to identify specific areas where infill development would be appropriate.</p>	<p>6th Cycle</p>	<p>Continuous</p>	<p>Responsibility: Community Development and Finance Departments. Funding: CDBG Accomplishments: The City did not apply for grant funding to conduct this study.
