## **2. PERSONNEL**

Kytte Backhoe & Construction LLC employs a staff of twenty-four (24) full-time personnel, consisting of skilled laborers, heavy equipment operators, utility foremen, a utility manager, and CDL drivers.

Our average field crew consists of five (5) personnel, allowing efficient and safe execution of both routine and emergency utility work.

Personnel are based at our headquarters in Lula, Georgia, enabling rapid dispatch and mobilization to the City of Cleveland and surrounding areas.

Supervisory personnel are experienced in managing municipal utility operations and are responsible for coordinating crews, equipment, safety, and communication with City staff.

### **Key Staff & Services Provided**

Key staff are responsible for emergency response coordination, crew supervision, safety oversight, communication with City representatives, and execution of water, sewer, and stormwater repairs. Services provided include emergency utility repairs, routine maintenance, excavation, pipe repair and replacement, dewatering, bypass pumping coordination, surface restoration, and documentation of completed work.

### **3. INSURANCE**

Kytle Backhoe & Construction LLC maintains all insurance coverage required to perform municipal utility construction and emergency repair services, including:

- Workers' Compensation Insurance
- Automobile and Equipment Liability Coverage
- Commercial Umbrella Liability Insurance

Professional Liability / Errors & Omissions: Kytle Backhoe & Construction LLC does not currently maintain Professional Liability / Errors & Omissions insurance, as our services are construction-based and do not include professional design. However, E&O coverage can be added if required by the City of Cleveland for specific task orders or contract execution.

## **4. PROPOSED WORK PLAN**

Kytle Backhoe & Construction LLC's approach to on-call utility services emphasizes rapid response, safety, clear communication, and efficient restoration of service. Our goal during both emergency and routine work is to stabilize the situation quickly, minimize disruption to residents and businesses, and complete repairs safely and correctly the first time.

Kytle Backhoe & Construction LLC maintains 100% emergency response capability with dedicated personnel and equipment available 24 hours per day, 7 days per week, including weekends and holidays. Emergency response mobilization time will not exceed forty-five (45) minutes from notification within the City of Cleveland.

### **Emergency Response Procedures**

Upon notification from the City of Cleveland, Kytle Backhoe & Construction LLC immediately deploys a qualified supervisor and appropriate field crew. Initial response includes site assessment, utility isolation, traffic control setup as required, coordination with City staff, and implementation of temporary stabilization measures. Permanent repairs are completed as conditions allow, followed by restoration, cleanup, and documentation of labor, equipment, and materials used.

### **Routine Work Coordination**

For planned or non-emergency work, Kytle Backhoe & Construction LLC coordinates directly with City staff to review scope, schedule work, and minimize impacts to residents, businesses, and traffic. All work is completed in accordance with City standards and applicable regulatory requirements.

### **Commitment**

Kytle Backhoe & Construction LLC understands that utility emergencies directly impact public health, safety, and daily operations. Our firm approaches each assignment with urgency, professionalism, and a commitment to restoring service as quickly and safely as possible.

## **5. EQUIPMENT**

Kytte Backhoe & Construction LLC maintains a large fleet of company-owned, late-model equipment dedicated to utility construction and emergency response operations.

### **Coordination with City Staff**

Kytte Backhoe & Construction LLC will coordinate directly with the City of Cleveland Public Works Director and Deputy Director to prioritize response efforts, coordinate scheduling, and ensure all repairs meet City standards and operational needs.
