ENGINEER'S REPORT AFFIDAVIT

City of Coachella Landscaping and Lighting Maintenance Assessment Districts No. 1 through 40

City of Coachella
Riverside County, State of California

This Report describes the District and all relevant zones therein including the improvements, budgets, parcels and assessments to be levied for Fiscal Year 2026/2027, as they existed at the time of the passage of the Resolution of Intention. Reference is hereby made to the Riverside County Assessor's maps for a detailed description of the lines and dimensions of parcels within the District. The undersigned respectfully submits the enclosed Report as directed by the City Council.

Dated this 16th day of June, 2026.

Willdan Financial Services
Assessment Engineer
On Behalf of the City of Coachella

I. OVERVIEW

A. INTRODUCTION

The City of Coachella (the “City”), under the provisions of the Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the California Streets and Highways Code (the “1972 Act”) and the provisions of the California Constitution Article XIID enacted by Proposition 218 (the “California Constitution”), annually levies and collects special assessments in order to provide and maintain the facilities, improvements and services for the districts designated as:

Coachella Landscaping and Lighting Maintenance Districts (the “Districts”)

The City formed the following forty (40) Districts.

TABLE I – 2026/2027 DISTRICT DESCRIPTIONS

District Number	District Name	Number of Parcels	Formation Date
1	Lewis Homes - Tract Nos. 14664-1, 14664-2, 14664, & 17892	127	9/16/1980
2	Peacock Palms – Tract Nos. 14472 & 15976	130	6/16/1980
3	Buena Vista Homes – Tract Nos. 14675, 18317, & 28074	181	9/16/1980
4	Palm Desert Development – Tract Nos. 18632-1, 18632-2 & 18632	66	6/2/1987
5 ⁽¹⁾	Palmeras Mobile Home Park – Tract No. 26370	122	7/17/1991
6	Fiesta Homes – Tract Nos. 23911-1, 23911-2, & 23911	171	8/7/1991
7	La Paz Homes I – Tract Nos. 26467-4, 26467-3, 26467-2, 26467-1, 26467, 26639-1, & 26639	161	8/7/1991
8	La Ponderosa Homes – Tract Nos. 24299-1 & 24299	138	1/28/1994
9	Coachella Valley Housing Coalition – Tract Nos. 23408-1, 23408-2, & 23408	32	5/4/1994
10	Plaza Del Sol – Tract No. 26592	75	12/21/1994

District Number	District Name	Number of Parcels	Formation Date
11	Loma Vista Homes I – Tract Nos. 22110-1 & 22110-2	105	8/2/1995
12	La Paz Homes II – Tract Nos. 28374-1, 28374-2, 28374-3, & 28375	76	10/17/1996
13	Baron-Ziraick – Tract Nos. 28443-1, 28443-2, & 28443	168	8/7/1999
14	Pueblo De La Paz – Tract Nos. 29071-1, 29071-2, 29071-3, 29071-4, & 29071	90	6/14/2000
15	Cachanillas – Tract No. 30020	48	5/28/2003
16	Tierra Del Sol – Tract Nos. 30582, 30684-1, 30684-2, 30684-3, & 30684	554	8/20/2003
17	Rancho Las Flores – Tract No. 30498-1	162	5/14/2003
18	Bella Canto – Tract No. 30728	172	6/16/2003
19	Paseo De Las Palmas – Tract Nos. 30354-1 & 30354	126	7/9/2003
20	Posada Del Valle – Tract Nos. 30621-1 & 30621	81	8/20/2003
21	Loma Vista II – Tract No. 22110	70	8/20/2003
22	Rancho De La Fe – Tract No. 30889	118	11/10/2004
23	La Colonia I – Tract No. 30871	119	11/10/2004
24	La Paloma Estates – Tract Nos. 30910-1, 30910-2, & 30910	291	4/13/2005
25	Las Plumas – Tract No. 31376	87	6/8/2005
26 ⁽¹⁾	La Colonia II – Tract Nos. 32074-1, 32074-2, & 32074	26	6/8/2005
27	Rancho Mariposa – Tract No. 30831	112	8/1/2005
28	La Morada – Tract No. 30830	171	8/1/2005
29	Somerset – Tract Nos. 31664-1, 31664-2, 31664-3, & 31664	152	8/24/2005
30	Navarra/Sundate I – Tract No. 31508	160	6/28/2006
31	Los Jardines – Tract Nos. 31533-1, 31533-3, & 31533	265	11/9/2005

District Number	District Name	Number of Total Parcels	Formation Date
32	Aventine – Tract Nos. 31551-1 & 31551	250	11/29/2006
33	Vista Escondida – Tract No. 32264	282	2/8/2006
34	Tierra Bonita – Tract No. 31158	115	2/8/2006
35	Bellissima – Tract Nos. 31978-1, 31978-2, & 31978	49	9/13/2006
36	Valencia – Tract No. 31698	108	5/31/2006
37 ⁽²⁾	Volk – Tract No. 31550	80	11/22/2006
38	Rancho Cielo – Tract No. 31714	150	3/14/2006
39	Pulte Sevilla – Tract No. 38084	109	3/23/2022
40	Mariposa Pointe – Tract No. 32074, 32074-1, & 32074-2	165	4/27/2022

⁽¹⁾ District No. 5 dissolved March 2013 and District No. 26 dissolved June 2013.

⁽²⁾ District No. 37 tract map not recorded, therefore not developed and no levy as of Fiscal Year 2026/2027.

This Engineer's Report ("Report") has been prepared pursuant to Chapter 1, Article 4 and Chapter 3 of the 1972 Act, and presented to the City Council for their consideration and approval of the proposed improvements and services to be provided within the District and the levy and collection of annual assessments for Fiscal Year 2026/2027.

This Report describes the Districts, the improvements, and the proposed assessments to be levied against properties in connection with the benefits the properties will receive from the maintenance and servicing of the District improvements for Fiscal Year 2026/2027. The annual assessments to be levied on properties within the Districts provide a funding source for the continued operation and maintenance of local landscaping and lighting improvements installed in connection with the development of properties within the applicable District. Each fiscal year, the City establishes the Districts' assessments based on an estimate of the costs to maintain, operate and service the improvements and based upon available revenues including fund balances, City contributions, and assessment limits. The costs of the improvements and the proposed annual assessments budgeted and assessed against properties within the District(s) may include: the estimated expenditures for regular annual maintenance and repairs; incidental expenditures related to the operation and administration of the District; deficits or surpluses from prior years; revenues from other sources; and the collection of adequate funds for operational reserves or periodic expenditures including installments collected for long-term improvement projects. Each parcel is

assessed proportionately for only those improvements, services, and expenses for which the parcel will receive special benefit.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (APN) by the Riverside County Assessor’s Office. The Riverside County Auditor-Controller uses APNs and specific Fund Numbers to identify properties to be assessed on the tax roll for the special benefit assessments.

Following consideration of all public comments and written protests at a noticed public hearing, the City Council may order amendments to the Report or confirm the Report as submitted. Following final approval of the Report and confirmation of the assessments, the Council may order the levy and collection of assessments for Fiscal Year 2026/2027 pursuant to the 1972 Act. In such case, the assessment information will be submitted to the County Auditor/Controller and included on the property tax roll for each benefiting parcel for Fiscal Year 2026/2027.

B. COMPLIANCE WITH CURRENT LEGISLATION

On November 5, 1996, California voters approved Proposition 218 (The Right to Vote on Taxes Act) that established specific requirements for the ongoing imposition of taxes, assessments, and fees. The provisions of this proposition are now contained in the California Constitution as Articles XIII C and XIII D, and can be summarized in four general areas:

1. Strengthens the general and special tax provisions of Proposition 13 and Proposition 62.
2. Extends the initiative process to all local taxes, assessments, fees, and charges.
3. Adds substantive and procedural requirements to assessments.
4. Adds substantive and procedural requirements to property related.

The District assessments were presented to the property owners and approved through a protest ballot proceeding in compliance with the provisions of Proposition 218.

C. IMPROVEMENTS AUTHORIZED BY THE 1972 ACT

As applicable or may be applicable to the Districts, the 1972 Act defines improvements to mean one or any combination of the following:

- The installation or planting of landscaping.

- The installation or construction of statuary, fountains, and other ornamental structures and facilities.
- The installation or construction of public lighting facilities, including but not limited to, traffic signals.
- The installation or construction of any facilities which are appurtenant to any of the foregoing, or which are necessary or convenient for the maintenance or servicing thereof, including, but not limited to, grading, clearing, removal of debris, the installation or construction of curbs, gutters, walls, sidewalks, or paving, or water, irrigation, drainage, or electrical facilities.
- The maintenance or servicing, or both, of any of the foregoing.
- The acquisition of any existing improvement otherwise authorized pursuant to this section.

Incidental expenses associated with the improvements including, but not limited to:

- The cost of preparation of the report, including plans, specifications, estimates, diagram, and assessment.
- The costs of printing, advertising, and the publishing, posting and mailing of notices.
- Compensation payable to the county for collection of assessments.
- Compensation of any engineer or attorney employed to render services.
- Any other expenses incidental to the construction, installation, or maintenance and servicing of the improvements.
- Any expenses incidental to the issuance of bonds or notes pursuant to Section 22662.5.
- Costs associated with any elections held for the approval of a new or increased assessment.

The 1972 Act defines “Maintain” or “Maintenance” to mean furnishing of services and materials for the ordinary and usual maintenance, operation, and servicing of any improvement, including:

- Repair, removal, or replacement of all or any part of any improvement.
- Providing for the life, growth, health, and beauty of landscaping, including cultivation, irrigation, trimming, spraying, fertilizing, or treating for disease or injury.
- The removal of trimmings, rubbish, debris, and other solid waste.
- The cleaning, sandblasting, and painting of walls and other improvements to remove or cover graffiti.

D. DISCLAIMER

If any section, subsection, sentence, clause, phrase, portion, zone, or subzone of this Engineer's Report is, for any reason, held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining provisions of the Report and each section, subsection, subdivision, sentence, clause, phrase, portion, zone, or subzone thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases, portions, zones, or subzones might subsequently be declared invalid or unconstitutional.

DRAFT

II. PLANS AND SPECIFICATIONS

A. DISTRICTS OVERVIEW

The territory within the Districts consists of lots or parcels of land within the City of Coachella. The purpose of the Districts is to provide in part through annual assessments, funding for the ongoing operation, maintenance, and servicing of landscaping, streetlighting, and traffic signal improvements, as well as related facilities and services in various areas throughout the City. Improvements provided within the Districts generally include but are not limited to:

- Landscape improvements within the street medians and parkway side-panels, including parkways, slopes and entryways; and various non-street landscape areas including greenbelts, slopes, local trails, and open space areas. These landscape improvements and areas may include but are not limited to various combinations of trees; turf; ground cover; shrubs, plantings and other amenities including retaining walls, monuments, fencing, sidewalks, stamped concrete or pavers; irrigation and drainage systems; and related appurtenances.
- Local lighting facilities on public streets within the City. These lighting improvements may include but are not limited to streetlights located on the City's arterial streets, traffic signals located throughout the City, and local streetlights within or adjacent to the various developments and subdivisions.

B. DESCRIPTION OF DISTRICTS

The Districts therein provide the continued maintenance, servicing, administration, and operation of various improvements and associated appurtenant landscape structures located within the public rights-of-way and dedicated landscape easements associated with the various tracts and on individual parcels located within the Districts. Each tract or parcel is identified within a designated District with differing costs and benefits to the parcels within that District. The spreading of the improvement costs is based upon the total cost of the improvements within each District and is proportionately spread among all benefiting properties within the District based on either land use and acreage or number of parcels.

As of Fiscal Year 2026/2027, the following are descriptions of the Districts therein.

District No. 1

Lewis Homes - District No. 1 includes all parcels within tract numbers 14664-1, 14664-2, 14664, and 17892. The District is generally located north of Avenue 51 and west of Suncrest Street.

District No. 2	Peacock Palms - District No. 2 includes all parcels within tract numbers 14472 and 15976. The District is generally located at the northeast corner of Avenue 50 and Frederick Street.
District No. 3	Buena Vista Homes - District No. 3 includes all parcels within tract numbers 14675, 18317, and 28074. The District is generally located at the southwest corner of Avenue 49 and Frederick Street.
District No. 4	Palm Desert Development - District No. 4 includes all parcels within tract numbers 18632-1, 18632-2, and 18632. The District is generally located north of Westerfield Way, east and west of Kenmore Street, Coronado Street and Balboa Street.
District No. 6	Fiesta Homes - District No. 6 includes all parcels within tract numbers 23911-1, 23911-2, and 23911. The District is generally located at the southeast corner of Avenue 49 and Van Buren Street.
District No. 7	La Paz Homes I - District No. 7 includes all parcels within tract numbers 26467-1, 26467-2, 26467-3, 26467-4, 26467, 26639-1, and 26639. The District is generally located south of Avenue 53 and east and west of Calle La Paz and Calle Bonita.
District No. 8	La Ponderosa Homes - District No. 8 includes all parcels within tract numbers 24299-1 and 24299. The District is generally located north of Avenue 52 and east and west of La Ponderosa Drive and La Hernandez Street.
District No. 9	Coachella Valley Housing Coalition - District No. 9 includes all parcels within tract numbers 23408-1, 23408-2, and 23408. The District is generally located north of Calle Zamora, south of Calle Verde and east of Calle Techa.
District No. 10	Plaza Del Sol - District No. 10 includes all parcels within tract number 26592, generally located east of Tyler Street and north and south of Calle Bougainvillea.

District No. 11	Loma Vista Homes I - District No. 11 includes all parcels within tract numbers 22110-1 and 22110-2, generally located north of Avenue 51, east of Frederick Street, and east and west of Avenida Adobe.
District No. 12	La Paz Homes II - District No. 12 includes all parcels within tract numbers 28374-1, 28374-2, 28374-3, and 28375, generally located east of Frederick Street, north and south of Guitron Street.
District No. 13	Baron-Ziraick Investments - District No. 13 includes all parcels within tract numbers 28443-1, 28443-2, and 28443, generally located at the southeast corner of Avenue 50 and Frederick Street.
District No. 14	Pueblo De La Paz - District No. 14 includes all parcels within tract numbers 29071-1, 29071-2, 29071-3, 29071-4, and 29071, generally located southeast corner of Avenue 49 and Frederick Street.
District No. 15	Cachanillas - District No. 15 includes all parcels within tract number 30020, generally located south of Avenue 53, east of Calle Empalme, and west of Calle Avilla.
District No. 16	Tierra Del Sol - District No. 16 includes all parcels within tract numbers 30582, 30684-1, 30684-2, 30684-3, and 30684, generally located south of Avenue 48, north of Avenue 49, east of Jackson Street, and west of Calhoun Street.
District No. 17	Rancho Las Flores - District No. 17 includes all parcels within tract number 30498-1, generally located north of Avenue 49 and west of Frederick Street.
District No. 18	Bella Canto - District No. 18 includes all parcels within tract number 30728, generally located at the northeast corner of Avenue 50 and Calhoun Street.
District No. 19	Paseo De Las Palmas - District No. 19 includes all parcels within tract number 30354-1 and 30354, generally located north of Avenue 50 and west of Frederick Street.
District No. 20	Posada Del Valle - District No. 20 includes all parcels within tract numbers 30621-1 and 30621, generally located west of Van Buren Street and south of Avenue 49.

District No. 21	Loma Vista II - District No. 21 includes all parcels within tract number 22110, generally located at the northeast corner of Avenue 51 at Frederick Street.
District No. 22	Rancho De La Fe - District No. 22 includes all parcels within tract number 30889, generally located south of Avenue 53 at Shady Lane.
District No. 23	La Colonia I - District No. 23 includes all parcels within tract number 30871, generally located at the southwest corner of Avenue 50 and Calhoun Street.
District No. 24	La Paloma Estates - District No. 24 includes all parcels within tract numbers 30910, 30910-1, and 30910-2, generally located east of Calhoun Street, between Avenue 48 and Avenue 49.
District No. 25	Las Plumas - District No. 25 includes all parcels within tract number 31376, generally located west side of Calhoun Street between Avenue 49 and Avenue 50.
District No. 27	Rancho Mariposa - District No. 27 includes all parcels within tract number 30831, generally located at the northwest corner of Avenue 50 and Frederick Street.
District No. 28	La Morada - District No. 28 includes all parcels within tract number 30830, generally located at the northwest corner of Avenue 50 and Van Buren Street.
District No. 29	Somerset - District No. 29 includes all parcels within tract numbers 31664-1, 31664-2, 31664-3, and 31664, generally located at the northwest corner of Avenue 54 and Frederick Street.
District No. 30	Navarra / Sundate I - District No. 30 includes all parcels within tract number 31508, generally located at the southwest corner of Avenue 52 and Frederick Street.
District No. 31	Los Jardines - District No. 31 includes all parcels within tract numbers 31533, 31533-1, and 31533-3, generally located at the northwest corner of Avenue 53 and Tyler Street.
District No. 32	Aventine - District No. 32 includes all parcels within tract numbers 31551-1 and 31551, generally located at the northwest corner of Avenue 51 and Van Buren Street.

District No. 33	Vista Escondida - District No. 33 includes all parcels within tract number 32264, generally located on the north side of Avenue 53 and east of Shady Lane.
District No. 34	Tierra Bonita - District No. 34 includes all parcels within tract number 31158, generally located on the northeast side of Avenue 53 and Frederick Street.
District No. 35	Bellissima - District No. 35 includes all parcels within tract numbers 31978, 31978-1, and 31978-2, generally located on the southeast corner of Avenue 53 and Frederick Street.
District No. 36	Valencia - District No. 36 includes all parcels within tract number 31698, generally located on the southeast corner of Avenue 50 and Van Buren Street.
District No. 37	Volk - District No. 37 includes all parcels within tract number 31550. The District is generally located on the east side of Van Buren and north of Avenue 54.
District No. 38	Rancho Cielo - District No. 38 includes all parcels within tract number 31714. The District is generally located on the south side of Avenue 52 and west of Grapefruit Boulevard.
District No. 39	Pulte Sevilla - District No. 39 includes all parcels within tract number 38084. The District is generally located east of Van Buren Street and north of Avenue 51.
District No. 40	Mariposa Pointe - District No. 40 includes all parcels within tract 32074, 32074-1, and 32074-2. The District is generally located east of Calhoun Street and south of Avenue 50.

C. DESCRIPTION OF DISTRICT IMPROVEMENTS

As authorized by the 1972 Act, the improvements provided by the Districts incorporate various landscaping and/or lighting improvements that are maintained and serviced for the benefit of real property within the Districts. The maintenance of the landscape improvements may also incorporate various appurtenances that may include but are not limited to entry monuments; various types of fencing; retaining walls; ornamental lighting or other ornamental fixtures; signage; and irrigation, drainage, and electrical equipment.

In most cases, the various improvements associated with each District were either installed in direct connection with the development of properties within the boundaries of the District or were installed for the benefit of those properties as a

result of property development or potential development of those properties and were considered necessary for the development of those properties to their full and best use.

The work to be performed within each respective District may include, but is not limited to (as applicable), the personnel, materials, equipment, electricity, water, contract services, repair and rehabilitation of the improvements and incidental expenses required for operation and to provide the improvements and services for each District. A general description of the improvements per District follows.

District No. 1 – Lewis Homes

The improvements include street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements could consist of an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system is complete with electric supply, water supply, automatic clock, piping, various types of irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of materials such as trees, shrubs, ground cover, and turf.

District No. 2 – Peacock Palms

The improvements include street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements could consist of an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system is complete with electric supply, water supply, automatic clock, piping, various types of irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of materials such as trees, shrubs, ground cover, and turf.

District No. 3 – Buena Vista Homes

The improvements include street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements could consist of an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system is complete with electric supply, water supply, automatic clock, piping, various types of irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of materials such as trees, shrubs, ground cover, and turf.

District No. 4 – Palm Desert Development

The improvements include street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements could consist of an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system is complete with electric supply, water supply, automatic clock, piping, various types of

irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of materials such as trees, shrubs, ground cover, and turf.

District No. 6 – Fiesta Homes

The improvements include a concrete block wall along Van Buren Street and Avenue 49 frontage, streetlights, automatic sprinkler system, and landscaping located in the areas described. The sprinkler system is complete with electric supply, water supply, automatic clock, piping, various types of irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of materials such as trees, shrubs, ground cover, turf, and annual flowers.

The work to be performed includes the maintenance of the landscaping, sprinkler system, and lighting as described. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash, debris, and defaced or damaged surface of the block wall; the maintenance and repair of the sprinkler system, including replacement of any and all damaged, defective, and worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping and furnishing of electric power for the streetlights and the replacement of light bulbs, fixtures, etc.

District No. 7 – La Paz Homes I

The improvements include street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements could consist of an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system is complete with electric supply, water supply, automatic clock, piping, various types of irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of materials such as trees, shrubs, ground cover, and turf.

District No. 8 – La Ponderosa Homes

Landscaping Excluded

The District includes all parcels within tract numbers 24299-1 and 24299, generally located north of Avenue 52 and east and west of La Ponderosa Drive and La Hernandez Street. The improvements include only street lighting within the tracts.

District No. 9 – Coachella Valley Housing Coalition

The improvements include street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements could consist of an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system is complete

with electric supply, water supply, automatic clock, piping, various types of irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of materials such as trees, shrubs, ground cover, and turf.

District No. 10 – Plaza Del Sol

The improvements include storm drainage retention basin landscaping and appurtenant walls and fences, a concrete block wall along the Tyler Street frontage, streetlights within the tract, automatic sprinkler systems, and landscaping located along Tyler Street in the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 11 – Loma Vista Homes I

The improvements include a concrete block wall along the Avenue 51 frontage and west and north tract boundary, streetlights, an automatic sprinkler system, and landscaping located in the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, annual flowers, and related materials.

The work to be performed includes maintenance of the landscaping, sprinkler system, lighting, and related wall improvements described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged block wall surfaces; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and

the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 12 – La Paz Homes II

The improvements include storm drainage detention basin landscaping and appurtenant walls and fences, a concrete block wall along the Frederick Street frontage, streetlights within the tract, an automatic sprinkler system, and landscaping located along Frederick Street and the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the detention basin landscaping, walls, fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 13 – Baron-Ziraick Investments

The improvements include a concrete block wall along the Avenue 50 and Frederick Street frontage, concrete block wall and wrought iron/chain link fencing along the perimeter of the detention basin, streetlights, an automatic sprinkler system, and landscaping located in the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, annual flowers, and related materials.

The work to be performed includes maintenance of the landscaping, sprinkler system, lighting, walls, and fencing described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged block walls and fencing; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing

of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 14 – Pueblo De La Paz

The improvements include storm drainage detention basin landscaping and appurtenant walls and fences, a concrete block wall along the Frederick Street and Avenue 49 frontage, streetlights within the tract, an automatic sprinkler system, and landscaping located along Frederick Street and Avenue 49 and the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the detention basin landscaping, walls, fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components. Maintenance or repair of the drainage discharge pump, force main, and related drainage facilities is excluded from the work to be performed under this Landscaping and Lighting District description.

District No. 15 – Cachanillas

The improvements include storm drain retention basin/park area landscaping and appurtenant walls and fences, concrete block walls along Avenue 53 and Calle Avila, streetlights within the tract, automatic sprinkler systems, and landscaping located along Avenue 53, Calle Avila, and within the retention basin/park area. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin/park area landscaping, walls, fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement

of defaced or damaged wrought iron fences and block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 16 – Tierra Del Sol

The improvements include landscaping within eight (8) storm drainage detention basins, street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements may include an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials. Maintenance or repair of pumps, force mains, catch basins, manholes, drywells, pipes, drainage structures, and related drainage facilities is excluded from the work to be performed under this Landscaping and Lighting District description.

District No. 17 – Rancho Las Flores

The improvements include landscaping within four (4) storm water retention basins and appurtenant concrete block walls, concrete block walls at street side yards, wrought iron fencing, concrete block walls along the Avenue 48, Van Buren Street, Avenue 49, and Frederick Street frontage, streetlights within the tracts, automatic sprinkler systems, and landscaping located along Avenue 48, Van Buren Street, Avenue 49, Frederick Street, and the areas previously described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, block walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 18 – Bella Canto

The improvements include landscaping within two (2) storm drainage retention basins and appurtenant wrought iron fences, concrete block wall and streetlights along the Calhoun Street and Avenue 50 frontage, streetlights within the tract, automatic sprinkler systems, driveways, and landscaping located along Calhoun Street and Avenue 50, as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 19 – Paseo De Las Palmas

The improvements include concrete block walls along the Avenue 50 and Frederick Street frontages, concrete block walls and wrought iron/chain link fencing along the perimeter of the detention basins, streetlights, an automatic sprinkler system, and landscaping located in the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, annual flowers, and related materials.

The work to be performed includes maintenance of the landscaping, sprinkler system, lighting, walls, and fencing described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged block walls and fencing; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 20 – Posada Del Valle

The improvements include landscaping within one (1) storm drainage retention basin, concrete block walls and streetlights along the Van Buren Street frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Van Buren Street as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 21 – Loma Vista II

The improvements include storm drainage detention basin landscaping, street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements may include an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

District No. 22 – Rancho De La Fe

The improvements include landscaping within two (2) storm drain retention basins/park sites, concrete block walls and streetlights along the 53rd Street frontage, streetlights within the tract, automatic sprinkler systems, and related storm drain basin landscaping improvements. The sprinkler system on 53rd Street includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin/park site landscaping, block walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the

cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components. Maintenance or repair of the gallery storm drain system, catch basins, manholes, drywells, pipes, drainage structures, and related storm drain facilities is excluded from the work to be performed under this Landscaping and Lighting District description.

District No. 23 – La Colonia I

The improvements include landscaping within two (2) storm drainage retention basins, one (1) open space lot, concrete block walls and streetlights along the Avenue 50 and Calhoun Street frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Avenue 50 and Calhoun Street as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, open space landscaping, walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 24 – La Paloma Estates

The improvements include landscaping within four (4) storm drainage retention basins, one (1) open space lot, concrete block walls and streetlights along the Avenue 48, Avenue 49, and Calhoun Street frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Avenue 48, Avenue 49, and Calhoun Street as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system

operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, open space landscaping, wall surfaces, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 25 – Las Plumas

The improvements include landscaping within two (2) storm drainage retention basins, concrete block walls and streetlights along the Calhoun Street frontage, streetlights within the tract, automatic sprinkler systems, and landscaping located along Calhoun Street as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 27 – Rancho Mariposa

The improvements include landscaping within two (2) storm drainage retention basins, concrete block walls and streetlights along the Avenue 50 and Frederick Street frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Avenue 50 and Frederick Street as well

as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 28 – La Morada

The improvements include landscaping within one (1) storm drainage retention basin, concrete block walls and streetlights along the Avenue 50 and Van Buren Street frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Avenue 50 and Van Buren Street as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 29 – Somerset

The improvements include storm water retention basin landscaping and associated concrete block walls and wrought iron fencing, concrete block walls

along Avenue 54 and Frederick Street, streetlights, automatic sprinkler systems, and landscaping in and along Avenue 54 and Frederick Street. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, block walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 30 – Navarra / Sundate I

The improvements include storm drainage detention basin landscaping, street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements may include an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

District No. 31 – Los Jardines

The improvements include landscaping within five (5) storm drainage retention basins and appurtenant wrought iron fences, concrete block walls and streetlights along the Tyler Street and Avenue 53 frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Tyler Street and Avenue 53 as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants

and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 32 – Aventine

The improvements include storm water retention basin landscaping and associated concrete block walls, concrete block walls along Avenue 51 and Van Buren Street, streetlights, automatic sprinkler systems, monument signs, and landscaping in and along Avenue 51 and Van Buren Street. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, block walls, monument signs, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights, including replacement of light bulbs, fixtures, and related components.

District No. 33 – Vista Escondida

The improvements include landscaping within four (4) storm drainage retention basins, concrete block walls and streetlights along the Avenue 54 frontage, streetlights within the tracts, automatic sprinkler systems, parks, driveways, and landscaping located along Avenue 54 as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, fences, landscaping, sprinkler system, park landscaping, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants

and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 34 – Tierra Bonita

The improvements include landscaping within two (2) storm drainage retention basins, concrete block walls and streetlights along the Avenue 53, Frederick Street, and Calle Empalme frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Avenue 53, Frederick Street, and Calle Empalme as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, block walls, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components. Maintenance or repair of catch basins, manholes, pipes, drainage structures, and related storm drain facilities is excluded from the work to be performed under this Landscaping and Lighting District description.

District No. 35 – Bellissima

The improvements include park/storm drainage retention basin landscaping, concrete block walls and streetlights along the Avenue 53 and Frederick Street frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Avenue 53 and Frederick Street as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin/park landscaping, walls, fences, landscaping, sprinkler system, and lighting described

above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components. Maintenance or repair of catch basins, manholes, pipes, drainage structures, and related storm drain facilities is excluded from the work to be performed under this Landscaping and Lighting District description.

District No. 36 – Valencia

The improvements include landscaping within two (2) storm drainage retention basins, concrete block walls and streetlights along the Avenue 50 and Van Buren Street frontage, streetlights within the tracts, automatic sprinkler systems, driveways, and landscaping located along Avenue 50 and Van Buren Street as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, wrought iron fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 37 – Volk (Tract Map Not Recorded, Not Developed)

The improvements will include storm drainage detention basin landscaping, street lighting for the tracts, and parkway landscaping between the sidewalk and block wall adjacent to the tracts. The landscaping improvements may include an automatic sprinkler system, hardscape, and plant material located in the areas described. The sprinkler system will include electric supply, water supply, an automatic clock, piping, irrigation heads, and all other items incidental and

necessary to make the system operational. The landscaping will consist of trees, shrubs, ground cover, turf, and related materials.

District No. 38 – Rancho Cielo

The improvements include landscaping within four (4) storm drainage retention basins, concrete block walls and streetlights along the Avenue 52 frontage, streetlights within the tract, automatic sprinkler systems, driveways, and landscaping located along Avenue 52 as well as the areas described. The sprinkler system includes electric supply, water supply, an automatic clock, piping, irrigation heads, and other items incidental and necessary to make the system operational. The landscaping consists of trees, shrubs, ground cover, turf, and related materials.

The work to be performed includes maintenance of the retention basin landscaping, walls, fences, landscaping, sprinkler system, and lighting described above. This maintenance includes, but is not limited to, the cultivation, replacement, trimming, and training of all landscaping in accordance with standard horticultural practices; the furnishing and application of fertilizers, herbicides, and pesticides; the replacement of dead, damaged, or diseased plants and trees; the removal of all trash and debris from landscaped areas; the repair or replacement of defaced or damaged wrought iron fences and/or block walls; the maintenance and repair of the sprinkler system, including replacement of damaged, defective, or worn parts; the furnishing of electric power and water in adequate quantities to maintain the landscaping; and the furnishing of electric power for the streetlights and irrigation meter/valves, including replacement of landscaping, light bulbs, fixtures, and related components.

District No. 39 – Pulte Sevilla

Landscape improvements generally include, but are not limited to, approximately: eighty-six thousand, eight hundred and thirty-six (86,836) square feet of ground covering and shrubs including ninety-three (93) irrigated drought-tolerant trees. Landscaping located on two (2) storm drainage detention basin lots, also on the north side of Avenue 51, including the entrance at Via Prado as well as the corners of Calle Perez and Calle Larriva. The street lighting improvements include providing energy to operate twenty-four (24) street lighting poles within Tract Map No. 38084.

District No. 40 – Mariposa Pointe

Landscape improvements generally include, but are not limited to, approximately: eighty four thousand seven hundred and five (84,705) square feet of ground covering and shrubs including one hundred nineteen (119) irrigated drought-tolerant 24" box trees and landscaping located on Avenue 50 and Calhoun Street, two (2) storm drainage detention basin lots, a pedestrian trail, and landscape improvements at the entryways on Avenue 50 and Calhoun Street. The street lighting improvements include thirty-eight (38) street lighting poles within Tract Map

Nos. 32074, 32074-1 and 32074-2, and the City will be responsible for energy expenses.

Note: For any District that includes a drainage component, the work to be performed under this Landscaping and Lighting District description does not include maintenance or repair of catch basins, manholes, drywells, pipes, drainage structures, or related storm drain facilities.

D. DESCRIPTION OF CAPITAL IMPROVEMENT PROJECTS

Capital Improvement Projects Fiscal Year 2026/2027		
District	Cost	Description
31	\$500,000	Landscape and retention basin improvements ⁽¹⁾
38	250,000	
Total	\$750,000	

⁽¹⁾ The retention basin is shared between District 31 and District 38 and is located on Shady Lane between Avenue 52 and Avenue 53.

III. METHOD OF APPORTIONMENT

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, including the acquisition, construction, installation and servicing of landscape improvements and related facilities. The 1972 Act requires that the cost of these improvements be levied according to benefit rather than assessed value:

Section 22573 defines the net amount to be assessed as follows:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

The formula used for calculating assessments reflect the composition of parcels within the Districts and the improvements and activities to be provided and have been designed to fairly apportion the cost of providing those improvements based on a determination of the proportional special benefits to each parcel, consistent with the requirements of the 1972 Act and the provisions of Proposition 218 and Article XIID of the California Constitution.

A. CALIFORNIA CONSTITUTION

The costs to operate and maintain the District improvements are identified and allocated to properties by the special benefits conferred. The improvements provided and for which properties within the Districts are to be assessed are identified as local improvements and related amenities that were installed in connection with the development of the properties and/or would otherwise be required for the development of properties within the Districts and consistent with the provisions of the 1972 Act. The assessments and method of apportionment described herein are based on the premise that these improvements would otherwise not have been installed and maintained by the City. The improvements were installed as part of the development or planned development of the parcels within the Districts and the level of maintenance required for the improvements is greater than what the City would otherwise install, maintain, and fund elsewhere in the City.

Article XIID Section 2(d) defines District as follows:

“District” means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service.

Article XIID Section 2(i) defines Special Benefit as follows:

“Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XIID Section 4(a) defines Proportional Special Benefit assessments as follows:

“An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

B. BENEFIT ANALYSIS

The improvements provided within the Districts, for which properties will be assessed have been identified as necessary, desired and/or required for the orderly development of the properties within the Districts to their full potential, consistent with the development plans.

Special Benefits

The ongoing maintenance of landscaped areas within the Districts will provide aesthetic benefits to the properties and are intended to provide a more pleasant environment to walk, drive, live, and work. The primary function of these

improvements and related amenities is to serve as an aesthetically pleasing enhancement and open space area for the benefit of the immediate surrounding properties and development for which the improvements were constructed and installed, and/or were facilitated by the development or potential development of properties within the Districts. These improvements are an integral part of the physical environment associated with the parcels in the Districts and while these improvements may in part be visible to properties outside the Districts and/or occasionally accessed by the general public, if these improvements are not properly maintained, it is the parcels within the District that would be aesthetically burdened and/or impacted directly by potential environmental issues such as dust, debris, pests, water runoff, erosion, and fire hazards. Thus, the maintenance of these improvements provides advantages to the assessed properties that affect the assessed parcels in a way that is particular and distinct from their effect on other parcels and that real property in general and the public at large do not share.

Collectively these improvements, related amenities, and services which will be funded by the special benefit assessments, enhance the overall use, presentation, enjoyment, recreational access, and marketability of the properties, and ensure the long-term cost-efficiency of services that are obtained through the City provided maintenance (economy of scale).

General Benefit

In reviewing the location and extent of the specific landscaped areas and improvements to be funded by each District's assessments and the proximity and relationship to properties to be assessed, it is evident these improvements have been installed as part of the development of properties within the applicable District and/or are improvements and services that would otherwise be shared by and considered essential elements for development of those properties to their full and best use. Although some of the District improvements may be located on public streets and various rights-of-way, easements or other identified maintenance areas that may be visible and/or accessible to the general public, it is evident that the ongoing maintenance of these improvements are only necessary for the appearance and advantage of the properties within the applicable District. It is also evident that: (1) the maintenance of these improvements and the level of maintenance provided, has a direct and particular advantage (i.e., special benefit) only to those properties in close proximity to the improvements, including those developments and properties that are directly accessed from the streets where the improvements are located; and (2) such maintenance beyond that which is required to ensure the safety and protection of the general public and property in general, limits any indirect or incidental benefit that the public at large or properties outside the District receive from the improvements.

In the absence of a special funding district, these types of improvements would not have been installed by the developer per the City's conditions and the City's obligation to maintain these improvements would, for the most part, be limited to weed abatement, rodent control, and erosion control services only. This basic or baseline level of service would typically provide for periodic servicing of these areas on an as-needed basis. This baseline level of service would provide for

public safety and essential property protection to avoid negative impacts on adjacent roadways and vehicles traveling on those roadways and potential property damage. However, this baseline level of service results in a far less visually pleasing environment than is created with the enhanced level of services associated with the regular landscape maintenance that can be provided through each District's assessments.

In addition to this baseline level of service, it is recognized that there are indirect or incidental benefits to properties within the Districts as well as the general public that are associated with regular landscape maintenance services, including minimization of dust and debris, and decreased potential water runoff from the open space areas.

At the formation of Districts 39 and 40, it is also recognized that, with the regular maintenance of the improvements, the effort and cost to monitor and address these more indirect issues are reduced to isolated areas and/or less frequent servicing, and these activities generally represent less than two percent (2%) of the overall maintenance costs. Therefore, conservatively, it is estimated that the costs associated with these indirect and incidental benefits (General Benefit) do not exceed five percent (5%) of the combined annual expenses for General Maintenance for Districts 39 and 40, identified in the annual maintenance budget contained in "Part IV – Districts Budget" of this Report.

C. ASSESSMENT METHODOLOGY

To assess benefits equitably it is necessary to calculate each property's relative share of the special benefits conferred by the funded improvements and service. The Equivalent Benefit Unit (EBU) method of assessment apportionment is utilized for the Districts and establishes a basic unit (base value) of benefit and then calculates the benefit derived by each assessed parcel as a multiple (or a fraction) of that basic unit. The EBU method of apportioning special benefits is typically seen as the most appropriate and equitable assessment methodology for assessment districts, as the benefit to each parcel from the improvements are apportioned as a function of comparable property characteristics which may include but is not limited to land use and property size.

Pursuant to the 1972 Act, the District's costs may be apportioned by any formula or method that fairly distributes the net amount to be assessed, among all assessable parcels in proportion to the estimated benefits to be received by each parcel from the improvements. The benefit formula used for the District should reflect the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on special benefit to each parcel.

EBU Application

Single Family Residential – This land use is defined as a fully subdivided residential home site with or without a structure and the improvements and services associated with the parcel have been accepted or will be accepted by the

City for maintenance during the fiscal year. This land use is assessed at 1.0 EBU per lot or parcel.

Planned-Residential Development – This land use is defined as any property that specific number of proposed single-family residential lots has been approved for development (not fully subdivided). This land use type shall be assigned 1.0 EBU per lot at build-out.

Vacant – This is defined as property that has been identified as parcels with no development but has development potential. Although it is recognized that the improvements provided within the District were primarily constructed and installed as the result of property development, it is also recognized that the majority of these improvements were constructed in part to support the overall development of properties within the District and/or development to their full and best use, including vacant undeveloped properties.

Assessment Calculations

The benefit formula applied to parcels within each District is based on the preceding Equivalent Benefit Unit (EBU) discussion. Each parcel's EBU correlates to the parcel's special benefit received as compared to all other parcels benefiting from the improvements. The following formula is used to calculate each parcel's EBU (proportional benefit).

$$\text{Parcel Type EBU} \times \text{Units} = \text{Parcel EBU}$$

For each District, the total number of EBU's for the fiscal year equals the sum of all individual EBUs applied to parcels in that District. An assessment amount per EBU (Rate) for the improvements is established by taking the total cost of the improvements (amount budgeted) and dividing that amount by the total number of EBUs of all parcels to be assessed. This Rate is then applied back to each parcel's individual EBU to determine the parcel's proportionate benefit and assessment obligation for the improvements.

$$\text{Total Balance to Levy (for the District)} / \text{Total EBU (to be assessed)} = \text{Levy per EBU}$$

$$\text{Levy per EBU} \times \text{Parcel EBU} = \text{Parcel Levy Amount}$$

D. ASSESSMENT RANGE FORMULA

Any new or increased assessment requires certain noticing and meeting requirements by law. Prior to the passage of Proposition 218 (California Constitution Articles XIII C and XIII D), legislative changes in the Brown Act defined a "new or increased assessment" to exclude certain conditions. These conditions included "any assessment that does not exceed an assessment formula or range of assessments previously adopted by the agency or approved by the voters in the area where the assessment is imposed." This definition and conditions were later confirmed through Senate Bill 919 (the Proposition 218 implementing legislation).

The purpose of establishing an assessment range formula is to provide for a reasonable inflationary adjustment to the annual assessment amount without undergoing costly noticing, balloting and mailing procedures, which would be added to the District's costs and assessments. As part of the District formation process, balloting of property owners is required pursuant to the Article XIID Section 4. The property owner ballots include an Assessment to be approved, as well as the approval of an assessment range formula.

District No.'s 1 through 4, and 6 through 11, and 38 – The maximum assessment rates do not increase and will remain the same from Fiscal Year 2025/2026.

District No.'s 12 through 25, and 27 through 36 – The maximum assessment rate may increase by the percentage increase of the Consumer Price Index ("CPI") or three percent (3%). The CPI used shall be as determined by the Bureau of Labor Statistics for a similar period of time.

Each fiscal year, the Engineer shall compute the percentage difference between the CPI. By approval of the City Council, the assessment rate that may be levied for each EBU may be increased in each year in accordance with the U.S. Bureau of Labor Statistics Data, All Urban Consumers, Riverside-San Bernardino-Ontario CPI index. Such assessment adjustments shall not be considered an increase to the assessment rate. A proposed assessment that exceeds the adjusted assessment rate will require property owner balloting approval before the increase may be imposed.

For Fiscal Year 2026/2027, the change in the Annual CPI for the All Urban Consumers, Riverside-San Bernardino-Ontario CPI index is 3.24%; therefore, the assessment rate will be adjusted by 3.24%.

District No.'s 39 and 40 – The maximum assessment rate may increase by the greater of three percent (3.00%) or the annual percent increase of the Consumer Price Index determined by the Bureau of Labor Statistics.

The Maximum Assessment is adjusted annually and is calculated independent of the annual budget and proposed annual assessment to be levied for the upcoming fiscal year. Any proposed annual assessment (rate per EBU less than or equal to this Maximum Assessment) is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

Although the Maximum Assessment will increase each year, the actual assessment levied may remain unchanged. The Maximum Assessment adjustment is designed to establish a reasonable limit on assessments. The Maximum Assessment calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the

adjusted maximum amount. If the budget and assessment for the fiscal year do not require an increase, or the increase is less than the adjusted Maximum Assessment, then the required budget and assessment may be applied without additional property owner balloting. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to a property owner protest ballot proceeding.

DRAFT

IV. DISTRICT BUDGETS

The 1972 Act provides that the estimated costs of the improvements shall include the total cost of the improvements, including incidental expenses.

The 1972 Act also provides that the amount of any surplus, deficit, or contribution be included in the estimated cost of improvements. The net amount to be assessed on the lots or parcels within the Districts is the total cost of maintenance, and servicing with adjustments either positive or negative for reserves, surpluses, deficits, and/or contributions.

DRAFT

39	Sevilla	38084
40	Mariposa Pointe	32074

APPENDIX B – 2026/2027 PRELIMINARY ASSESSMENT ROLL

Parcel identification, for each lot or parcel within the District(s), shall be the parcel as shown on the County Assessor Parcel Maps and/or the Riverside County Secured Tax Roll for the year in which this Report is prepared.

Non-assessable lots or parcels may include government owned land; public utility owned property, land principally encumbered with public rights-of-way or easements and dedicated common areas. These parcels will not be assessed.

A listing of parcels within the Districts, along with the proposed assessment amounts, has been submitted to the City Clerk, and by reference, are made part of this Report.

Upon approval of the Report, and confirmation of the assessments, the assessment information will be submitted to the County Auditor/Controller and included on the property tax roll for Fiscal Year 2026/2027. If the parcels or assessment numbers within the Districts and referenced in this Report, are re-numbered, re-apportioned or changed by the County Assessor's Office after approval of the Report, the new parcel or assessment numbers with the appropriate assessment amount will be submitted to the County Auditor/Controller. If the parcel change made by the County includes a parcel split, parcel merger or tax status change, the assessment amount submitted for the new parcels or assessment numbers will be based on the method of apportionment and levy amount approved in this Report by the City Council.
