

**RESOLUTION NO. PC2021-25**

**A RESOLUTION OF THE CITY OF COACHELLA PLANNING COMMISSION APPROVING CONDITIONAL USE PERMIT NO. 346, CONDITIONAL USE PERMIT NO. 347, AND ARCHITECTURAL REVIEW 21-12 TO ALLOW THE CONSTRUCTION OF A 2,600 SQ. FT. DRIVE-THRU RESTAURANT AND A 20,422 SQ. FT. SUPERMARKET WITH TYPE 20 (BEER AND WINE) ALCOHOL SALES ON 2.85 ACRES OF VACANT LAND LOCATED AT THE NORTHEAST CORNER OF FIRST STREET AND CESAR CHAVEZ STREET. (APN 778-020-007 AND 778-010-017) COACHELLA RETAL REALTY ASSOCIATES, LP (APPLICANT).**

**WHEREAS** Coachella Retail Realty Associates, LP filed an application for Conditional Use Permit (CUP 346), CUP 347, Architectural Review (AR) 21-12 and amendments to CUP 321, AR 20-03, and Tentative Parcel Map (TPM) 37940 to allow the construction of a 2,028 sq. ft. drive-thru coffee shop, 2,600 sq. ft. drive-thru restaurant, and a 20,422 sq. ft. supermarket located at the northeast corner of First Street and Cesar Chavez Street (APN 778-020-007 and 778-010-017); and,

**WHEREAS** on December 15, 2021 and January 5, 2022, the Planning Commission of the City of Coachella held a duly noticed public hearing on the subject application, considered written and oral comments, and facts and evidence presented by the applicant, City staff, and other interested parties; and

**WHEREAS** the proposed use is necessary or desirable for the development of the community, is consistent with the objectives of the City's General Plan, and is not detrimental to the existing uses or the uses specifically permitted in the zone in which the proposed use is to be located; and,

**WHEREAS** the proposed site is adequate in size and shape to accommodate the proposed development; and,

**WHEREAS**, the Planning Division completed an initial environmental assessment of the above matter and in accordance with the California Environmental Quality Act (CEQA) recommends the Planning Commission determine the project will not result in any new environmental effects that were not previously analyzed as part of the original project under Environmental Initial Study 07-16 on May 7, 2008 for Fountainhead Plaza for all phases of the project.

**WHEREAS** the conditions as stipulated by the City are necessary to protect the public health, safety and welfare of the community.

**NOW, THEREFORE, BE IT RESOLVED**, that the Planning Commission of the City of Coachella, California hereby resolve as follows:

**Section 1.** Incorporation of Recitals

The Planning Commission hereby finds that all of the facts in the Recitals are true and correct and are incorporated and adopted as findings of the Planning Commission as fully set forth in this resolution.

**Section 2.** CEQA Findings

Based upon its review of the entire record, including the Staff Report, any public comments or testimony presented to the Planning Commission, and the facts outlined below, the Planning Commission hereby finds and determines that the proposed project will not result in any new environmental effects that were not previously analyzed as part of the original project under Environmental Initial Study 07-16 on May 7, 2008 for Fountainhead Plaza for all phases of the project.

**Section 3.** Conditional Use Permit (CUP 346) and Architectural Review Findings

With respect to Conditional Use Permit (CUP) 346 and Architectural Review 21-12, the Planning Commission finds as follows for the proposed for the 2,600 sq. ft. drive-thru restaurant and the 20,422 sq. ft. supermarket:

1. The Conditional Use Permit and Architectural Review is consistent with the goals, objectives, policies, and implementation measures of the Coachella General Plan 2035, except as recognized that the project has vested rights to the development of drive-thru restaurants and service stations previously vested under CUP No. 233 and AR No. 07-20. Staff requested direction from the Planning Commission at the June 3, 2015, Planning Commission hearing through a policy discussion item on the agenda. The Commission did find that the proposed drive-thru and service station are in harmony with the immediate vicinity of the proposed site and indicated that any future proposed development on the vacant portion of the site must be in strict compliance with the newly adopted City of Coachella General Plan 2035. The site has a Downtown Center land use designation that allows for a range of retail uses. The proposed uses on the site are in keeping with the policies of the Downtown Center land use classification and the Project is internally consistent with other General Plan policies for this type of development.
2. The proposed uses will be located, designed, constructed, operated and maintained so as to be compatible with the existing or intended character of the general vicinity and shall not change the essential character of the same area. The proposed project is in compliance with the applicable development standards for the C-G (General Commercial) Zoning District of the City's Zoning Code. The site plan proposes the construction and operation of a development consisting of a 2,600 sq. ft. drive-thru restaurant and 20,422 sq. ft. supermarket, on 2.85 acres of vacant land of a 5.9 acre site within Tentative Parcel Map 37940, in accordance with section 17.74.010 of the Coachella Municipal Code. The drive-thru restaurant can accommodate 10 vehicles in drive-thru lane and satisfies the City's minimum stacking requirement of 8 vehicles.
3. Consideration is given to harmony in scale, bulk, coverage and density, to the availability of public facilities and utilities, to harmful effect, if any, upon desirable neighborhood character, to the generation of traffic and the capacity of surrounding streets, and to any other relevant impact of the development. The proposed project is in compliance with the applicable

development standards for the C-G (General Commercial) Zoning District of the City's Zoning Code. The proposed development consists a 2,600 sq. ft. drive-thru restaurant and 20,422 sq. ft. supermarket, on 2.85 acres of vacant land of a 5.9 acre site which will provide City residents and regional residents with an alternative dining choice and an additional service station with a convenience store which will provide convenience to motorist within the region. The proposed use is compatible with existing adjacent uses which include similar land uses and large commercial development sites.

4. The Project will be compatible with neighboring properties with respect to land development patterns. The proposed development would development according to the development standards of the C-G Zone at a scale, massing, and aesthetic appeal of existing development is in keeping with development of neighboring properties.
5. The proposed use will include three new vehicular approaches to the property designed to improve off-site and on-site vehicular circulation for existing traffic on surrounding public streets or roads. Evidence of this is reflected in the provided site plan design. The three new proposed drive aisles and internal circulation have been reviewed and approved by the Fire Department and the Engineering Department.

**Section 4.** Conditional Use Permit Findings – CUP 347

With respect to Conditional Use Permit (CUP) 347, the Planning Commission finds as follows for the proposed for Type 20 Off-Sale Beer and Wine at the 20,442 sq. ft. supermarket:

1. The Conditional Use Permit is consistent with the goals, objectives, policies, and implementation measures of the Coachella General Plan 2035, except as recognized that the project has vested rights to the development of drive-thru restaurants and service stations previously vested under CUP No. 233 and AR No. 07-20. Staff requested direction from the Planning Commission at the June 3, 2015, Planning Commission hearing through a policy discussion item on the agenda. The Commission did find that the proposed drive-thru and service station are in harmony with the immediate vicinity of the proposed site and indicated that any future proposed development on the vacant portion of the site must be in strict compliance with the newly adopted City of Coachella General Plan 2035. The site has an Downtown Center land use designation that allows for a range of retail uses. The proposed uses on the site are in keeping with the policies of the Downtown Center land use classification and the Project is internally consistent with other General Plan policies for this type of development.
2. The proposed uses will be located, designed, constructed, operated and maintained so as to be compatible with the existing or intended character of the general vicinity and shall not change the essential character of the same area. The proposed project is in compliance with the applicable development standards for the C-G (General Commercial) Zoning District of the City's Zoning Code. The site plan proposes the construction and operation of a development consisting of a 2,600 sq. ft. drive-thru restaurant and 20,422 sq. ft. supermarket, on 2.85 acres of vacant land of a 5.9 acre site within Tentative Parcel Map 37940, in accordance with section 17.74.010 of the Coachella Municipal Code.
3. Consideration is given to harmony in scale, bulk, coverage and density, to the availability of

public facilities and utilities, to harmful effect, if any, upon desirable neighborhood character, to the generation of traffic and the capacity of surrounding streets, and to any other relevant impact of the development. The proposed project is in compliance with the applicable development standards for the C-G (General Commercial) Zoning District of the City's Zoning Code. The proposed development consists a 2,600 sq. ft. drive-thru restaurant and 20,422 sq. ft. supermarket, on 2.85 acres of vacant land of a 5.9 acre site which will provide City residents and regional residents with an alternative dining choice and an additional service station with a convenience store which will provide convenience to motorist within the region. The proposed use is compatible with existing adjacent uses which include similar land uses and large commercial development sites.

4. The Project will be compatible with neighboring properties with respect to land development patterns. The proposed development would development according to the development standards of the C-G Zone at a scale, massing, and aesthetic appeal of existing development is in keeping with development of neighboring properties.
5. The proposed use will include three new vehicular approaches to the property designed to improve off-site and on-site vehicular circulation for existing traffic on surrounding public streets or roads. Evidence of this is reflected in the provided site plan design. The three new proposed drive aisles and internal circulation have been reviewed and approved by the Fire Department and the Engineering Department.
6. Although the Aldi supermarket Type 20 Off-Sale Beer and Wine establishment does fall within seven hundred (700) feet, measured from property line to property line, of a use for religious worship (Centro Catolico Martin Ortiz), and residential use, the benefit of the supermarket outweighs the distance restrictions and the public convenience or necessity is justified to issue the off-sale beer and wine license as the supermarket will offer a wide selection of food products, will increase the availability of fresh produce to Coachella residents and provide goods at a location within walking distance from surrounding neighborhoods in keeping with the walkable character promoted by the Downtown Center land use designation for the Coachella General Plan 2035.
7. Although the Aldi supermarket Type 20 Off-Sale Beer and Wine establishment does fall within seven hundred (700) feet, measured from property line to property line, of an existing liquor, off-sale use (Walgreens, 99 Cent Store, and Cardenas market) the benefit of the supermarket outweighs the distance restrictions and the public convenience or necessity is justified to issue the off-sale beer and wine license as the supermarket will offer a wide selection of food products, will increase the availability of fresh produce to Coachella residents and provide goods at a location within walking distance to the immediate neighborhood not provided by another existing establishment in keeping with the walkable character promoted by the Downtown Center land use designation for the Coachella General Plan 2035. A condition of approval for CUP 347 requires that not greater than five percent of the sales floor area or one thousand (1,000) square feet, whichever is less, shall be used for the display or sale of alcoholic beverages.
8. The supermarket Type 20 Off-Sale Beer and Wine establishment at the location will not adversely affect the economic welfare of the nearby community, but rather would expand the availability of jobs by a major anchor tenant and would serve as a catalyst to the

development of the other vacant retail pads within the commercial center which would also provide jobs and increase the City's sales tax revenues.

9. The exterior appearance of the structure of the proposed establishment will not be inconsistent with the exterior appearance of commercial structures already constructed or under construction within the immediate neighborhood so as to cause blight or deterioration, or substantially diminish or impair the property values within the neighborhood insofar that the architectural design of the building is modified as conditioned inclusive of architectural enhancements to the front elevations and extending parapet walls above the height of rooftop mechanical equipment for screening purposes.

**Section 5.** Planning Commission Approval

Based on the foregoing recitals and findings above, and the written and oral comments, facts and evidence presented, the City of Coachella Planning Commission hereby approves Conditional Use Permit (CUP 346), CUP 347 and Architectural Review 21-12 for the Fountainhead Plaza Phase III development and subject to the Conditions of Approval as set forth in "Exhibit A"

**PASSED APPROVED and ADOPTED** this 5<sup>th</sup> day of January 2022.

---

Stephanie Virgen, Chairperson  
Coachella Planning Commission

**ATTEST:**

---

Gabriel Perez  
Planning Commission Secretary

**APPROVED AS TO FORM:**

---

Carlos Campos  
City Attorney

I HEREBY CERTIFY that the foregoing Resolution No. PC2021-25, was duly adopted at a regular meeting of the Planning Commission of the City of Coachella, California, held on the 5<sup>th</sup> day of January 2022, by the following roll call vote:

AYES: Commissioner Leal, Commissioner Figueroa, Commissioner Gonzalez, Vice Chair Navarrete and Chair Virgen.

NOES: None.

ABSENT: None

ABSTAIN: None

---

Gabriel Perez  
Planning Commission Secretary

**CONDITIONS OF APPROVAL**  
**CONDITIONAL USE PERMIT (CUP) NO. 346, CUP NO. 347, ARCHITECTURAL**  
**REVIEW NO. 21-12 FOUNTAINHEAD PLAZA (ALDI SUPERMARKET AND PANDA**  
**EXPRESS)**

**General Conditions**

1. Conditional Use Permit No. 346, CUP 347, and Architectural Review 21-12 shall be valid for 12 months from the effective date of said Planning Commission approvals unless the applicant requests an extension of time and granted by the Planning Commission. The conditional use permit shall expire and shall become void one year following the date on which the conditional use became effective, unless prior to the expiration of one year a building permit is issued and construction is commenced and diligently pursued toward completion, or a certificate of occupancy is issued.
2. The applicant shall defend, indemnify and hold harmless the City of Coachella, its officials, officers, employees, and agents from and against any claim, action, or proceeding against the City, its officials, officers, employees or agents to attack, set aside, void or annul any project approval or condition of approval of the city concerning this project, including but not limited to any approval or condition of approval or mitigation measure imposed by the City Council or Planning Commission. The City shall promptly notify the applicant of any claim, action, or proceeding concerning the project and the City shall cooperate fully in the defense of the matter. The City reserves the right, at its own option, to choose its own attorney to represent the City, its officials, officers, employees and agents in the defense of the City Attorney, within five days of the effective date of this approval.
3. Within five business days of project approval, the applicant shall submit to the Planning Division a check made payable to the County of Riverside in the amount of \$50 for filing the CEQA Notice.
4. The applicant shall be required to comply with the City's Art in Public Places Ordinance. If the applicant elects to place artwork on the project site, the applicant shall place artwork in outdoor areas of the private property accessible to the public in a manner satisfactory to the Public Arts Commission. If the applicant elects to pay in-lieu art fees, then the fees shall be deposited into the Public Arts Fund at an amount of (1) One-half (1/2) of one percent (1%) for new commercial and industrial construction.
5. All plans, as shown, are considered "conceptual," subject to revisions as called out by the conditions of this resolution. The plans shall not be stamp-approved until all conditions requesting revisions have been satisfied during the building plan check process. Any substantial changes to the plans, including changes shown on future building permit plans deemed by Staff to not be within substantial conformance with this approval, will require an amendment to the approval of the conditional use permit.

6. All plan submittals are the responsibility of the developer; this includes plan submittals to the City of Coachella, the Riverside County Fire Department or to other agencies for whom plan review and approval is required.
7. The working drawings shall include within the first four pages a list of all conditions of approval included in this resolution.
8. The project shall comply with the Mitigation Measures of Environmental Initial Study 07-16.

### **General - Engineering**

9. A focused Traffic Memo (TM) shall be submitted for the project by an appropriately licensed professional engineer. The review shall include but not limited to confirmation of trip distribution and impact on existing transportation facilities, all relevant, ingress and egress movements, lines of sight, queuing analysis, and alignment studies, signing and striping plan. Applicant shall obtain approval of site access and circulation from the Fire Marshall.
10. A preliminary soils report shall be prepared for the project by an appropriately licensed professional engineer. At a minimum, the soils report shall provide specific analyses and recommendations for grading, pavement structural sections, and infiltration.
11. A comprehensive drainage report, prepared by California Registered Civil Engineer, shall be submitted for review and approval by the City Engineer prior to issuance of any permits. The report shall contain pre- and post-development hydrology maps showing on-site and off-site tributary drainage areas and shall be prepared in accordance with the requirements of the Riverside County Flood Control District. Adequate provisions shall be made to accept and conduct the existing tributary drainage flows around or through the site in a manner which will not adversely affect adjacent or downstream properties. If the design of the project includes a retention basin, it shall be sized to contain the runoff resulting from a 10-year storm event and the runoff from a 100-year storm event shall be contained within basin with shallow ponding (3.5' max.). The basin shall be designed to evacuate a 10-year storm event within 72 hours. The size of the retention basin(s) shall be determined by the hydrology report and be approved by the City Engineer. Retention basin shall be provided with a minimum of 2.00 feet sandy soil if determined to contain silt or clay materials. Maximum allowable percolation rate for design shall be 10 gal./s.f./day unless otherwise approved by the City Engineer. A percolation test for this site is required to be submitted. A combination drywell vertical drain field shall be constructed at all points where runoff enters the retention basin. Drywell & vertical drain field design shall be based on soils borings made at the proposed drywell locations after the retention basins have been rough graded. Minimum depth shall be 45-feet. A log that includes sieve analysis for each strata of the borings shall be submitted to the City Engineer for confirmation of depth of the vertical drain fields. Underground retention under the proposed parking area will be considered as an alternative to surface retention subject to the approval of the City Engineer.
12. Prepare and record necessary drainage easements to implement the project in accordance

with drainage law.

13. A storm water quality management plan shall be prepared for the project by California Registered Civil Engineer in compliance with NPDES and State Water Quality Control Board regulations. The project shall be designed to specify preferential use of Low Impact Development Best Management Practices that reduce pollutants and runoff volume.
14. Applicant shall comply with the valley wide NPDES permit requirements including but not limited to submittal of a WQMP for plan review accompanied by a \$3,000 plan check deposit for approval including executed maintenance agreement. All unused plan check fees will be refunded to the applicant upon approval of the Final WQMP.
15. The developer shall submit a Fugitive Dust Control and Erosion Control plan in accordance with Guidelines set forth by CMC and SCAQMD to maintain wind and drainage erosion and dust control for all areas disturbed by grading. Exact method(s) of such control shall be subject to review and approval by the City Engineer. No sediment is to leave the site. Additional securities, in bond form, in amount of \$2,000.00 per acre of gross area, and a one-time cash deposit of \$2,000.00 are required to insure compliance with this requirement. No work may be started on or off site unless the PM-10 plan has been approved, the original plans, and executed dust control agreement, are filed in the engineering department at the City of Coachella.
16. Applicant shall submit for review and approval by the City Engineer all documents related to any existing and proposed on-site and off-site easements that may affect the development of the site. All easements shall be identified on the engineering plans.
17. Site access improvements shall be in conformance with the requirements of Title 24 of the California Administrative Code. This shall include access ramps for off-site and on-site streets as required.
18. Applicant shall obtain approval of site access and circulation from Fire Marshall.
19. The applicant shall provide necessary utility easements for IID and underground overhead distribution lines within the project boundaries. Applicant shall submit to the City a letter from IID that satisfies this requirement.
20. The applicant shall pay all necessary plan check, permit and inspection fees. Fees will be determined when plans are submitted to the City Engineering Department for plan check.

### **Rough Grading**

21. Prepare and submit rough grading and erosion control plans for the project.
22. The project's soils engineer shall certify to the adequacy of the grading plan.
23. All projects developing one (1) acre or more of total land area, or which are part of a larger

phased development that will disturb one acre of land, are required to obtain coverage under the State Water Resources Control Board's (SWRCB) General Permit for storm water discharges associated with construction activity. Proof of filing a Notice of Intent (NOI) with the SWRCB for coverage under this permit is required. The Waste Discharger's Identification Number (WDID), issued by the SWRCB, must be shown on the grading plans. The project's Storm Water Pollution Prevention Plan shall be submitted for the City's review and approval.

### **Precise Grading**

24. A precise grading/improvement plan, prepared by a California Registered Civil Engineer, showing building footprints, pad elevations, finished grades, drainage routes, retaining walls, erosion control, slope easements, and all other pertinent information shall be submitted for review and approval by the City Engineer.
25. Rough grading shall be certified by the project soils engineer prior to issuance of a permit for precise grading or building construction.
26. Provide and record a reciprocal use and maintenance agreement to assure common ingress and egress and joint maintenance of all common access, parking areas and drives.
27. If applicant is planning to build a wall, separate permits shall be required for wall construction. The maximum height of any wall shall be limited to six (6) feet as measured from an average of the ground elevations on either side.

### **Street Improvements**

28. Street improvement plans prepared by a California Registered Civil Engineer shall be submitted for review and approval by the City Engineer. All street improvements including street lights shall be designed and constructed in conformance with City Municipal Code, General Plan, and Standards and Specifications. Street flow line grade shall have a minimum slope of 0.35 %.
29. Applicant shall construct all off-site and on-site improvements including street pavement, curb, gutter, sidewalk, street trees, perimeter walls, perimeter landscaping and irrigation, storm drain, street lights, and any other incidental works necessary to complete the improvements. Driveways shall conform to City of Coachella standards for commercial driveways with a minimum width of 24.00 feet and curbed radius entrances.
30. Applicant shall construct and dedicate the following streets and street improvements to conform to the General Plan and/or requirements of Traffic Study.
  - 1) Cesar Chavez Street- Public Roadway as shown on the RAC and per these comments shall include the following:
    - a This Street is listed as a Primary Arterial with a specified width in the General Plan of 94 feet. Current right-of-way exists at a distance of 55 feet from centerline. No

- additional right of way dedication is required at this time.
- b Existing Asphalt, curb gutter and medians shall be protected in place to the extent possible. In locations where street cuts are required for installation of driveways, bus turnouts, utility cuts, etc., the Street shall be milled 0.1 feet deep and repaved from within the entire lane width where the cut has occurred.
  - c Applicant shall install all sidewalk, curb and gutter transitions to uniformly connect to existing adjacent improvements and coordinate installation and/or relocation of fire hydrants, water meters, storm drain, wells, streetlights, landscape and all other appurtenances as required to the satisfaction of the City Engineer.
  - d Applicant shall construct all appurtenant roadway components within project limits such as, but not limited to: sidewalk, ADA ramps, Traffic control striping, legends, Traffic control signs, Street Lights and street name signs to the satisfaction of the City Engineer.
  - e Applicant shall construct a bus turnout per City of Coachella Standard S-24 and relocate and reinstall the existing bus stop located on Cesar Chavez Street in front of the Fountainhead project to the satisfaction of the City Engineer prior to the issuance of the first COO.
  - f Applicant shall underground all existing dry utilities if existing at northbound lane within project limits such as, but not limited to: power poles, telecommunication poles and all other existing dry utilities to the satisfaction of the City Engineer.
- 2) 1st Street- Public Roadway as shown on the RAC and per these comments shall include the following:
- a. This street is within Pueblo Viejo District Limit with 75 feet of right-of-way.
  - b. Applicant shall install all sidewalk and curb and gutter transitions to uniformly connect to existing adjacent improvements and coordinate installation and/or relocation of fire hydrants, water meters, storm drain, wells, street lights and all other appurtenances by Pueblo Viejo Design Guidelines as required to the satisfaction of the City Engineer.
  - c. Applicant shall construct all appurtenant roadway components on north side of 1st Street between Cesar Chavez Street and Orchard Avenue such as, but not limited to: curb and gutter, sidewalk, Landscaping, Decorative pavers Elements, Decorative Street Lights, ADA ramps, Traffic control striping, legends, Traffic control signs and street name signs to match Downtown Pueblo Viejo Design Guidelines and to the satisfaction of the City Engineer. Decorative elements for the Pueblo Viejo Design Guidelines shall only be applicable to First Street between Palm Ave and Orchard Street.
  - d. Applicant shall install a 3-way stop intersection on Orchard Street including all three crosswalks, four ADA ramps and street lighting to the satisfaction of the City Engineer.
  - e. Applicant shall underground all existing dry utilities at westbound lane on 1st Street between Cesar Chavez Street and Orchard Avenue such as, but not limited to: power poles, telecommunication poles and all other existing dry utilities to the satisfaction of the City Engineer.
  - f. Applicant shall improve Intersection at the Northeast and southeast corners of 1st

street and Cesar Chavez Street including new ADA ramps, Crosswalk, Traffic Signal modification/relocation, Striping and Landscaping by Pueblo Viejo Design Guidelines and to the Satisfaction of the City Engineer.

### **Sewer and Water Improvements**

31. Sewer & Water Improvement Plans prepared by a California Registered Civil Engineer shall be submitted for engineering plan check and City Engineer approval.
32. Applicant shall construct all off-site and on-site water improvements and any other incidental works necessary to complete the improvements. Size and location of sewer and water improvements shall be approved by the City Engineer.

### **Prior to Issuance of Building Permits**

33. A final soils report, compaction report and rough grading certificate shall be submitted and approved prior to issuance of any building permits.
34. Provide a set of proposed Covenants, Conditions and Restrictions (CC&R) for review and approval. The proposed CC&Rs shall contain the Association's/Owner's maintenance obligations with respect to various facilities including, but not limited to, right-of-way and private landscaping, private streets, sidewalks, utilities, street lights, and Water Quality Management Plan (WQMP) features. This document must be submitted to and approved by the City before it is submitted to any other governmental entity.
35. Prior to issuance of building permits, all required public improvements, including landscaping and lighting of the retention basins, and landscaped areas along the exterior streets, shall be completed or secured with appropriate sureties to the satisfaction of the City Engineer. An engineering final inspection is required.

### **Prior to Release of Occupancy Permits/Acceptance of Public Improvements**

36. The applicant's Civil Engineer shall field verify and certify that all BMPs are designed, constructed, and functional in accordance with the approved WQMP.
37. Prior to issuance of certificate of occupancy, all public improvements, including landscaping and lighting of the retention basins, and landscaped areas along the exterior streets, shall be completed to the satisfaction of the City Engineer. An engineering final inspection is required. "As-built" plans shall be submitted to and approved by the City Engineer. Prior to acceptance of the improvements by the City, such plans, once approved, shall be given to the city on compact disk in AutoCad format. All off-site and on-site improvements shall be completed to the satisfaction of the City Engineer prior to acceptance of improvements for maintenance by the City. A Temporary Certificate of Occupancy may be issued prior to completion of aforementioned improvements.

### **Landscaping**

38. Final landscaping and irrigation plans shall be submitted to the Development Services Department for review and approval. Said plans shall conform to the landscaping plan submitted as part of the subject Architectural Review, and as conditioned herein.
39. Landscaping and irrigation shall be provided in accordance with Section 17.54.010(J) of the Municipal Code and in accordance with the State Model Water Efficient Landscape Ordinance (AB 1881). Water budget calculations, including the Maximum Applied Water Allowance (MAWA) and Estimated Total Water Use (ETWU) shall be provided as part of the landscaping and irrigation plan.
40. The proposed landscape shall be in conformance with the City's Landscape Development Guidelines and should include water-efficient plantings as encouraged for the commercial development. A detailed landscape and irrigation plan shall be submitted that addresses landscape requirements for the project site. All landscaping shall fulfill the general requirements of the Coachella Municipal Code Chapter 17.54 as follows:
  - a. Internal landscaping equal to a minimum of five percent 5% of the parking area and driveway area is required and shall be distributed throughout the parking area.
  - b. All landscape planter beds in interior parking areas shall be not less than five (5) feet in width and bordered by a concrete curb not less than six (6) inches nor more than eight (8) inches in height adjacent to the parking surface. The landscaped planter along the north side of the drive-thru lane shall be a minimum of five feet in width.
  - c. Where a drive aisle abuts the side of a parking space a landscaped planter shall separate the parking space from the drive aisle.
  - d. At least one (1) fifteen (15) gallon tree shall be provided within the parking area for every ten (10) parking spaces, with size, height and species acceptable to staff.
  - e. All internal landscape planters shall have permanent and automatic sprinkler or drip irrigation systems.
41. The landscape plan shall be revised to include shade trees planted in tree planters along the front elevation of the Aldi Supermarket, planted at a mature height, between the main drive aisle and the building to provide shade to pedestrians, reduce heat island effect, and enhance the visual quality of the commercial center. The revised landscape plan shall require approval by the Development Services Director.
42. The Planning Division may request minor substitutions of plant materials or request additional sizing or quantity of materials during plan check. Revisions to the landscape plans may occur with administrative approvals by the Development Services Director or designee to ensure overall landscape consistency within the existing landscape schedule of the commercial center. The landscape plan shall be revised to include date palm trees at the Cesar Chavez Street and 1<sup>st</sup> Street corner landscape area to replace fan palms at a minimum brown trunk height of 10 feet.
43. The applicant shall submit, and must obtain approval from the Development Services Director, a letter from a registered landscape architect confirming that landscaping and irrigation have been installed in accordance with the approved plans prior to issuance of a

certificate of occupancy. Any damaged, dead or decayed landscaping landscape areas within the remainder of the commercial center shall be replaced per approved landscape plans upon landscape inspection by the Development Services Department and prior to issuance of a certificate of occupancy. A temporary certificate of occupancy may be issued prior to completion of improvements.

44. Rear screening shall be provided along the rear property line of Major Pad (Aldi) and Pad 4 (Panda Express) consisting of block wall at 6 feet in height subject to design approval by the Development Services Director. The final landscape plan shall identify the block wall and include vines planted along the expanse of the wall. Existing interim chain link fencing along the frontage of remaining undeveloped parcels (Parcels 5, 6, 7) of Tentative Parcel Map 37940 at the commercial center shall be replaced with fencing and windscreen that is adequately secured and braced to the satisfaction of the Building Official prior to issuance of a temporary or final certificate of occupancy.
45. The site landscaping shall be maintained in good condition at all times, and the owner or operator of the facility shall be responsible for replacing any damaged, dead or decayed landscaping as soon as practicable, and in accordance with the approved landscape plan.

#### **Imperial Irrigation District**

46. The applicant shall meet and confirm any construction or operation on IID property or within its existing and proposed right-of-way or easements will require an encroachment permit, including but not limited to: surface improvements such as proposed new streets, driveways, parking lots, landscape; and all water, sewer, storm water, or any other above ground or underground utilities (e.g. power lines). The applicant shall submit proof of compliance with any requirements by IID.
47. Any and all mitigation necessary as a result of the construction, relocation and/or upgrade of IID facilities is the responsibility of the project proponent.
48. All on-site utility lines and overhead power line connections must be undergrounded on the project site and in the public utility easement areas along the street frontages. High-powered distribution lines may remain overhead, subject to IID review and approval.

#### **Coachella Valley Water District:**

49. Applicant must comply with Coachella Valley Water District regulations pertaining to irrigation infrastructure protect-in-place practices, relocation or abandonment of infrastructure, if needed.

#### **Fire Department**

50. Fire Hydrants and Fire Flow: Prior to the issuance of building permits, plans for the water system shall be submitted to the fire department for review and approval. The water system shall be capable of delivering the required fire flow. Based on the application, the largest

proposed building is 4500 square feet, assuming construction type VB, with fire sprinklers, therefore the minimum required fire flow is 1000 gallons per minute at 20 psi for 2 hours. Fire hydrant location and spacing shall comply with the fire code. An approved water supply for fire protection during construction shall be made available prior to the arrival of combustible materials on site. Reference 2019 California Fire Code (CFC) 507.5.1, 3312, Appendices B and C.

51. Fire Department Access: Prior to building permit issuance, a fire access site plan shall be approved. Approved vehicle access, either permanent or temporary, shall be provided during construction. CFC 503.1.1, 3310.1 and 503.2.1
52. Requests for installation of traffic calming designs/devices on fire apparatus access roads shall be submitted and approved by the Office of the Fire Marshal. Ref. CFC 503.4.1
53. Phased Construction Access: If construction is phased, each phase shall provide approved access for fire protection prior to any construction. Ref. CFC 503.1
54. Construction Permits: Building construction plans and fuel dispensing plans shall be submitted to the Office of the Fire Marshal for review and approval. Final conditions will be addressed when these plans are reviewed. A copy of the fuel dispensing plans, approved by Riverside County Environmental Health Department, shall be provided to the Office of the Fire Marshal prior to permit issuance.
55. Hazardous Materials: Prior to building permit issuance, a hazardous materials inventory statement shall be provided to the Office of the Fire Marshal. Approved chemical classification forms and safety data sheets shall be provided with the hazardous materials inventory statement. Ref. CFC 5001.5.2
56. Fire Sprinkler System: All new commercial structures 3,600 square feet or larger shall be protected with a fire sprinkler system. Ref CFC 903.2 as amended by the City of Coachella.
57. Fire Alarm and Detection System: A water flow monitoring system and/or fire alarm system may be required and determined at time of building plan review. Ref. CFC 903.4, CFC 907.2 and NFPA 72
58. Knox Box and Gate Access: Buildings shall be provided with a Knox Box. The Knox Box shall be installed in an accessible location approved by the Office of the Fire Marshal. Ref. CFC 506.1
59. Addressing: All commercial buildings shall display street numbers in a prominent location on the street side of the premises and additional locations as required. Ref. CFC 505.1 and County of Riverside Office of the Fire Marshal Standard #07-01

**Environmental Compliance:**

60. Submit water and sewer plans for approval from Utilities/Engineering- project required to connect to City public sewer and water system.
61. The project will require a Water Quality Management Plan (WQMP)
62. Facility will be required to submit a source control survey
63. Grease interceptor will be required for all food service establishment
64. Facility will be required to enroll in Source Control Program.
65. Monitoring manholes may be required for building not classified for use.
66. Submit detailed plumbing and mechanical plans; review of plumbing schematics for water sewer needed.
67. Facility will need grease interceptors, oil/water clarifiers and sample wyes installed.
68. Install Above Ground "Double Check Detector Assembly" DCDA for fire system; to protect water supply from contamination or pollution.
69. Backflow devices will require Reduced Pressure Principle Device(RP) installed to protect water supply from contamination or pollution.
70. Facility will require a AMI 4-G metering system and a separate water service meter for irrigation system;
71. Site Plan for stormwater.

### **Architecture**

72. All roof mounted mechanical equipment shall be view obscured by a parapet wall greater in height than the equipment installed. Ground mounted mechanical equipment shall be view obscured by landscaping or enclosure. Roof Top Unit (RTU) screens shall not satisfy this condition for roof mounted equipment screening.
73. The Aldi supermarket elevation plans shall be revised demonstrating that rooftop equipment is not visible above exterior wall parapets. All elevations of Aldi supermarket shall include exterior wall parapets that view obscure roof mounted mechanical equipment.
74. The applicant shall provide a separate revised Aldi front elevation depicting planned mature trees to be planted in tree wells or landscape planter along the building frontage. The landscape plans and site plans shall be revised to accommodate the modification.
75. Trash enclosures installed for the project shall be compatible architecturally with the building. The enclosure shall be constructed to Burrtec Waste Management Standards and

an open trellis shall be incorporated on all three proposed trash enclosures.

76. Prior to the issuance of building permits, all exterior architectural features and treatments shall be consistent with the submitted Architectural Review No. 20-03 elevations and color/material board samples and shall be included and noted on all construction plans and elevations, subject to review and approval.
77. Incorporate decorative driveway pavement at driveway entrances from First Street upon submittal of project civil plans, subject to final approval by the Planning Division.
78. The Fountainhead Plaza sign program is amended by AR 21-12 to repurpose the gasoline price monument sign along First Street into an identification sign for three commercial center tenants consistent with the monument sign specifications in the sign program. The applicant shall provide a revised sign program reflecting the removal of the gasoline price monument sign and replacement with the multi-tenant monument sign consistent with the existing monument sign specifications.
79. Not greater than five percent of the sales floor area or one thousand (1,000) square feet, whichever is less, shall be used for the display or sale of alcoholic beverages at the 20,442 sq.

### **Code Enforcement**

80. Existing code enforcement violations on the subject site shall be addressed including trimming of overgrown shrubs, removal of weeds and debris at the commercial center, including retention basin, and proper maintenance of signs before the lesser of the issuance of a building permit or January 24, 2022.
81. Prior to certificate of occupancy the applicant shall enter into a maintenance agreement for the Fountainhead Plaza commercial center landscape areas, retention basins, developed and undeveloped pads to ensure maintenance in a first class condition.
