

CITY OF COACHELLA
STATEMENT OF INVESTMENT POLICY
FOR FISCAL YEAR 2021-2022
ADOPTED June 23, 2021

1.0 POLICY:

This statement is intended to provide guidelines for the prudent investment of the City of Coachella's (hereafter called "City") temporarily idle cash in all funds, and outline the policies for maximizing the efficiency of the City's cash management system.

It is the objective of this investment policy to provide guidelines for:

- Insuring the safety of funds invested;
- Meeting the City's daily cash flow demands;
- Maximizing investment interest income for the City;
- Conform with all laws and statutes governing the investment of public funds.

2.0 SCOPE:

The investment policy applies to the temporary idle cash of the City and its component units as accounted for in the Audited Annual Financial Report. Policy statements outlined in this document focus on the City's pooled funds. This policy is applicable, but not limited to all funds listed below:

- General Fund
- Special Revenue Funds
- Capital Outlay Funds
- Debt Service Funds
- Enterprise Funds
- Fiduciary Funds
- Any new fund created by the City Council unless specifically exempted

Exceptions may exist with funds for retiree pension and medical benefits held in a trust and bond proceeds held by a trustee or fiscal agent and governed by the instructions in the bond document. In addition, if in the opinion of the City Treasurer or their Authorized Designee (Designee), matching the segregated investment portfolio of the bond reserve fund with the maturity schedule of an individual bond issue is prudent given current economic analysis, the investment policy authorizes extending beyond the five year maturity limitation with City Council authorization no less than three months prior to the investment as outlined in this document.

3.0 PRUDENCE:

The City Treasurer or Designee are authorized to make investment decisions on behalf of the City and considered as trustees and therefore fiduciaries subject to the prudent investors' standard. When investing, reinvesting, purchasing, acquiring, exchanging, selling, and managing public

funds, the City Treasurer or Designee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct and management of their own affairs.

Within the limitations of this section and considering individual investments as part to an overall strategy, the City Treasurer or Designee are authorized to acquire approved and suitable investments as described in paragraph 8.0 hereof.

The City Treasurer, Authorized Designee and other individuals assigned to manage the investment portfolio, acting within the intent and scope of the investment policy and other written procedures and exercising due diligence, shall be relieved of personal responsibility and liability for an individual security credit risk or market price changes, provided deviations from expectations are reported in a timely manner and appropriate action is taken to control adverse developments.

4.0 OBJECTIVES:

The three fundamental considerations, in order of priority, for managing the City's investments are safety, liquidity, and yield. At no time should safety or liquidity be compromised in exchange for higher yields.

Safety of Principal

The preservation of invested capital is the foremost objective of the City and of primary importance. The City shall only invest in financial instruments that are considered safe. The safety and risk associated with an investment refers to the potential loss of principal, accrued interest, or a combination of these amounts. Each investment decision shall seek to ensure that capital losses are avoided. To attain this objective, diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

Liquidity

The City's investment portfolio shall contain investments with a diversified mix of maturities in order to provide sufficient liquidity to meet projected operating cash requirements of the City.

Return on Investments

The City's investment portfolio shall be designed with the objective of obtaining a reasonable and competitive market rate of return taking into consideration risk constraints, prudent investment principles and the cash flow characteristics of the portfolio.

5.0 DELEGATION OF AUTHORITY:

The authority to invest or to reinvest funds or to sell or exchange securities so purchased of City

Funds is vested in the City Council. Government Code Section (“GCS”) 53607 authorizes the delegation of the above duties to the City Treasurer for a one-year period. Therefore, the authority to invest and reinvest City funds or to sell or exchange the securities so purchased with City funds is hereby delegated to the City Treasurer for a one year period unless sooner terminated by the City Council.

The City Treasurer or Designee shall prepare written procedures for the operation of the investment program consistent with this investment policy. The procedures shall also include reference to: safekeeping, wire transfer agreements, banking service contracts and collateral/depository agreements. Such procedures shall include explicit delegation of authority to persons responsible for investment transactions. The written procedures may provide for the delegation of authority to an Authorized Designee, who upon assuming such position shall become responsible for investment transactions. No person may engage in an investment decision except as permitted by this policy and by the procedures approved by the City Treasurer or Designee.

The City may delegate investment authority to an investment advisor. The advisor will follow the Investment Policy and such other written instructions as are provided.

6.0 ETHICS AND CONFLICTS OF INTEREST:

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Employees and investment officials are required to annually file all applicable financial disclosures as required by the Fair Political Practices Commission (FPPC).

7.0 AUTHORIZED FINANCIAL DEALERS AND INSTITUTIONS:

For any investment not purchased directly from the issuer, the City shall transact business only with banks, savings and loans, and investment broker/dealers. The broker/dealers should be primary dealers regularly reporting to the New York Federal Reserve Bank. The City Treasurer or Designee shall select all security dealers and depositories subject to City Council approval and the execution of an appropriate written agreement. Investment transactions shall be conducted with several competing, reputable security broker/dealers. The selection process shall focus on financial viability, knowledge, experience and ethics in the fixed-income security industry. The City Treasurer or Designee will maintain a list and a written agreement with financial institutions authorized to provide investment services.

All financial institutions and broker/dealers who desire to become an authorized financial institution for investment transactions must supply the City Treasurer or Designee with the following: most recent audited financial statements, proof of Financial Industry Regulatory Authority (FINRA) certification, trading resolution, proof of state registration, completed broker/dealer questionnaire, certification of having read the City’s investment policy and depository contracts. The City Treasurer or Designee will conduct an annual review of the financial

condition and registrations of qualified bidders.

The City Treasurer or Designee shall annually send a copy of the current investment policy to all broker/dealers approved to do business with the City. Confirmation of receipt of this policy shall be considered evidence that the dealer understands the City's investment policies and intends to sell the City only appropriate investments authorized by this investment policy.

If the City has an investment advisor, the investment advisor may use its own list of authorized broker/dealers to conduct transactions on behalf of the City.

16.0 PERFORMANCE STANDARDS:

The City's policy is to achieve a market rate of return on public funds while minimizing risks and preserving capital. In evaluating the performance of the City's portfolio in complying with this policy, the City shall establish an appropriate performance benchmark and compare the total return of its portfolio to the total return of the benchmark.

17.0 REPORTING:

The City Treasurer or Designee shall provide to the City Council a monthly investment report, which provides a clear picture of the status of the current investment portfolio. The report shall state compliance of the portfolio to the statement of investment policy, or manner in which the portfolio is not in compliance and include a statement denoting the ability of the City to meet its expenditure requirements for the next six months, or provide an explanation as to why sufficient money shall, or may, not be available.

The City Treasurer or Designee may supply to the City Council the most recent statement or
