

July 1, 2020

Frank Orlett
Vice President
Burrtec Waste and Recycling Services, LLC
41-575 Eclectic St.
Palm Desert CA, 92260

Dear Mr. Orlett,

As you are aware, the Waste Disposal Agreements (WDA) that determine the disposal of the waste managed by the Coachella Valley Transfer Station are expiring within the coming year. The WDA between the County of Riverside (County) and the Coachella/Indio Waste Transfer Station Authority (Authority) expires on June 19, 2021. The WDA between the County and Burrtec Waste Industries, Inc.(Burrtec) expires on June 30, 2021. These WDA agreements expire approximately five years before the expiration of the Master Lease Agreement, which expires on August 9, 2026.

The Authority is evaluating its options for waste disposal for the period of time between the expiration of the WDA agreements and Master Lease Agreement. The Authority is evaluating the option, if provided by the County, to extend the WDA agreement to match the August 2026 Master Lease Agreement expiration. Additionally, staff has also been asked to evaluate options that would take the Authority's tonnage outside of the Riverside County Landfill System.

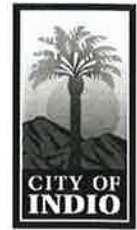

The Salton City Landfill is currently disposing of 130,000 tons annually of the Authority's waste stream. Should the Authority not have a WDA with the County, please advise if the Salton City Landfill remain an option for the Authority from June 2021-August 2026. If this site remains an option for the Authority to dispose of its waste stream, please also advise as to the proposed per ton sublease fee and disposal fee for this term. Please note that without a WDA agreement with the County for the above noted timeframe all Authority waste will be billed an "extended rental rate" per ton by the County.

Please direct your response and/or questions pertaining to this inquiry to both Maritza Martinez, mmartinez@coachella.org and Sara Toyoda, stoyoda@indio.org.

Sincerely,

William B. Pattison, Jr.

Hans Kernkamp
General Manager – Chief Engineer
Riverside County Department of Waste Resources
14310 Frederick Street
Moreno Valley, CA 92553

Dear Mr. Kernkamp,

As you are aware, the Waste Disposal Agreements (WDA) that determine the disposal of the waste managed by the Coachella Valley Transfer Station are expiring within the coming year. The WDA between the County of Riverside (County) and the Coachella/Indio Waste Transfer Station Authority (Authority) expires on June 19, 2021. The WDA agreement expires approximately five years before the expiration of the Master Lease Agreement (between the County and the Authority), which expires on August 9, 2026.

The Authority is evaluating its options for waste disposal for the period of time between the WDA expiration and Master Lease Agreement term. Staff has been asked to confirm if the County would be agreeable to extending the term of the waste disposal agreements to match the August 9, 2026 term expiration for the Master Lease Agreement; all terms staying the same, including the ability for Burrtec to continue diverting 130,000 tons annually from the County landfill system. Please direct your response and/or questions pertaining to this inquiry to both Maritza Martinez, mmartinez@coachella.org and Sara Toyoda, stoyoda@indio.org.

Sincerely,

William B. Pattison, Jr.
