The proposed change of zone is compatible with existing surrounding land uses that include commercial land uses.
4. The Project, as amended, will be compatible with neighboring properties with respect to land development patterns and application of architectural treatments. Surrounding properties to the project site include industrial, commercial, and residential land uses. As such, the Project will be in keeping with the scale, massing, and aesthetic appeal of the existing area and future development.
5. The Project, as amended, will not create any significant impacts to the environment based upon a complete and accurate reporting of the environmental impacts associated with the Project contained in the Negative Declaration, Initial Study, and administrative record.
