Findings in Support of Ordinance A-200-L

Ordinance A-200-L provides a form-based code for the Central Business District, regulations for formula-based businesses within the Central Business District, and adopts other housekeeping items to protect Coburg's distinctive character.

The historic downtown commercial district is a special and unique asset within the City of Coburg that could be negatively impacted by the presence of formula establishments that are out of harmony with the historic downtown commercial district, and which may not contribute to the small business and entrepreneurial atmosphere.

The intention of the amendments within the Central Business District is to protect the historic assets and special environment, both natural and manmade, of the community so that the uniqueness of Coburg may flourish without inappropriate changes.

CONCLUSION: The proposed amendments to the Coburg Zoning Code meet the necessary requirements of the applicable Statewide Planning Goals. This amendment does not change the priority or inventory of those related requirements. These criteria are met.

b. Approval of the request is consistent with the Comprehensive Plan; and

FINDING: As explained below, the request is consistent with the Comprehensive Plan. This criterion is met.

APPLICABLE COMPREHENSIVE PLAN POLICIES AND GOALS

GOAL 1: Citizen Involvement

FINDING: The Ad-Hoc Code Review Committee held several public meetings and work sessions while reviewing and suggesting new language for the proposed amendments. As part of the adoption process, two public hearings are scheduled, July 20, 2022 with the Planning Commission and July 26, 2022 with the City Council, followed by a second reading of the ordinance at the August 9th City Council meeting. Notice was sent to every property owner in the City. Information and invitations to comment were put in the newsletter and on the City's website.

GOAL 2: Land Use

Policy 11: Central Business District – The Central Business District (CBD) designation is intended to establish the downtown area as the historic heart of Coburg. The CBD is the location for smaller scale commercial and business facilities, civic buildings and city functions, and mixed use. The Central Business district will be historic and pedestrian-oriented in character.

Finding: The proposed amendments largely affect the Central Business District development regulations in the zoning code. This district contains vacant properties where development will significantly contribute to the character of the historic downtown corridor. The intention of the proposed amendments within the Central Business District, both the form-based code overlay and formula business restrictions, is to protect the historic assets and special environment, both natural and manmade, of the community so that the uniqueness of Coburg may flourish without inappropriate changes. The unregulated proliferation of formula businesses would frustrate this goal and lessen the Central Business District's appeal.

The Council has thus opted for regulation of formula-based businesses in the CBD that balances the competing interests. Larger formula-based businesses (larger than 10,000 square feet) are prohibited outright in the CBD because it is determined that large-scale formula-based businesses conflict with the historic, small-town character of the downtown area. However, smaller formula-based businesses will not necessarily conflict with Policy 11. Accordingly, the proposed code allows these smaller businesses as conditional uses, with the ability of the Planning Commission to approve or deny, based on relevant considerations and a

determination whether the use as proposed would adversely impact the character of downtown.

The Council concludes that this flexible approach satisfies Goal 2, Policy 11.

Policy 17: Public Facility – *This designation is intended to provide lands for public facilities and uses such as water reservoirs, sewage treatment plants, pump stations, major electric utilities and similar uses.*

Finding: The addition of a Public Facilities section to the Zoning Code will promote and ensure the purpose of this designation.

GOAL 5: Open Spaces, Scenic and Historic Areas, and Natural Resources

Coburg Objective: To protect, restore and enhance open space, scenic and historic areas, and, to promote a healthy and visually attractive environment in harmony with the natural landscape.

Finding: Restrictions on formula-based businesses will protect and enhance the charm of the historic downtown, maintain the unique character of the community and the appeal of the Central Business District, which is within Coburg's National Historic District. Inappropriate formula businesses would detract from the community's uniqueness. The formula business restrictions and form-based code overlay will retain the health and vitality of the existing downtown. The findings supporting Goal 2, Policy 11 (above) are incorporated herein by reference.

GOAL 9: Economy

Coburg Objective: To guide community development in such a way that the local economy is improved while maintaining Coburg's small town atmosphere.

Policy 11: *The City shall promote quality of life and compatibility of commercial and industrial uses with the small town, historic character of the community.*

Policy 15: *The City shall support existing businesses*

Policy 20: *The downtown area of Coburg should reflect the rural and historic character of the area. Businesses are encouraged to provide attractive building exteriors, signs, landscaping and parking lots that are in keeping with character of the downtown area. The downtown area is the heart of Coburg and essential businesses and city functions should be located in this area. The downtown area should invite citizens and other customers to use alternative modes of transportation, including walking and bicycling to patronize these businesses.*

Policy 21: *The Coburg Development Code shall include standards that ensure development in the downtown reflects the rural and historic character of the area, and provides an attractive, pedestrian-oriented character for the downtown.*

Policy 22: *The City shall encourage a vital downtown area as a key strategy to maintaining the City's quality of life.*

Policy 23: *The City shall encourage mixed-use in the Central Business District, and where appropriate, in adjacent areas.*

Policy 24: *The City shall encourage small-scale downtown commercial uses that are pedestrian-friendly and compatible with the community's small town, historic character.*

Policy 26: *The City shall utilize design standards for commercial and industrial development uses.*

Finding: The proposed amendments to the Coburg Zoning Code enhance economic opportunity and vitality in the Central Business District. The form-based code overlay will ensure development in the downtown reflects the rural and historic character of the area and provide an attractive, pedestrian-oriented built environment within the downtown. The formula-based business restrictions prohibit large commercial structures but allow for smaller formula-based commercial establishments as conditional uses, based on consideration of relevant issues such as the existence of other similar business in the vicinity and the mutual benefits the proposed use would have on the downtown and other existing businesses. The regulations addressing formula-based businesses will foster a hospitable business environment for small businesses and entrepreneurs, protecting the community's economic vitality by ensuring a diversity of businesses with sufficient opportunities for independent entrepreneurs, as well as supporting existing businesses. In this way, the regulations satisfy the policies of Goal 9.

GOAL 11: Public Facilities and Services

Coburg Objective: **To provide the residents of Coburg the public facilities and services which make possible a safe, healthy and satisfying living environment.**

Finding: The addition of a Public Facilities section to the Zoning Code will promote and ensure the purpose of the designation.

GOAL 12: Transportation

Policy 3: *Improve the aesthetics of streets and streetscapes, especially at City entrance ways such as Interstate 5 interchange area. Aesthetic improvements may address: street design, trees, lighting, utility lines, sidewalks, park strips, noise abatement, etc.*

Finding: Alternative street design standards for existing streets are meant to provide flexibility, improve aesthetics and preserve the historic character of the community. Some existing local streets are unable to follow the standards for new roadways due to narrow right-of-way. Council directed staff to create alternative street design standards to provide flexibility, improve aesthetics and preserve the historic character of the community.

GOALS 3,4, 6,7,8, 10, 13, 14 are not applicable to this amendment

CONCLUSION: The proposed amendments to the Coburg Zoning Code support and promote goals, objectives and policies of the Comprehensive Plan. These criteria are met.

c. The property and affected area is presently provided with adequate public facilities, services and transportation networks to support the use, or such facilities, services and transportation networks are planned to be provided concurrently with the development of the property.
