**BACKGROUND:** On January 11, 2021 the City Council authorized staff to seek bids for the Sanitary Sewer Lining program. This is an annual program to rehabilitate sections of sanitary sewer pipe that have been televised and found to be deteriorating, have cracked or broken joints or sections, contain root intrusion or have infiltration present. The 2021 budget included \$175,000 for this work.

In 2021, the lining will concentrate on 6,323 L.F. of 8" sanitary sewer main recently televised showing significant deterioration, including breaks and missing pipe. The sanitary sewer flows in all areas of Columbia Heights experience peaks after rainfall events and are subject to peak exceedance penalties from the MCES.
