RE: Columbus WTF Softener Valves

The undersigned, having familiarized myself with the plans, specifications, and local conditions affecting the cost of the work, hereby propose to furnish all labor, material, necessary tools, expendable equipment, and all utility and transportation services necessary to complete the following in a workmanlike manner according to standard practices. This proposal will not be withdrawn for a period of thirty (30) days after proposal date.

BASE BID	\$44,000.00
----------	-------------

We base our price on removing the existing Cla-Val valves on (2) softening tanks and replacing with new owner-furnished butterfly valves. Due to the difference in lay length from old to new, pipe spools will also be furnished and installed. Price also includes all necessary gaskets and stainless steel hardware, any new air lines and fittings necessary, connecting air lines and fittings to new Kinetrol actuators, installling a new air solenoid bank which will be provided by the valve vendor and installing the new pressure relief valve and vent piping.

At minimum we exclude the following:

- State/Federal Prevailing Wages, Performance & Payment Bond.
- Sales tax is excluded from this proposal.
- Quality control concrete, soil, water leakage, and/or lead & asbestos testing or survey.
- Contaminated soil & water remediation and/or removal. If contaminated water is encountered, owner is responsible for proper disposal costs.
- Asbestos & lead abatement.
- Ground water dewatering removal.
- Unsuitable soils removal and/or replacement.
- Temporary bypassing and/or treatment.

Price Escalators: If there is an increase in the actual cost of labor or materials charged to the Contractor in excess of 5% subsequent to making this Agreement, the price set forth in this Agreement shall be increased without the need for a written change order or amendment to the contract to reflect the price increase and additional direct cost to the contractor.
