			<p><i>house which would then provide an additional level of coverage for our submitted claims.”</i></p> <p>The Fire-EMS Department does <i>not</i> do EMS billing. That is managed in the Finance Department. However, I can provide the following information:</p> <ul style="list-style-type: none"> <li>• Each year, the City is asked if they wish to participate in the Georgia Ground Ambulance UPL (upper payment limit) Supplemental Payment Program. As noted in the attached, the purpose of the supplemental payment is to provide additional Medicaid reimbursement to ensure access to ambulance services for Medicaid enrollees. The supplemental payment is in addition to the claim payment a provider receives when submitting FFS (fee for service) claims for ambulance services. The program was recently approved by the federal Centers for Medicare and Medicaid Services (CMS). The program has been effective for services provided on and after January 1, 2020. Participation in the program is voluntary and requires the city to provide information to Myers &amp; Stauffer LC (certified public accountants) each year as the program administrator in the form of a survey instrument.</li> <li>• Twice a year, the City would provide an intergovernmental transfer (IGT) to the state of Georgia based on the results of the survey data. Subsequently, the Georgia Department of Community Health will make a Medicaid payment to the City</li> </ul>	

# Columbus Consolidated Government ~ Council Referrals

Item #	Date of Request	Requested by:	Proposed Work Session Item and/or Referral	Assigned Depart.
			<p>that includes both the transferred funds and the matching federal funds.</p> <ul style="list-style-type: none"> <li>• Since its inception, the City has elected <b>not</b> to participate in the program (thus foregoing those dollars). The challenge, as I understand it, is that in order for the city to know how much money it needs to 'put up' in order to get the extra funds, the data survey must be completed annually. That <i>has to</i> be done in the Finance Department as Fire-EMS is not privy to the information requested. The dollar amount that would be required is not static and is dependent on Medicare/Medicaid billing for the year. Additionally, supplemental funding is only available when Medicare/Medicaid is the primary payor (and not the secondary). Thus, because of the ambiguity surrounding the funding component and the requisite work required to complete the survey instrument, <i>I believe</i> the City has been reluctant to commit to the program. As such, at this time, I do not think we know how much the contribution would be for our submitted claims. Finance would need to complete the <a href="#">survey instrument</a> annually to be able to provide that information.</li> <li>• Notwithstanding this, the Fire-EMS Department has maintained that participation in the program would enhance revenue for the city and would help offset costs associated with the EMS program. In 2022, the Fire-EMS department engaged the Public Consulting Group (PCG) to evaluate potential revenues associated with implementation of a Ground Emergency Medical Transport (GEMT) program (quite similar to what the State of Georgia is offering). Based on the data we were able to provide, the PCG estimated we would receive a little over \$2.5 million annually. Those estimates were based off of FY21 data</li> </ul>

Item #	Date of Request	Requested by:	Proposed Work Session Item and/or Referral	Assigned Depart.
			<p>and the utilization of <u>6</u> CFEMS ambulances. As noted in the Fire Based EMS Report, that number could be <i>significantly</i> higher as Fire-EMS assumes more ambulance control in the City. As a result, this component is a strong recommendation for implementation in conjunction with an enterprise fund to offset costs associated with managing EMS services in the community – which was ranked at <u>the number #1 concern</u> of residents in the department’s community based strategic planning initiative.</p> <p>To be clear, the Fire-EMS Department currently has nothing to do with EMS billing/collections other than to provide the patient care reports that allow for billing/collections services relative to EMS. We work hand-in-hand with Finance to provide the information they require (as outline in the auditor’s report). However, all billing/collection functions are currently managed within that department. Please let me know if there is additional information I can provide or answer any questions. Thank you!</p> <div style="text-align: center;">  <p>GA Ambulance UPL Cover Letter.pdf</p> </div> <p>Mr. Begly –</p>

Item #	Date of Request	Requested by:	Proposed Work Session Item and/or Referral	Assigned Depart.
			<p>The Finance Director has provided some information for us to review as it pertains to the Medicare/Medicaid clearinghouse and potential IGT payments. Once my EMS Chief returns from vacation, I will sit down with him to review the information and follow-up with her on any questions we may have. As I understand it, we will need to create an account with the GA Department of Community Health's accounting firm to facilitate the uploading of documents and completion of forms associated with this program. At this point, I believe we can only upload data twice a year (January/July).</p> <p>Once the submittal is reviewed by the accounting firm and approved, they will indicate the amount of the IGT that we will need to post and what we can expect in terms of matching federal funds return. The following <u>example</u> (only) is provided based on the FFY21 Federal Medical Assistance Percentage of 73.23% [67.03% + 6.2% PHE] for GA and total payment \$100 :</p> <ul style="list-style-type: none"> <li>• CCG transfers \$26.77 to DCH (state share). Transferred funds must be eligible for federal matching funds under 42 CFR §§433.50 thru 433.67.</li> <li>• DCH pays \$100 to CCG that includes \$73.23 in federal matching funds</li> </ul> <p>Thus, I do not believe we will have a better understanding of how much we will need to contribute in order to get the federal funds <u>until the 1<sup>st</sup></u></p>

Item #	Date of Request	Requested by:	Proposed Work Session Item and/or Referral	Assigned Depart.
			<p><u>(calendar) quarter of 2024</u>. Once that information is available, we will certainly pass it along. Any payments will likely require Council approval and have to meet the federal guidelines for timely submittal.</p> <p>The program currently in use by the State of GA is a 'fee for service' model. As this process moves forward, I believe we need to evaluate the implementation of a 'managed care' model which can be far more lucrative for the City. Moreover, I continue to strongly advocate for the evaluation of an enterprise fund to capture and divert some these funds to help offset costs for EMS service. If we are poised to receive funds <i>above and beyond</i> what we have traditionally received for EMS services, I would love to see those funds re-invested into the very program that has been identified as the highest priority by our internal, external and community stakeholders (<a href="#">CFEMS Strategic Plan, pp.17-18</a>). Additionally, as the determination is made relative to funding for indigent care, I am hopeful there will be an avenue to explore off-setting some EMS care costs as the first provider of care for many of these individuals. I realize that is a discussion for another forum; but I think it would help alleviate pressure on the general fund moving forward.</p> <p>I have attached a data sheet that discusses the proposed supplemental payment program for your review. There are many fire agencies around the country recognizing millions of dollars in additional revenue with similar programs. I am hopeful we can begin to recognize this revenue stream with this program. I will follow-up with additional information once we have a better understanding of the program costs. In the</p>
