## PUBLIC ACCESS SITE AND QPUBLIC

- Public Access Site brought back up with limited functionality 6/19/2020
- No estimate on time for full functionality to be restored, rebuild still in process
- qPublic is alternative site to Public Access Site. If approved would provide a second point of access for the public, not a replacement of Public Access Site.
- No cost to CCG for Schneider hosting the site (subscription service covers the cost), Sole Source provider of "Not-A-Dime" model for hosting of CAMA data.
- Other lasWorld counties use Qpublic as public facing site for CAMA and GIS data providing for seamless integration, e.g. DeKalb, Cobb, Baldwin
- qPublic typically updates no less than weekly and potential nightly.
