Background: Funds will be requested from the Congressionally Directed Spending grant program to fund the purchase of a public safety robot – Spot. The acquisition of this robot represents a strategic investment in public safety infrastructure. Robotics is part of the Fire-EMS Department’s Digital Vanguard Initiative – a bold step forward in technology to support public safety in Columbus and Muscogee County. Spot is engineered to navigate challenging terrains and environments, making it an invaluable asset for emergency response teams. Equipped with advanced sensors and cameras, Spot can assess hazardous situations—such as chemical spills, structurally compromised buildings, or areas with potential explosive threats—without endangering human personnel. This capability allows first responders to obtain critical situational awareness remotely, facilitating informed decision-making and enhancing the safety of both the public and emergency personnel. By integrating Spot into our public safety operations, the city council is embracing innovative technology to proactively address complex emergencies, ultimately aiming to save lives and reduce risk.
