LIFEGUARDS NEEDED!

We will certify you

The prerequisites for entering lifeguard certification training are straightforward:
Candidates for lifeguard certification must be 15 years old by the end of the course.
Candidates must also be able to pass a swim test. The swim test requires a 300-yard continuous swim, with breath control, the ability to tread water for two minutes, using only the legs and to complete a timed event in which the candidate must dive into the water, retrieve an object, come back up for air and eventually exit the pool without using steps or a ladder.
