

## City of Colusa California

### STAFF REPORT

**DATE:** June 20, 2023  
**TO:** Mayor and Members of the City Council  
**FROM:** Jesse Cain, City Manager

**AGENDA ITEM:**

Consideration of a Resolution to authorize the City Manager to sign the contract with NV5 for Geotechnical Engineering Service

**Recommendation:** Council to adopt the Proposed Resolution to delegate the City Manager authority to execute the Contract with NV5

**BACKGROUND ANALYSIS:**

The City of Colusa has a history with NV5. They were formerly named Holdrege & Hull and have been our on-call Geotechnical consultant since 2011, and their contract with the City has been updated a couple of times over the years. The latest contract that we have with them has expired.

With the City of Colusa Wastewater treatment infrastructure improvement projects, we need some geotechnical engineering services to ensure that the projects are designed and built to legal standards. Please note in the proposal dated May 10<sup>th</sup>, 2023, the type of services that we need to get completed. Staff will also be working with them to get some geotechnical advice on the current movement of the boat launch facility.

**BUDGET IMPACT:**

\$13,963.95 out of the Sewer fund; this might be able to be reimbursed from the grant

**STAFF RECOMMENDATION:**

Approve Resolution 23-  
Agreement
