

City of Colusa California

STAFF REPORT

DATE: March 5, 2024
TO: Mayor and Members of the Council
FROM: Jesse Cain, City Manager

AGENDA ITEM: Consideration of a 2024 JCB 3CX Compact Pro Backhoe.

Recommendation: Council to adopt a Resolution for the City Manager to purchase a 2024 JCB 3CX Compact Pro Backhoe.

BACKGROUND ANALYSIS: The Utilities Department has been budgeting for a new backhoe for the last few years now, with the mid-year complete and adopted it is now time that we move forward on purchasing a new backhoe. Normally this type of purchase requires the City to send out a request for proposal unless it is bought from a state contract. All state contracts have already gone through the bid process to ensure that when the City uses the State Contract, we are getting the best price that we can.

The city contacted our local dealers to start working on quotes for a new backhoe and after looking at each of them and what would meet the City's needs. The Staff felt even though it was the cheapest backhoe the JCB 3CX Compact Pro would be the best fit for the city and provide the most use.

All companies quoted us using the Sourcewell state contract pricing. N&S Tractor came back with the lowest price at \$142,317.25.

BUDGET IMPACT: \$142,317.25 (50% from water; 50% from sewer)

STAFF RECOMMENDATION: Council to approve the Resolution approving the City Manager to purchase a 2024 JCB 3CX Compact Pro Backhoe
