

CONFIRE

STAFF REPORT

DATE: April 30, 2024

**FROM: Blessing Ugbo
MIS Manager**

TO: CONFIRE Administrative Committee

SUBJECT: Cyber Security Awareness Assessment Policy

Recommendation

Approve implementing the Cyber Security Awareness Assessment Policy to enhance CONFIRE readiness and resilience against cyber threats.

Background Information

MIS has observed a trend of decreasing user engagement among our users and an uptick in increased risky cyber security awareness behavior patterns.

Implementing the Cyber Security Awareness Assessment Policy aims to address the need to establish a framework for regularly assessing employees' cyber security awareness levels to ensure that CONFIRE and MIS supported agency employees have the knowledge and skills to recognize and mitigate potential cyber risks.

Fiscal Impact

There will be no financial impact.
