**Subject: FPL Sheridan Transmission Substation**  
**830 Pine Island Road, Cooper City, Florida 33024**  
**Tree Removal Permit Request**

To Whom it May Concern,

SOMI Engineering, LLC (SOMI), on behalf of Florida Power & Light (FPL), submits this request for a Tree Removal Permit for the FPL Sheridan Transmission Substation.

In accordance with drawing E-SHE09 Sheridan Transmission Substation Tree Removal Plan (sheets 1-4), six hundred and fifty-seven (657) trees are proposed to be removed from the site as part of the Transmission Substation development. Four (4) of the proposed trees to be removed were classified as dead.

In accordance with the City of Cooper City Tree Preservation Code, the fee for tree removal is \$25/tree and does not consider dead trees. Thus, six hundred and fifty-three (653) trees x \$25/tree = \$16,325 for proposed tree removal to be paid by FPL. Refer to drawing E-SHE09 (sheets 1-4) Sheridan Transmission Substation Tree Removal Plans and the Tree Mitigation Table provided on page 4 of 4 with this submittal for proposed tree removal details.

Please contact the undersigned at 561-901-9255 or [wheikkinen@somieng.com](mailto:wheikkinen@somieng.com) should you have any questions or require additional information.

Sincerely,

*William D. Heikkinen*
