### RE: Proposal for RFQ #2024-1-PW Continuing Professional Consulting Services

Dear Members of the Evaluation Committee:

Calvin, Giordano & Associates, Inc. (CGA) is pleased to submit a proposal in response to the Request for Qualifications (RFQ #2024-1-PW) for Continuing Professional Consulting Services from the City of Cooper City, FL (the City). We are optimistic and committed to providing the best possible proposal in response to your solicitation.

### Size of Firm and Range of Activities

Since 1937, our operations have grown from a two-person surveying firm in Hollywood, FL, to a company with over 340 employees providing civil engineering, electrical engineering, traffic engineering, construction engineering inspections, floodplain management, landscape architecture and urban design, grant administration, surveying, site plan and permit plan reviews, and more throughout the State of Florida. Over the years, CGA has held contracts with and assisted the City of Cooper City and other adjacent municipalities with professional services similar to this RFQ. In fact, CGA currently has well over 100 government clients in Florida, including municipal, county, state, federal, school district, and higher learning institution clients.

### Firm's Strength and Stability

In 2018, CGA joined the SAFEbuilt family of companies, providing our clients with the stability and depth of resources of a national company with service delivery at a local level. CGA provides a comprehensive range of building department services to municipalities throughout Florida. We leverage our extensive local knowledge alongside the broader capabilities of SAFEbuilt to deliver each client the highest levels of service, expertise, and resources.

As part of the SAFEbuilt family of companies, we will focus on continued growth in Florida, implementing new technologies and expanding our services along the way to meet the ever-changing needs of our clients. We will strive to develop new partnerships with organizations and businesses to provide superior services and create an even more comprehensive suite of solutions for our clients. As the world of professional consulting services continues to evolve, CGA will remain committed to providing its clients with the best solutions, helping them achieve their goals and create a better future.

### Location of Firm and Proximity to the City of Cooper City

CGA's headquarters is located at 1800 Eller Drive, Suite 600, Fort Lauderdale, FL 33316. This office is only 10 miles east of Cooper City City Hall, and the majority of the proposed team members (including Project Manager Jenna Martinetti and Professional-in-Charge David Stambaugh) are based in Broward County. Therefore, we are ready, willing, and able to commute to the City as needed to provide services.

### Summary of Abilities and Experience of the Firm's Professional Personnel

CGA's vast experience working with local governments from the inside distinguishes us from other firms and allows us to consistently provide creative and practicable solutions to our clients. This level of knowledge and experience in and of itself sets us apart from other consulting firms. In addition, CGA's proposed team includes 10+ licensed Professional Engineers (PE), a Certified Floodplain Manager (CFP), three licensed Professional Landscape Architects (PLA), an ISA Certified Arborist, a Professional Surveyor and Mapper (PSM), and a Certified Construction Manager (CCM).

### Summary of Past Performance of the Firm on Similar Projects

The following showcase just a few of the many similar projects CGA has supported:

- Davie Road Phase 1, 2, and 3 Roadway Improvements (CIGP, LAP and Surtax funded), Davie, FL
- SW Hallandale Beach Drainage Improvements, Hallandale Beach, FL
- Bryn Mawr Neighborhood Sanitary Sewer Extension, Mangonia Park, FL
- Andrews Avenue Complete Streets Roadway Improvements, Oakland Park, FL
- Continuing Services Contract for Traffic, Roadway, and Civil Projects, Broward County Board of County Commissioners
- Wastewater Reclamation Facility Expansion, Miramar, FL
- Point Lake Canal Subaqueous WM Crossing to Biscaya Island, Surfside, FL
- Community Development Block Grant Mitigation Funding Assistance, Palm Beach County Water Utilities Department
- City of Weston Professional Services, Weston, FL
- Dr. Von D. Mizell-Eula Johnson State Park, Florida Department of Environmental Protection

You will find more details about these projects in Tab 3.

### Firm's Number of Years of Experience in Providing Services and Business Structure with Proof

Over the past 87 years, CGA's focus has remained on servicing the municipal client space in Florida. CGA is a legally registered corporation in the State of Florida. In Tab 4, you will find our current DBPR license, Sunbiz License, W-9, and Certificate of Insurance.

### Recent, Current, and Projected Workload of the Firm, and Availability to the Firm's Top Level Management Personnel

CGA is available to begin all services specified by the City in the RFQ immediately after a decision has been made to utilize our services. CGA is also available to provide services on an ongoing and as-needed basis for the duration of the contract. The staff identified in this proposal will be assigned to this project and will be immediately available to the City, should CGA be selected. You will find a detailed Current Workload chart, specifics about the ways potential projects will fit into CGA's workload, and more in Tab 5.

### Identification of Firm's Single, Professionally Licensed Point of Contact for All City Projects

Ms. Jenna Martinetti, PE, is CGA's proposed Project Manager for this contract. She will be your primary contact for all communications pertaining to this proposal. Please contact her at 954.766.2796 or [JMartinetti@cgasolutions.com](mailto:JMartinetti@cgasolutions.com).

### Conclusion

We are excited about the possibility of utilizing our remarkable qualifications to provide Continuing Professional Consulting Services to the City. Because we have always held our values of teamwork, service, integrity, respect, and improvement in the highest regard, our team is excited to have the chance to showcase our expertise, dedication, and unwavering commitment to providing exceptional Continuing Professional Consulting Services to the City. We understand that the City places great importance on selecting a partner who shares the City's vision and values and meets the technical requirements detailed in the RFQ. CGA wants to be that partner, and we are eager to demonstrate this aspiration through our proposal and subsequent discussions.

As Vice President of Professional Services, I am authorized to sign any agreements resulting from this proposal and will provide contract support to the proposed CGA team. Thank you in advance for your careful review and evaluation of our proposal, and we look forward to the opportunity to provide services to the City.

Best Regards,

**David Stambaugh, PE, DBIA**

Vice President of Professional Services

18. OTHER PROFESSIONAL QUALIFICATIONS *(Publications, Organizations, Training, Awards, etc.)*

Ms. Martinetti has over 20 years of engineering experience designing and managing projects within many local municipalities. Her roadway design experience includes design for milling and resurfacing, widening, roadway reconstruction, safety improvement projects, neighborhood enhancements, ADA upgrades and compliance, drainage improvements, signing and pavement markings, traffic control plans, storm water pollution prevention control plans and complete streets incorporation. Her experience also includes utility coordination, participation in the quality control process, and local agency program (LAP) coordination, including agency certification assistance. She has the advanced maintenance of traffic certification required to design and permit traffic control plans and has extensive experience with JPA's and LAP projects including Transportation Enhancement Program, Surtax, and CIGP. Her project management experience also includes design and retrofit of parks, roadways, water mains, sewage force mains, lift stations, fuel station, site development and design, neighborhood improvement projects, and stormwater projects as well as permitting, bidding documents, engineering during construction and project close-out.

| a. (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE<br><p>This project was partially funded by a FDOT County Incentive Grant and one of the first MAP Broward Surtax funded projects. It included the conversion of College Avenue from SR 84 to Nova Drive from a 3-lane section to a 4-lane divided roadway. The scope included adding a median, an additional lane in each direction, shared lanes for bicyclists, sidewalk connections and ADA upgrades, landscaping, drainage and lighting modifications, and utility coordination. Due to the high bus and tractor trailer volumes within this industrial corridor, an access management study was completed in order to properly place and size the lengths of the left turn lanes within the corridor. Contact: Jonathan Vogt, PE; Town Engineer; (954) 797-1137; jonathan_vogt@davie-fl.gov; 8800 SW 36th St, Davie, FL 33328; www.davie-fl.gov</p> | <input checked="" type="checkbox"/> Check if project performed with current firm |   |

## 18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

With more than seven years of construction experience followed by sixteen years of design and project management, Mr. Stambaugh has developed a strong understanding of the engineering profession and necessary skills to successfully complete a variety of projects with varying degrees of complexity. He is experienced in the design of both public and private engineering projects, including the design of water and wastewater treatment plant expansion and rehabilitation, the design of sanitary sewer collection and transmission systems, replacement and improvements design for drinking water distribution systems and booster stations, and the design of storm water management systems, roadways, and parking lots.

## 18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

Ms. Johnson is experienced in examining architectural, structural, and engineering plans across diverse construction projects to ensure compliance with stringent codes and regulations. She is skilled in ensuring adherence to zoning, building, fire, and environmental standards. Ms. Johnson is proficient in analyzing technical details including load calculations, drainage systems, grading, and utilities to uphold safety and feasibility standards. She collaborates effectively with architects, engineers, contractors, developers, and property owners to clarify requirements, resolve discrepancies, and provide expert guidance on code interpretations and compliance issues. Ms. Johnson manages plan review programs, land disturbance permitting, and conducts utility and environmental permit coordination. Proficient in AutoCAD or GIS.

## 18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

Mr. Kanelidis' background experience encompasses site design, civil, geotechnical, surface water management, water, and wastewater services for both the private and public sector. He also had significant involvement with his prior firm in representing Sunshine Water Control District as District Engineer working on numerous Capital Improvements Projects. As a Project Manager at CGA, his responsibilities include preparing contract proposals, developing and managing project schedules, hydrologic and hydraulic modeling, developing quantity take-offs and cost estimates, preparing various engineering plans and technical specifications, permitting, bidding assistance, project management during construction, addressing Contractor RFI's, reviewing shop drawings, negotiating and reviewing change orders, as-built reviews, and final project certifications. As an engineer with design and field experience, he is versatile in his ability to perform the tasks at each individual project stage.

| a. Project Manager for a municipal sewer pump station rehabilitation project that included over 1,400 LF of 4" force main installed primarily by horizontal directional drilling. The project scope consisted of removing the existing pumps and piping, removing the aboveground metal housing vault, installing new submersible type pumps and piping, new top slab with an access hatch and safety grate, new precast concrete valve vault, upgrading the internal control panel appurtenances, and replacing the force main with 4-inch HDPE pipe. The new force main was designed and installed by horizontal directional drilling to limit restoration requirements and disruption to local traffic and the residents. The trenchless force main installation along with expedited shop drawing reviews of long lead items allowed the project to finish well ahead of schedule.<br>Contact: Michael Bailey; Director of Utilities / City Engineer (at time of contract)  |   |   |
| (1) TITLE AND LOCATION (City and State)<br><b>Distribution System Water Master Plan</b><br>Lauderhill, Florida  | (2) YEAR COMPLETED<br>PROFESSIONAL SERVICES<br><b>2020 - 2023</b> | CONSTRUCTION (If applicable)                |
| (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm  |   |   |
| b. Project Manager for the preparation of a master plan for the City's potable water distribution system. The City owns, operates, and maintains a water treatment plant and distribution system that serves approximately 55,000 Customers. The purpose of the master plan was to evaluate the existing infrastructure, develop maintenance programs, and to prioritize project areas based on current and future needs. The scope included site visits to install pressure data loggers throughout the City, hydraulic modeling, fire flow analysis, code research, reviewing as-builts, cost estimating, and developing recommendations accordingly.<br>Contact: Herb Johnson; Utilities Director; 954.730.4207; hjohnson@lauderdale-fl.gov; 5581 West Oakland Park Blvd, Lauderdale, FL 33313; www.lauderdale-fl.gov  |   |   |
| (1) TITLE AND LOCATION (City and State)<br><b>SE 2nd Avenue and 7th Street Water Improvements</b><br>Dania Beach, Florida   | (2) YEAR COMPLETED<br>PROFESSIONAL SERVICES<br><b>2020 - 2022</b> | CONSTRUCTION (If applicable)<br><b>2022</b> |
| (3) BRIEF DESCRIPTION (Brief scope, size, cost, etc.) AND SPECIFIC ROLE <input checked="" type="checkbox"/> Check if project performed with current firm  |   |   |
| c. Project Manager for a water main replacement project within a residential community that included over 6,000 linear feet of new 12-inch water main, valves, hydrants, services, asphalt milling and resurfacing, and new pavement markings and signage. The existing water main was experiencing frequent breaks due to its age and was undersized given the development over the years. Therefore, the design included upsizing the pipe and improving fire protection within the project area by adding additional hydrants. There are two schools within the project limits, so coordination played a key role with both the City and the County. Project scope included design, permitting, cost estimating, preparing technical specifications, reviewing front-end documents for advertising, assistance during bidding, evaluating bidders, periodic construction inspections, and approving shop drawings. | <p>d. Project Manager for a City of Fort Lauderdale streetscapes and parking improvement project that includes new landscape, irrigation, decorative light poles, curbing, pavement, striping, signage, sidewalk, drainage infrastructure, and geometric traffic improvements. The existing hardscape and landscape needed replacement due to years of use and harsh environment, and traffic flow and pedestrian crossings left room for improvement. In turn, the design includes new crosswalks and traffic flow patterns. The existing drainage system had to be redesigned to accommodate these changes. Project scope includes design, permitting, reviewing and incorporating Geotechnical and Subsurface Utility Exploration reports, quantity take-offs and cost estimating, value engineering, and preparing technical specifications. CGA is currently under contract to provide support services during bidding and construction. | <p>f. Project Manager for a wastewater treatment plant project to replace and relocate the existing concrete drying bed at the City of Boca Raton's Utility Services Complex. The drying bed structure is used as part of the City's vacuum truck operations for drying sewer solids before properly disposing of the dry sludge. The existing drying bed had reached the end of its useful service life due to its constant use and harsh environmental. A new, larger, and segmented drying bed was designed and constructed to improve daily operations and efficiency. Project tasks included design, verifying turning radii and clearances for vacuum truck operations, reviewing Geotechnical findings, resolving utility conflicts, cost estimating, preparing technical specifications, addressing Bidder RFI's, evaluating bid proposals, attending monthly construction progress meetings, reviewing shop drawings. | <p>g. Project Manager for a water main replacement project within a residential community. The Town was concerned with the shallow depth of the existing subaqueous water main causing navigability issues for deeper vessels within the canal. Therefore, the design included horizontal directional drilling approximately 600 linear feet of new 8-inch pipe to clear the canal bottom by at least 10 feet and then capping and abandoning the existing water main in place. Additionally, two new hydrants and reconnection of several water services were included. Project scope included design, permitting, cost estimating, preparing technical specifications, reviewing front-end documents for advertising, assistance during bidding, evaluating bidders, periodic construction inspections, approving shop drawings, reviewing RFI's, and final project certification to close out permits. | <p>h. Project Manager for a water improvements project within a gated residential community that included approximately 2,700 linear feet of new 8-inch pipe with new water services, hydrants, and valves. Due to its age, the existing water main needed to be replaced. Additionally, some of the existing water main within the project area was located within the rear lots, causing significant maintenance challenges. Therefore, the design included relocating backyard services to the front of the properties. This required horizontal directional drilling new service pipe from the front of each property to the rear. Most of the new water main was designed and constructed by horizontal directional drilling to limit disruption to the residents along with restoration requirements. Project scope included design, permitting, coordinating with Geotechnical and SUE Subconsultants. 18. OTHER PROFESSIONAL QUALIFICATIONS *(Publications, Organizations, Training, Awards, etc.)*

Mr. Soria has over seven (7) years of engineering experience and is a Project Engineer for a large variety of projects related to site plan improvements and water, wastewater, and stormwater infrastructure projects. Prior to joining Calvin, Giordano & Associates, Mr. Soria worked in engineering roles involving hydraulic modeling and analysis of gravity flow and pressurized pipeline systems subject to pressure surges and water hammer caused by pump failure, pump startup/shutdown, and control valve operations. He has experience in the selection and sizing of surge control devices such as surge tanks, vacuum relief valves, and flywheels, and in developing recommendations for safe pump startup/shutdown operations and opening/closing times of flow control valves to prevent adverse surges.

| (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE<br><input checked="" type="checkbox"/> Check if project performed with current firm<br>a. This project involved converting an existing dry-pit lift station into a submersible pump lift station utilizing the existing gravity main and force main connections, including sizing and designing a new permanent generator and slab. Mr. Soria coordinated efforts between the civil team and survey, utility coordination, instrumentation & controls, electrical, geotechnical, and structural engineering services. He utilized AutoCAD Civil 3D to prepare a model of the demolition plan, site plan, and details. He also analyzed and identified potential utility conflicts, modeled the Force Main's alignment, developed a stormwater pollution prevention plan, and prepared a quantity take-off and a cost estimate. Additionally, he facilitated permitting with all relevant agencies, including the Florida Department of Environmental Protection (FDEP) and the Broward County Resilient Environmental Department. | (3) BRIEF DESCRIPTION <i>(Brief scope, size, cost, etc.)</i> AND SPECIFIC ROLE<br><input checked="" type="checkbox"/> Check if project performed with current firm<br>b. Mr. Soria undertook the redesign of a portion of a water main replacement and a gravity sewer system in the Village of Bal Harbour, FL. His responsibilities included estimating population and population growth, determining daily and peak flow rates, assessing feasibility and utility conflicts, and calculating capacity based on the 10-state standards requirements and Manning's equation. These calculations informed decisions regarding minimum slopes, invert elevations, minimum pipe diameters, and alignment for the sewer system. Mr. Soria conducted site visits with village officials, facilitated permitting with Miami-Dade County for a Division of Environmental Resource Management (DERM), Florida Department of Health (FDOH) Miami-Dade Water and Sewer (WASD), estimated project costs, and finalized specifications and bid documents for the village. ### 18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

Salman has over 21 years of experience providing transportation engineering, planning, civil works, construction management and budgeting services. He's worked with City's Traffic Management Centre (TMC) in controlling, integrating and coordinating various transit modes (i.e. City Metro, public transportation, taxis and traffic systems control centres) with an integrated central control unit. This also includes monitoring and overseeing signals for events, incidents, transport delays, road-works and congestion via CCTV and Intelligent Transport Systems. Salman is familiar with US ITS Architecture standards and transportation systems like ramp metering, ATMS, loop detectors and actuated signals. Projects he worked on consist of civil / roadways construction work, transportation master plans and site impact analysis, land use studies, traffic impact studies and developments of regional impact (DRI), traffic operations, safety studies and signal, and stop warrant analysis.

## 18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

Mr. Rowbotham has worked for over 30 years in the Engineering, Utilities and Construction Field. As Senior CAD Technician he has designed for utilities, roadway, water and sewer, paving grading, drainage systems, pavement marking and signing, stormwater pollution prevention, seawalls and breakwaters, docks and marine facilities, landscaping and irrigation. He has also prepared and submitted grant applications to various agencies, including FDEP, Palm Beach County LMS, CDBG and FEMA. As a Project Manager, he has administered multi-million dollar capital improvement projects for the City of Tamarac, responded to hurricanes and weather-related disasters, and coordinated and managed contractors and construction projects. His experience also covers inspection and reporting on the daily progress of projects under his purview. **Certifications: FEMA Introduction to the Incidental Command System, ICS 100; ISO 00030 Mitigation eGrant System** Contact: Levent Sucuoglu; City Manager; 954-597-3510; levent@tamarac.org; 7525 NW 88th Ave, Tamarac, FL 33321; www.tamarac.org

## 18. OTHER PROFESSIONAL QUALIFICATIONS (Publications, Organizations, Training, Awards, etc.)

Dominic is a Landscape Design professional, with over 5 years of experience in landscape and urban design, including park design and planting design for both publicly-funded and private projects. He contributes his experience in the creation of communication graphics, 3-dimensional renderings, providing schematic designs, fabrication strategies pairing with parametric design, and the development of construction technical drawings.

## Professional Affiliations:

- Associate Member, American Society of Landscape Architects (ASLA)
- Member-at-Large for Public Relations and Marketing, ASLA Florida Executive Committee
- Leadership Committee, Future Landscape Architects of America

18. OTHER PROFESSIONAL QUALIFICATIONS *(Publications, Organizations, Training, Awards, etc.)*

Mr. Padron has over 28 years of construction experience in the South Florida area. He brings 22 years of experience with FDOT District 4,6, and 1, in the Construction and Maintenance fields. As Resident Engineer in Miami, he was responsible to 1.2 Billion in construction work. He was involved with the majority of the construction of 826/836 interchange, a five level interchange with FIBs, Steel, and Segmental Bridges. As Operations Engineer in central Florida, Mr. Padron managed six counties. He has also worked as a Contractor, manager of building construction and renovation, built new roads, various parks, managed the Hard Rock Stadium tunnels and bridges project in Miami, built multiple projects in ITS with Florida's Turnpike and Broward County, and he has managed various marine projects. Some of these include Bascule rehab, bridge widening, dredging, canal stabilization, and Horizontal Directional Drilling.

18. OTHER PROFESSIONAL QUALIFICATIONS *(Publications, Organizations, Training, Awards, etc.)*

Mr. Hernandez is a recent graduate of Florida International University and has two years' experience in Geographic Information System (GIS) technologies as an intern and technician. His experience ranges from various public works projects done for the City of Weston, which included asset location inspections, area calculation of city sidewalks, and digitizing assets (mast arms, street lights, sewer lines, etc.). He also previously tutored GIS students at FIU, assisting them with data extraction and mapmaking (symbolology, choropleth, kernel density, etc.).

18. OTHER PROFESSIONAL QUALIFICATIONS *(Publications, Organizations, Training, Awards, etc.)*

As a principal of Synalovski Romanik Saye, Merrill brings significant expertise in architecture, building construction, and interior design. When she joined the firm as an intern in 1992, Merrill soon envisioned an expanded spectrum of services that would offer clients a one-stop shop, and helped launch the firm's Interior Design Studio. Internship soon led to a permanent associate position and later to Principal.

Merrill's integrated approach to project planning and client needs has added a unique dimension to the firm's overall perspective and performance. Moreover, Merrill adheres to the highest standards of aesthetic, technical, and environmental values, which have become the professional criteria and credo for the entire team.

A graduate of Pratt Institute in New York City, Mayra's opportune entry into the field of architecture included world-class projects at JFK and La Guardia airports, Grand Central Station, the World Trade Center, Port Authority, and the Big Apple's fashion hub, Bloomingdale's. From the start, Mayra held fast to her bold dreams of international discovery and the creative visionwork it inspired, as she took on greater and more diverse challenges, designing, managing, and bringing projects to fulfillment. Her enthusiasm for globe-trotting was attended by design opportunities in the airline industry, port terminals and cruise ships, and hospitality settings. She served in localities from New York City to Miami and throughout Florida, from Puerto Rico and the Dominican Republic to Panama and Brazil, from Aruba to Saudi Arabia. Her mastery of craft is evident from illustrative drawings to product selection that reflects resilience and climate sensitivity, from team management to exceeding clients' satisfaction in contract administration and meeting timeline requirements.

18. OTHER PROFESSIONAL QUALIFICATIONS *(Publications, Organizations, Training, Awards, etc.)*

A graduate of Pratt Institute in New York City, Mayra's opportune entry into the field of architecture included world-class projects at JFK and La Guardia airports, Grand Central Station, the World Trade Center, Port Authority, and the Big Apple's fashion hub, Bloomingdale's. From the start, Mayra held fast to her bold dreams of international discovery and the creative visionwork it inspired, as she took on greater and more diverse challenges, designing, managing, and bringing projects to fulfillment. Her enthusiasm for globe-trotting was attended by design opportunities in the airline industry, port terminals and cruise ships, and hospitality settings. She served in localities from New York City to Miami and throughout Florida, from Puerto Rico and the Dominican Republic to Panama and Brazil, from Aruba to Saudi Arabia. Her mastery of craft is evident from illustrative drawings to product selection that reflects resilience and climate sensitivity, from team management to exceeding clients' satisfaction in contract administration and meeting timeline requirements.

18. OTHER PROFESSIONAL QUALIFICATIONS *(Publications, Organizations, Training, Awards, etc.)*

Nicholas graduated Summa Cum Laude from the University of Miami with a degree in Architecture. While at UM, he served as a teaching assistant for the Environmental Building System (EBS) course at the School of Architecture. Professionally, Nicholas has gained valuable experience by assisting the lead architects at SRS with project drawings and client presentations. In his first few months with SRS, he has contributed to several civic projects in Florida.

| 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT <i>(Include scope, size, and cost)</i><br><br><div style="display: flex;"> <div style="flex: 1;"> <p>This project, for the Town of Davie Community Redevelopment Agency (CRA) and the Town of Davie (Town) is to revitalize the downtown area on Davie Road from Orange Drive to SW 39th Street which is currently a 5-lane road with a two-way left turn lane. The scope include milling and resurfacing the existing roadway, constructing medians with landscape and irrigation, street lighting upgrades to LED, and pavement markings and signage to include a shared outside lane to accommodate bikers as another means of transportation. The plans included modifications at the intersection of Davie Road and SW 39th St. to accommodate a northbound U-Turn, modifications to the alignment to provide wider sidewalk on the east side of Davie Road just north of Orange Drive, and replacing existing lighting on the bridge between Orange Drive and Griffin Road. A Pedestrian Study for evaluation of marked crosswalks at mid-block and uncontrolled approach locations along the limits of the corridor was performed. Permitting was required through Central Broward Water Control District(CBWCD, Broward County Highway Construction and Engineering Division (BCHCED), Broward County Traffic Engineering Division (BCTED), Florida Department of Transportation (FDOT) , South Florida Water Management Department (SFWMD), and the Town of Davie.</p> </div> <div style="flex: 1;">   </div> </div> <div style="margin-top: 20px;"> <div style="display: flex; justify-content: space-between;"> <div>APPROXIMATE PROJECT SIZE:</div> <div>N/A Acres</div> </div> <div style="display: flex; justify-content: space-between;"> <div>PROFESSIONAL FEES:</div> <div>\$ 393,935.00</div> </div> <div style="display: flex; justify-content: space-between;"> <div>CONSTRUCTION COST:</div> <div>\$ N/A</div> </div> </div> |   |   |  |   |  |                                       |   |   |   |   |  |   |  |   |   |   |  |

| 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT <i>(Include scope, size, and cost)</i><br><br><div style="display: flex;"> <div style="flex: 1;"> <p>CGA completed the design and permitting for the stormwater project for the Hallandale Beach SW Quadrant Drainage Basin, which encompassed an area of approximately 330 acres. This tidally influenced basin is bounded by Hallandale Beach Boulevard, S Dixie Highway, SW 11th Street and SW 8th Avenue in the City of Hallandale Beach, FL. Land uses within the study area are primarily single-family residential. There are a number of drainage facilities within the project area with limited conveyance to the existing Schaffer Canal. The conveyance system is subject to the effects of tidal fluctuation. Consequently, at high tide there is virtually no head available to drain the basin. The lack of conveyance capacity within this system has led to multiple Severe Repetitive Loss (RL) properties and the complete inundation of the roadway system for extended periods during storm events of lesser frequency than that required by SFWMD. Using ICPR, CGA modeled and designed an improved drainage system conveying water to a new duplex pump stations located in the Schaffer Canal which is connected to a total of 17 deep injection drainage wells. The new wells are pressurized with 15 feet of head in order to produce the necessary discharge into the G-III aquifer. Additionally, as part of the permitting requirements, a complex monitoring system will be installed to allow for real time review of pressure data at each drainage well along with monitoring wells installed within the project area to record ground water levels. The existing gravity outfall will be modified with the installation of four (4) "backflow" flap gates in a control structure at the downstream ends of the gravity system. The flap gates are designed to stop the tidal water from flowing back into the gravity system at higher tides. The project was permitted through FDEP and the Broward County Environmental Protection and Growth Management Division.</p> <p>A large generator was constructed for the pump station to allow for continuous operation even during power outages. The permanent generator, which is set above FEMA flood elevations, was wrapped with a nature design to help blend with the neighborhood. The pump station and control structures were finished with native plantings to blend with the surrounding neighborhood.</p> <p>CGA, in conjunction with the City of Hallandale Beach, worked with FEMA to get an expansion approved for the existing HMGP grant. The expansion was approved to provide over \$22 million in funding for this project and another project for the adjacent neighborhood.</p> <p style="margin-left: 40px;">APPROXIMATE PROJECT SIZE: 330 Acres<br/>         PROFESSIONAL FEES: \$ 782,395.00<br/>         CONSTRUCTION COST: \$ 11,800,000.00</p> <p><b>In-house CGA services provided for this project:</b></p> <table style="width: 100%;"> <tr> <td><input checked="" type="checkbox"/> Landscape Architecture</td> <td><input checked="" type="checkbox"/> Civil Engineering</td> <td><input type="checkbox"/> Public Outreach</td> </tr> <tr> <td><input type="checkbox"/> Urban Design</td> <td><input type="checkbox"/> Traffic Engineering</td> <td><input checked="" type="checkbox"/> Constr Admin / CEI</td> </tr> <tr> <td><input type="checkbox"/> General Planning</td> <td><input checked="" type="checkbox"/> Water / Wastewater Eng</td> <td><input type="checkbox"/> Website Development</td> </tr> <tr> <td><input type="checkbox"/> Redevelopment Svcs</td> <td><input checked="" type="checkbox"/> Electrical Engineering</td> <td><input type="checkbox"/> GIS Mapping &amp; Analysis</td> </tr> <tr> <td><input type="checkbox"/> Arch Visualizations &amp; 3D</td> <td><input type="checkbox"/> Environmental Svcs</td> <td><input checked="" type="checkbox"/> Surveying and Mapping</td> </tr> </table> </div> <div style="flex: 1;">   </div> </div> |   |   | <input checked="" type="checkbox"/> Landscape Architecture | <input checked="" type="checkbox"/> Civil Engineering | <input type="checkbox"/> Public Outreach | <input type="checkbox"/> Urban Design | <input type="checkbox"/> Traffic Engineering | <input checked="" type="checkbox"/> Constr Admin / CEI | <input type="checkbox"/> General Planning | <input checked="" type="checkbox"/> Water / Wastewater Eng | <input type="checkbox"/> Website Development | <input type="checkbox"/> Redevelopment Svcs | <input checked="" type="checkbox"/> Electrical Engineering | <input type="checkbox"/> GIS Mapping & Analysis | <input type="checkbox"/> Arch Visualizations & 3D | <input type="checkbox"/> Environmental Svcs | <input checked="" type="checkbox"/> Surveying and Mapping |

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

CGA assisted TOWN with the conversion of 18 residential properties in the Bryn Mawr neighborhood from onsite sewer treatment septic tank systems to a new sanitary sewer collection system. The project included performing a survey of the project area to document the existing conditions and location of the onsite treatment systems, preparation of the new sanitary sewer collection system design, obtaining approval from the PBC-DOH, bidding assistance to select the most responsive and responsible contractor, and providing construction management and inspection services. A key component of this project was to locate the existing onsite treatment systems to confirm the future connection to the sanitary sewer system would meet the proper pipe slope requirements. This required accessing the private properties with the Town Staff after receiving approval from the property owner. Multiple public meetings were held with the property owners to provide updates on the project and assurance the overall goals for the project are being met. The project was designed to demolish the septic tanks in-place while minimizing disruption to the private properties by placing the point of connection to the new sanitary sewer system at the right-of-way in a location to accommodate the shortest distance to the connection at the buildings. During the construction phase, CGA performed inspections to ensure the project was being built in substantial conformance with the design and prepared the permit closeout documentation required by the PBC-DOH.

The project was US Department of HUD funded through the CDBG program that was administered by the PBCHES. This Agreement between the TOWN and PBCHES required compliance with all Federal requirements including Section 3 of the Housing and Community Development Act of 1968, and the Davis-Bacon Act. CGA assisted the TOWN with compliance of this Agreement by reviewing contractor's applications for payment and certified payroll, performing interviews with the contractor's employees, and managing the documentation through the online cloud based portal called Elation Systems that was required by PBCHES.

| <p>Our approach to this project was one inherently about urban design and space-creation. It was not simply a matter of beautification, but rather a process of embedding the environment with value to take advantage of inherent, flexible opportunities. We believe that these, in turn, will animate socialization, celebrate the culture of place, and provide for a multi-functional framework. We seek to capture the human experience, including mood, atmosphere, color, sound, tactility, pleasure and light that characterizes the ethos of 'place' that lives at this intersection of:</p> <ul style="list-style-type: none"> <li>Culture – with the Broward Center for the Performing Arts, Museum of Discovery and Science, and the Esplanade Park,</li> <li>Socialization – with the vibrant Himmarshee Street nightlife scene,</li> <li>History – with the campus of historical buildings, including the Museum of History, Hoch Heritage Center, Philemon Bryan House, King-Cromartie House, and the Schoolhouse), and</li> <li>Access and Connectivity – with the continuity of the Riverwalk as a major destination linking the various waterfront properties.</li> </ul> <p>Our goal for this project was to provide a design solution that results in products that are resilient, innovative, creative, sensitive, inspiring, memorable, responsible, interpretive, comprehensive, imaginative and visionary. We lead by design and with design.</p> |  |   |  |

|---|---|
| 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)<br><br><p>Lift Station No. 48 is located within a residential neighborhood between two single family homes. Previously, the station's force main consisted of 1,400 linear feet of old, cast iron pipe that ultimately connected to a gravity sewer manhole downstream. Due to decades of corrosion and internal build-up, the pipe's internal diameter had significantly decreased and was causing added stress on the pumps to discharge sewage. Additionally, the existing suction-lift pumps had reached the end of their useful service life. The project scope consisted of removing the existing pumps and piping, removing the aboveground metal housing vault, installing new submersible type pumps and piping, new top slab with an access hatch and safety grate, new precast concrete valve vault, upgrading the internal control panel appurtenances, and replacing the force main with 4-inch HDPE pipe. The new force main was designed and installed by horizontal directional drilling to limit restoration requirements and disruption to local traffic and the residents. The trenchless force main installation along with expedited shop drawing reviews of long lead items allowed the project to finish well ahead of schedule. The overall project scope consisted of survey, design, permitting, producing construction plans with technical specifications, preparing bid documents, evaluating bidders, performing routing construction inspections, running construction progress meetings, reviewing shop drawings, responding to Contractor RFIs, reviewing as-builts, overseeing pump station startup testing, and closing out permits with final certification submittals.</p> |  |

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

In 2017, Calvin, Giordano & Associates, Inc. (CGA) was awarded a contract by the City of Plantation to provide planning, design, and construction services for a complete re-construction of Pine Island Park as part of the City's Parks Bond program. The major goals of the design of this park were to significantly improve the drainage and playability of the soccer fields, to enhance the experience of park users by providing new walkways, shaded seating areas, and a main entrance courtyard, and to improve ADA accessibility. Therefore, the proposed improvements to this highly used 24-acre soccer park, include the removal of the old existing parking lot, expansion and renovation of the new City-owned parking lot, two (2) new Parks & Recreation buildings, and re-grading of the site to accommodate six (6) natural grass soccer fields, one (1) main synthetic turf soccer field, and one (1) synthetic turf goalie practice area, as well as extensive sidewalk, lighting, and drainage improvements throughout the site. Some additional unique design features of the park include brick columns and an arched entryway into the park, an open-air pavilion for trophy presentations and special events, and a new, electronic messaging board and monument sign along Pine Island Road. CGA provided surveying, site planning, civil engineering, electrical engineering, landscape design, and irrigation design services for the project, as well as permitting and construction administration. The park improvements was completed in June 2022.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Palm Beach County Water Utilities Department (PBCWUD) requested CGA to provide grant application assistance for funding of disaster mitigation improvements to critical infrastructure within their water and wastewater service area. CGA assisted PBCWUD with researching and preparation of multiple grant applications to the Florida Department of Economic Opportunity (DEO) under the Rebuild Florida Critical Facilities Hardening Program (CFHP) and General Infrastructure Program (GIP). DEO was designated by the U.S. Department of Housing and Urban Development (HUD) to administer the grant funding through the Community Development Block Grant (CDBG) program in areas impacted by presidentially declared disasters in 2016 and 2017. The projects that were identified were required to be consistent with the State of Florida Mitigation Action Plan and were generally within the western region of Palm Beach County serving the Cities of Belle Glade, Pahokee, and South Bay with a primary objective to benefit the Low and Moderate Income (LMI) communities and to better protect this area from future disasters.

CGA prepared grant applications for four (4) projects under the CFHP, with a total in the amount of \$11,377,000 and twelve (12) projects under the GIP, with a total in the amount of \$55,958,457.33. This required close coordination with PBCWUD internal team members and consultants to obtain the information necessary for completing the application process. CGA's history with working with PBCWUD and familiarity with their critical infrastructure played a major role in the ability to prepare the grant application that met all of the requirements of the Rebuild Florida Grant Program.

To date, DEO has completed their review of the grant applications submitted for the CFHP and PBCWUD was approved for \$2,710,000 for electrical and wet weather improvements at their Western Region North Wastewater Treatment Facility that generally included replacement of outdated electrical equipment, consolidating electrical equipment into a single building, installation of a single standby weather-protected generator, and pipe modifications to the aeration basin and clarifier to meet peak flow conditions.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

The City of Weston was incorporated in 1996 and is currently home to more than 61,000 residents. The City contains more than 27 square miles with boundaries on the west at the Everglades L-33 levee, on the north and east at I-75, and on the south at the C-11 canal/Griffin Road.

CGA provides engineering, landscaping, planning, and construction services for multitude of projects within the City. New City Hall and Public Works buildings, along with extensive roadway improvements, such as traffic signalization, and undergrounding the electric power on SR 84, are just a few of the recent projects designed, managed, and overseen by CGA within the City.

General Civil Engineering - Services relating to the CITY's water, wastewater, roadway, stormwater infrastructure and parks. Specialties include but are not limited to landscape architecture, irrigation, and electrical engineering for parks and street lights.

Traffic and Transportation Engineering - Services relating to CITY's vehicular, pedestrian and bicycle traffic network and infrastructure.

Environmental Engineering and Wetlands Management - Services relating to the CITY's wetlands management, mitigation areas, lakes and aquatic vegetation. Other services included under this category include environmental audits and related activities; environmental impact studies; ecological, biological, groundwater and geological studies; and geotechnical reports. Services concluded in 2016.

Surveying and Mapping - Services relating to the provision of a wide range professional surveying and mapping of services to include but not limited to: boundary surveys; topographic survey and mapping; GPS and Geodetic Control Surveys; Record (as-built) surveys; utility & infrastructure layout and legal descriptions/documents.

| 24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT <i>(Include scope, size, and cost)</i>   |   |  |   |
| <p>Calvin, Giordano &amp; Associates, Inc. (CGA) was retained by the City of Boynton Beach to provide professional services for design, permitting, geotechnical investigation, subsurface utility engineering, bidding assistance, and construction administration for a roadway and drainage improvements project in one of the City's industrial areas. The purpose of the project was to mitigate historical ponding and asphalt pavement raveling due to lack of positive stormwater discharge and substandard roadway base, respectively. Coordination played an important role with the nearby lake owner to record an easement to discharge stormwater runoff to the lake as part of the drainage design. The general project scope included eleven new stormwater structures, over 400 linear feet of 24-inch perforated drainage pipe with exfiltration trench, over 300 linear feet of solid walled 18-inch and 24-inch drainage pipe, several water main deflections, over 2,000 square yards of full-depth roadway reconstruction and regrading, reconstruction of driveways, sidewalks, and swales, and over 1,500 linear feet of concrete curb. The project was permitted and closed out through South Florida Water Management District. Since its completion, significant improvements in storage and positive stormwater discharge have been observed.</p> |   |   |   |

## H. ADDITIONAL INFORMATION

---

30. PROVIDE ANY ADDITIONAL INFORMATION REQUESTED BY THE AGENCY. ATTACH ADDITIONAL SHEETS AS NEEDED.

### Summary of the Experience and Qualifications of the Proposed Project Manager

We have assigned a proven leader to manage this contract, Ms. Jenna Martinetti, PE, to lead a team of fully licensed and experienced individuals to ensure the successful completion of each of your required services. **Ms. Martinetti is a Florida-licensed Professional Engineer who has overseen dozens of municipal projects in South Florida**, including roadway design and improvements, milling and resurfacing, ADA upgrades, traffic control plans, lift stations, water and wastewater line replacements, and drainage systems, among many others.

**Ms. Martinetti has 20 years of extensive, diverse and accomplished experience in Municipal and Governmental projects.** She has led a large variety of projects related to roadway, site plan improvements, parks and open spaces, water, wastewater, and stormwater infrastructure projects throughout Florida. Her project management experience includes design and retrofit of parks, roadways, water mains, sewage force mains, lift stations, fuel station, site design and stormwater projects as well as site planning, modifications, permitting, bidding documents, plan review during construction and project close-out. She is defined as a results-oriented leader with strong management, financial and communication skills who encourages teamwork and a collaborative approach to achieve organizational excellence, with a personal philosophy of "Respect, Integrity, Service and Excellence."

Her role as Project Manager will infiltrate all aspects of all project development with a driving force to ensure that the goals and objectives for each of the City's projects meet the expectations of the City, residents, and the overall affecting community and are supported by all the necessary inhouse resources of the CGA organization. Ms Martinetti's professional work is supportive of the firm's mission to develop excellent sustainable solutions to enhance the environment and surrounding communities. Her leadership has been exemplified in demonstrating and promoting innovative leadership strategies that foster the promotion of climate adaptation and resilience and the maximization of investments in public infrastructure improvements.

### Additional Information Tab

In order to make sure all of the requirements listed in the RFQ and the Addenda are covered, we have included an Additional Information tab at the end of this proposal. In this tab, you will find:

- A matrix that supplements and expands upon G. Key Personnel Participation in Example Projects above
- CGA's Certificate of Insurance
- CGA's W-9
- Snippets of the proposed team members' licenses
- Flyers about the proposed subcontractors
- Other helpful information

## Approach to Handling of Potential Projects

# Approach to Handling of Potential Projects

## Understanding of the Scope of Work

The CGA team has engineering knowledge and experience working in growing communities with aging infrastructure. The team understands that the City has areas that need infrastructure upgrades to support growing communities, but also has areas that simply require proper review and maintenance. These types of improvements/upgrades require the City to prepare their infrastructure, codes, and staff to be able to support the City's growth.

The CGA Team has familiarized themselves with the City's goals and Strategic Plan to help foster sustainable growth, expand and improve infrastructure, and address aging infrastructure. -We have identified numerous infrastructure projects that are very similar in nature to our successful past projects with other municipalities, which include the following:

- Hallandale Beach CRA Sustainable Parking Lot
- Town of Davie LS 48 Rehabilitation
- Hallandale Beach Reuse Water Main
- Dania Beach Water Main Replacement Projects
- Dania Cove Park (fishing dock, gazebos, new seawall)
- Mills Pond Park Artificial Turf Fields
- Patch Reef Park Pickleball Courts (in construction)
- Nova Drive Complete Streets project (signalization, roundabout, bike lanes, ADA upgrades, lighting)
- Pine Island Park Reconstruction (8 new soccer fields, parking expansion, two buildings, and synthetic turf field)
- Miami Beach Ocean Drive Pilot Study
- College Avenue Phase 2 (Surtax funded)
- Hurricane Hardening projects at public facilities

From our past experience with other municipalities, we understand the needs and objectives with each project as they relate to Civil Engineering, Water/Wastewater/Stormwater, Transportation and Traffic, Landscape Architecture, and the other services listed in the RFQ; the ultimate goal being ease of future maintenance and sustainability. As is common with many municipalities still operating aging infrastructure, breaks and serviceability become more and more of a financial hardship to the City and an inconvenience to the affected residents and business owners. Water breaks, for example, can leave many without service for hours while repairs are being made while large storm events can affect the operation of an aging sanitary sewer system and can make streets impassable.

## Proposed Approach and Methodology

### MANAGEMENT CAPABILITIES

CGA understands that excellent project management skills are the cornerstone to any successful project. Prior to commencement and through the life of the contract, the CGA Project Manager will be in regular communication with the appointed representative for the City regarding project status and progress. All communication between the CGA Team and City Staff will occur through the CGA Project Manager. The CGA Team will be led by Ms. Jenna Martinetti, PE, who has over 20 years of engineering experience in Florida and will be the central coordinator for all the activities of this contract. Depending on the type of project request, Ms. Martinetti will assign the project to the respective disciplines' project manager. Throughout our proposal, we aim to show our vast experience with these type situations and offer solutions to meet the City's goals outlined in the RFQ.

Our management approach is based on the following elements:

- Thorough understanding of the project goals and technical requirements
- Communication and efficiency
- Expediting concurrent activities
- Maintaining flexibility
- Providing experienced staff to resolve unique issues through innovative solutions
- Availability to meet with City staff at their request
- Familiarity and provision with state-of-the-art technology

Regular and efficient communication between CGA and the City's designated representative will be paramount to the success of the projects under this contract. We accomplish this by keeping the channels of communication open among CGA's team members and supplementing with regular in-house team and client progress meetings. Additionally, monthly status reports are submitted to the City's Project Manager. This helps ensure that project milestones are being met as planned as well as keeping the City staff ready to answer any commission, resident or business owner questions. Frequent communication among the City and the project manager also allows CGA to closely monitor project progress, budgets and schedules.

The CGA team organizational management approach is based on proactive leadership that strives for customer satisfaction, achievement, and success. We consider maintaining direct lines of communication an essential element for this contract in order to allow the sharing of ideas, experience, technology, and economic context without affecting the quality of services rendered to the City.

## OPINION OF PROJECT COST

The CGA Team will communicate with the City's Project Manager to identify the project budget early on. CGA will work with the City to understand the basis of the budget number to help ensure that additional scope is not added without consideration on how this affects the budget. A preliminary opinion of project cost will be prepared at the 30% document submittal milestone and will be updated and refined at each subsequent milestone submittal. The initial cost estimate will include sufficient contingencies to offset minor budget escalation at future updates due to market conditions. The unit prices in the cost estimates are constantly being updated with the best available information at that time and are subject to change even when additional scope is not added due to variation in the construction industry. CGA keeps a database of unit prices that is updated after each project bid tabulation is created in order to stay current with the market's unit prices. If a project is in jeopardy of being over budget, immediate attention is provided to address why and determine what steps need to be taken. Once the project schedule has been developed and agreed upon by CGA's Project Manager and the City's Project Manager, the CGA Team will manage the project resources to ensure all milestones are met and that the project is completed in accordance with the approved schedule.

## QUALITY ASSURANCE / QUALITY CONTROL (QA/QC)

The CGA Team recognizes the importance of a superior quality product and the need for a systematic QA/QC plan to assure excellence and client satisfaction. The CGA Team Quality Control Plan is based on the ability to provide the finest product that will be reviewed for facts, evidence, errors and omissions through a Total Quality Management Strategy. A detailed QA/QC plan is applied to each task to identify and coordinate responsibilities, and describe the procedures and standards to be utilized. This plan facilitates independent checks, reviews, verification of all data, as well as standard compliance for the proper coordination and production documents as part of this contract.

CGA performs QA/QC of the plans and specifications at 30%, 60%, 90%, bidding, and prior to issuance of final Construction Documents. At each of the project progress levels, the design plans and specifications are first reviewed by the EOR for Quality Assurance and then routed for Quality Control review by the CADD Manager, an Independent Professional Engineer, a Construction Engineer, and the Engineering Director.

The CGA Team QA/QC plan includes at a minimum the following elements to ensure that the production meets accuracy and timeliness:

- Complete understanding of the scope
- Verification of accuracy of data and field procedures
- Establishment of checks and balances
- Guidance of staff in compliance with QA/QC procedures
- Verification of updated standards and methodologies
- Integrated reviews of all work levels
- Field observations
- Documentation
- Guidelines
- Plans
- Goals, through an internal monitoring and audits of production

CGA's general approach on design, development, and construction related projects are outlined below. Variations will occur depending on the requirements of a particular authorization.

**CGA provided topographic and survey work for Miami-Dade County in its development of the Westchester Cultural Arts Center, located in Tropical Park.**

***The project was completed in 2020 and has become a community fixture.***

## GENERAL PROJECT APPROACH

### PROJECT SCOPING

Upon receiving notification of a project, CGA's Project Manager will meet with the City's Project Manager to confirm the project scope, schedule, budget, and other requirements. The Project Manager will brief the CGA Team and begin to prepare the project scoping requirements. Due diligence will be performed before preparing a draft authorization for the City's review and concurrence. Due diligence may include, but will not be limited to:

- Conduct a project site visit
- Review the record/back-up documents of the project
- Research permit documents
- Research recorded plats and review the City's Zoning Ordinances, if applicable
- Develop a sketch defining our understanding of the project limits

## AUTHORIZATION

Once the project scope and concept documents have been agreed upon, we will then prepare authorization documents. These documents will include but not limited to:

- A description of the project
- Project location map
- Scope of services to be performed
- Schedule of professional fees
- Engineer's preliminary opinion of probable cost

***CGA Project for Broward  
County's Highway  
Construction and Engineering  
Division (BCHCED)***

## PROJECT COMMENCEMENT/KICK-OFF MEETING

All approved work authorizations will begin with a Project Kickoff Meeting, during which the CGA Project Manager will meet with the appropriate City staff. The Project Manager will then meet with the project team at the internal Kickoff Meeting.

The Team will be introduced to the scope, budget, and timeline, and the Project Manager will define the various elements of the project and the QA/QC requirements at this meeting. The overall project schedule will be developed and confirmed with the team members. The Project Manager will regularly review the status of the project to ensure that the CGA Team is meeting the project's schedule and budgetary requirements as initially defined and will update the City of the project's ongoing progress.

## FIELDWORK

For authorizations involving the analysis of existing conditions, the design of proposed improvements, or management of ongoing work, CGA will perform a site field review. Depending on the nature of the authorization, this may include observations of the site, traffic data collection, topographical survey, Environmental Assessment, and/or a survey of existing structures.

## UTILITY COORDINATION

For any authorization that involves design, review, or project management of proposed improvements, CGA will coordinate with the various utility and subconsultant companies to determine the location of existing and future planned utilities. In certain projects, this will also include ground penetrating radar (GPR) and vacuum excavation of existing utilities (soft digs) for resolution of potential conflicts with proposed improvements. This data will be included on any right-of-way and design survey and will be used throughout the design, review, and project management process.

## STAKEHOLDER INPUT

Depending on the specific project type, it may be desirable to engage and include stakeholder input early in the process to obtain buy-in from those individuals most impacted by the project. This is particularly true of Planning projects, but applies to all possible projects. Construction projects, roadway projects, park improvement, and stormwater projects all require stakeholder input for smooth operation and execution. Schematics, aerial images, and renderings allow for input on the plan to meet the needs and requests made by stakeholders. One often-underestimated "Stakeholder" is the City's own maintenance staff. The CGA team requests meetings with staff involved in operation of the completed project to make sure they are satisfied and any special requests are incorporated early in the design process. When requested, CGA can also utilize our interactive resident voting devices to obtain quick and effective input from residents as well as create electronic surveys for obtaining anonymous input or input from stakeholders unable to attend meetings.

## PREPARATION OF PRELIMINARY DELIVERABLES

CGA will prepare preliminary plans and technical memorandums for review by the City prior to proceeding with the design to confirm the agreed upon scope of work is provided. These documents may include the following items as needed:

- Environmental analysis
- Conceptual site plans
- Preliminary landscape architectural design plans
- Preliminary roadway and drainage alignment plans
- Preliminary water, wastewater, and stormwater design plans
- Detailed drainage analysis results
- Intersection lane analysis
- Lighting justification report
- Recommended typical cross section(s) for proposed roadway improvements
- Layout of signalization improvements
- Traffic study results

***CGA provided roadway  
engineering for the Rickenbacker  
Causeway in Miami-Dade County.***

## PREPARATION OF PLANS/DELIVERABLES

CGA will meet with City representatives and receive comments on the preliminary submittals. Following the meeting, our team will prepare a written response to the design comments, make appropriate changes, and continue on to the typical 60% and 90% milestones. The 60% and 90% design documents will then be submitted to the City for review, comments, and approval.

## PERMITTING

After receipt of the City's confirmation of the project concept, CGA will conduct preliminary meetings with the Agencies Having Jurisdiction (AHJ) over the project. After the 60% plans have been reviewed and approved by the City, permit applications will be prepared for the AHJ's. CGA will utilize its long-term relationships with the staff at the AHJ's to follow up and expedite permit approvals whenever possible.

## PREPARATION OF FINAL PLANS/DELIVERABLES

CGA will meet with representatives of the City to receive their comments on the 90% plans submittal. Following the meeting, CGA will prepare a written response to comments, make appropriate revisions, and complete the preparation of the deliverables as defined by the authorization to include:

- Technical specifications
- Bidding documents, including a bid form
- Final construction plans in accordance with City and other applicable standards
- Applicable approved permits

These plans, specifications, and bid documents can be used for the solicitation of competitive bids for the construction.

## BIDDING/AWARD/NOTICE-TO-PROCEED

When the scope of work requires a competitive bid process, the CGA Team can assist the City with the bid management process to include:

- Advertisement
- Pre-bid meeting and minutes
- Response to bidders' questions
- Preparation and issuance of addenda
- Evaluation of bids
- Preparation of a bid evaluation letter for award of the construction contract

## CONSTRUCTION ADMINISTRATION

During construction, CGA will be available to provide any necessary technical assistance and respond to questions from contractors and the City. CGA will aggressively pursue

the completion of each phase of a project. Again, CGA has vast experience with local municipalities, and we are aware of the sensitive nature of budgets, neighborhood impacts, and schedules

CGA services during construction include:

- Preparing agenda, conducting pre-construction and progress meetings, and distributing meeting minutes
- Managing the shop drawing review process
- Coordinating and managing permit requirements
- Reviewing and coordinating monthly payment applications
- Reviewing and managing the construction schedule
- Coordinating and reviewing RFI's, claims, and change order proposals
- Reviewing and monitoring budget and Contractor performance with daily inspections and written reports
- Coordinating substantial completion, final completion, and submitting certifications

## AUTHORIZATION CLOSEOUT

Once all tasks have been completed, the Project Manager will work with the City's representative to close out the project, including the punch list process and closing out any required grant applications and open permits.

*CGA's Landscape Team has performed numerous services for the City of Miami Beach, some of which are pictured above. They include Middle Beach Recreational Corridor Phases 2 and 3, as well as Police Station Electrical Assessment & Upgrades.*

## Engineering Plan Review

Over the years, the various departments at CGA (Civil Engineering, Traffic Engineering, Planning, Construction Engineering Inspection, Surveying, Landscape Architecture, and Environmental) have been instrumental in assisting municipalities in shepherding projects from development review through completion of construction. This is a role we have with multiple municipalities in Central and South Florida. In some municipalities, CGA acts as an extension of the staff and provides supplemental reviews on behalf of staff, such as review of engineering permits and site plans or traffic impact studies. In other municipalities, CGA's planning department acts as the in-house planner and facilitates the entire site plan review process, which can include plat reviews, site plan reviews, variance review and processing, traffic impact analysis reviews, staff meeting attendance, presentation at commission/council meetings all the way through engineering and landscape permit reviews and inspections.

Because of this experience, we have adopted municipal policies and procedures across our entire corporate platform, most notably Florida Public Records laws. We have also assisted planning and development divisions in land development code updates, engineering standard updates, process efficiency and success evaluations, and software implementation to facilitate electronic submittals, reviews, and approvals. The key to a successful plan review process is communication between city and CGA staff so the reviewer has an understanding of the expectations from the City, the applicants, and the stakeholders regarding the process, expectations and "hot buttons".

When an application is submitted that triggers a traffic study, the review commences with holding a traffic study methodology meeting with the applicant's traffic engineering consultant, who is preparing the traffic impact study, traffic statement, or parking waiver/parking reduction study, whichever is relevant for that development application. Typically, the applicant provides a methodology letter and a site plan before the methodology meeting, and the CGA traffic team develops a list of concerns and the proper analysis needed based on those materials. The process then continues with review of the traffic impact study and site plan. While CGA's traffic engineers review ingress/ingress, site circulation, access, and multimodal connectivity; the civil engineers will review the site drainage and grading, utility layout and requirements for capacity, fire circulation and hydrant spacing. The civil engineer coordinates with the traffic engineer reviewing the traffic study to confirm the two submittal items are in alignment and the resulting comments from CGA are consistent. CGA can perform reviews utilizing Revu Bluebeam, Adobe, Accela, or hard copies.

## Scheduling Methodology

At CGA, a key exercise performed in the kick-off meeting is finalizing the schedule and identifying our key risk factors. This involves the complete team and includes each discipline and responsible team member. We focus on task critical functions based on each discipline's knowledge area. The complete involvement emphasizes schedule awareness and complete team buy-in. For example, if a potential slip in the schedule is identified, the Project Manager can address it through the project's issues and risk analysis process. Schedule changes often have downstream impacts and permitting is always a critical element. Therefore, CGA Leads are trained to use the schedule as a functional tool and focus on critical tasks that impact the overall timeline. Steps that are taken include:

- i. **Involving the complete team in the schedule development process**
- ii. **Confirming availability of team members to meet the schedule**
- iii. **Developing schedules around deliverables (internal and external)**
- iv. **Identifying critical milestones**
- v. **Task contingencies to anticipate schedule fluctuation**
- vi. **Being cautious when making schedule changes without corresponding change in scope**

With the schedule distributed to the team, the Project Manager closely tracks individual tasks and updates project progress. If circumstances occur that have the potential to cause delays, the Project Manager is authorized to assign more resources to the project. If delays are permitting or administrative in nature, the Project Manager will revise the schedule considering the potential risk of continuing forward with a design without final project approval. Such a situation would be presented to the City to determine if the delayed tasks can proceed based on the anticipated outcome of the third-party approvals processes.

The CGA Team is committed to providing the City with a high-quality project by meeting the City's schedule and budget requirements, as well as assigning the most qualified and dependable staff to carry out the work required under this Contract.

The CGA Team understands that a schedule is intended not only for the Consultant, but also for the City to coordinate their resources for reviewing submittals and for reporting to other City Staff and Departments. The CGA Team values the importance of meeting milestone dates, review dates, and final submittal dates.

| Village of Indian Creek Village - Professional Services since 2020 | Ongoing                  | Multiple Contracts - Task Order Based. |
| Village of North Bay Village - Professional Services since 2019    | Ongoing                  | Multiple Contracts - Task Order Based. |

HOW THE POTENTIAL PROJECT(S) WILL FIT INTO CGA'S WORKLOAD

CGA commits to providing adequate and consistent staffing for the City throughout the contract’s life per the City’s estimated workload and permit volumes. Through our work in similar communities in the area and the longevity of our valued staff, we assure our team will provide the City with the necessary resources, expertise, and customer-focused attitude throughout the contract. We believe our proposed team will provide adequate coverage for the City to accomplish its anticipated workload. If the workload exceeds the availability of our proposed team, we have multiple options for temporarily backfilling staff until the workload levels out or additional permanent staff is deemed necessary.

Our staff will be readily available by phone and email, and we commit to being available for required in-person meetings and video teleconferences as required by the City. They will be available to perform services during the City’s regular business hours of 8:00 am to 5:00 pm, Monday through Friday, or as may be altered or directed by the City.

Once assigned to a project, our core team members remain dedicated to that project until completion. If any personnel changes occur during the life of the contract, CGA will immediately notify the City of the situation and will tap other local resources nearby to temporarily support the City until a replacement is sourced, approved by the City, and onboarded.

CGA provided City of Dania Beach with water main improvements and replacements at three locations, pictured to the right.

## Available Facilities, Technological Capabilities, and Other Available Resources

### THE CGA DIFFERENCE

During this process, the City will receive multiple responses from licensed, insured and qualified firms. Many engineering firms can obtain a license, insurance, and a handful of clients; however, it takes an Exceptional Staff managed by a dedicated leader to maintain a high level of standard.

### CUTTING EDGE TECHNOLOGY

At CGA, it is important to provide the best end user experience for our clients. In order to provide cutting edge services, we have implemented systems company-wide that streamline processes or add value to our clients. These systems include:

- State of the Art Surveying Equipment: Trimble GPS Units (Base to Rover and RTK), Leica C-10 3D Scanner, and Aerial Drones;
- INKforce™, a GIS based mobile application for Code Enforcement Tracking (CET), Building and Permitting Tracking (BPT), Fire Inspections Tracking (FIT), Planning and Zoning (PNZ) and Business Tax Receipts (BTR) (<http://live.inkforce.net/>);
- Fleet of 145 new vehicles equipped with mobile computing systems and GPS trackers;
- In-house software development team that is capable of customizing software's to meet the ever-changing needs of our clients;
- Primavera and Microsoft Project scheduling software; and
- Bluebeam, AutoCAD, ICPR.

We pride ourselves on obtaining and mastering new technology ahead of our competitors, which enables us to provide exceptional service to our clients.

### STAFF CERTIFICATIONS AND ACHIEVEMENTS

Our only asset which could surpass our technology is the knowledge and experience of our in-house staff. We currently employ over 340 employees who provide 22 distinct services, all of which are located in the Tri-County area. A large number of our staff have worked for municipal governments and have been licensed contractors prior to entering their careers in the private sector. This mixed experience allows our team to envision and avoid areas of concerns prior to them becoming issues. The highlights of these employees are shown below:

- |                                   |                             |
|-----------------------------------|-----------------------------|
| • 21 Professional Engineers       | • 6 Certified Arborist      |
| • 71 Licensed Contractors         | • 2 Flood Plain Managers    |
| • Over 50 NIMS Certified          | • Over 15 OSHA Certified    |
| • Over 50 FEMA Certified          | • 9 AICP Certified Planners |
| • 93 BORA Certified               |                             |
| • 8 LEED Accredited Professionals |                             |
| • 2 Licensed Landscape Architects |                             |

***CGA Project for Broward  
County's Highway  
Construction and Engineering  
Division (BCHCED)***

### EMERGENCY RESPONSE

CGA is proud of our history supporting municipal agencies in a time of need. In the aftermath of storms, particularly Hurricane Wilma and Hurricane Irma, CGA was able to assist numerous municipalities in the recovery effort. CGA deployed our team of over 80 National Incident Management System (NIMS) and Federal Emergency Management Agency (FEMA) certified staff to properly document the damage, manage, and assist in the recovery effort and FEMA funding. CGA's support during this event assisted the cities in achieving their refund of recovery costs with FEMA funds. CGA understands Emergency Management services are not part of this contract.

However, we are prepared to provide the City with any support services requested in the event it is needed. Today, all CGA personnel deployed in the post disaster environment maintain the following training certifications:

- |  |  |                |
|--|--|----------------|
| • National Incident Management System (NIMS) | • ICS 300 (Debris Supervisors/Managers); | • ICS 700; and |
| • Incident Command System (ICS) 100;         | • ICS 400 (Debris Supervisors/Managers); | • ICS 800.     |
| • ICS 200 training (Field Personnel);        |  |                |

**SWORN STATEMENT UNDER SECTION 287.133(3)(A),  
FLORIDA STATUTES, ON THE PUBLIC ENTITY CRIMES**

(To be signed in the presence of a notary public or other officer authorized to administer oaths.)

STATE OF Florida COUNTY Broward

Before me, the undersigned authority, personally appeared, who, being by me first duly sworn, made the following statement:

Name of Proposer Calvin, Giordano & Associates, Inc.

Business address 1800 Eller Dr, Suite 600, Fort Lauderdale, FL 33316

I understand that a public entity crime as defined in Section 287.133 of the Florida Statutes includes a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity in Florida or with an agency or political subdivision of any other state or with the agency or political subdivision of any other state or with the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or any such agency or political subdivision and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

I understand that “convicted” or “conviction” is defined by the statute to mean a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, nonjury trial, or entry of a plea of guilty or nolo contendere.

I understand that “affiliate” is defined by the statute to mean (1) a predecessor or successor of a person or a corporation convicted of a public entity crime, or (2) an entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime, or (3) those officers, directors, executives, partners, shareholders, employees, members and agents who are active in the management of an affiliate, or (4) a person or corporation who knowingly entered into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months.

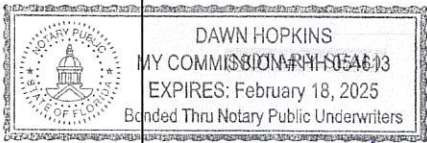

**Please mark the appropriate paragraph below:**

  X   Neither the proposer, contractor, nor any officer, director, executive, partner, shareholder, employee member or agent who is active in the management of the proposer or contractor nor any affiliate of the proposer or contractor has been convicted of a public entity crime subsequent to July 1, 1989.

\_\_\_\_\_ There has been a conviction of a public entity crime by the proposer or contractor, or an officer, director, executive, partner, shareholder, employee, member or agent of the proposer or contractor who is active in the management of the proposer or contractor or an affiliate of the proposer or contractor. A determination has been made pursuant to Section 287.133(3) by order of the Division of Administrative Hearings that it is not in the public interest for the name of the convicted person or affiliate to appear on the convicted vendor list. The name of the convicted person or affiliate is \_\_\_\_\_.

A copy of the order of the Division of Administrative Hearings is attached to this statement.

### **NON-COLLUSION AFFIDAVIT**

By submission of this affidavit, the Proposer certifies that this price is made independently and free from collusion. Proposer shall disclose below, to the best of its knowledge, any City of Cooper City officer or employee, or any spouse, son, daughter, stepson, stepdaughter, or parent of any such officer or employee, who is an officer or director of, or has a material interest in, the Proposer's business who is in a position to influence this procurement. Any City of Cooper City officer or employee who has any input into the writing of specifications or requirements, solicitation of offers, decision to award, evaluation of offers, or any other activity pertinent to this procurement is presumed, for purposes hereof, to be in a position to influence this procurement. For purposes hereof, a person has a material interest if he or she directly or indirectly owns more than five percent (5%) of the total assets or capital stock of any business entity, or if he or she otherwise stands to personally gain if the contract is awarded to this vendor.

Failure of a vendor to disclose any relationship described herein shall be reason for debarment in accordance with the provisions of the City of Cooper City Code of Ordinances.

**SCRUTINIZED COMPANIES CERTIFICATION**  
**(PURSUANT TO FLORIDA STATUTE § 287.135)**

I, David Stambaugh, VP of Pro. Services, on behalf of Calvin, Giordano & Associates, Inc.,  
Print Name and Title Company Name

certify that Calvin, Giordano & Associates, Inc. does not:  
Company Name

1. Participate in a boycott of Israel; and
2. Is not on the Scrutinized Companies that Boycott Israel List; and
3. Is not on the Scrutinized Companies with Activities in Sudan List; and
4. Is not on the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; and
5. Has not engaged in business operations in Syria.

Submitting a false certification shall be deemed a material breach of contract. The City shall provide notice, in writing, to the Company of the City's determination concerning the false certification. The Company shall have ninety (90) days following receipt of the notice to respond in writing and demonstrate that the determination of false certification was made in error. If the Company does not demonstrate that the City's determination of false certification was made in error, then the City shall have the right to terminate the contract and seek civil remedies pursuant to Florida Statute § 287.135.

Section 287.135, Florida Statutes, prohibits the City from:

- 1) Contracting with companies for goods or services in any amount if at the time of bidding on, submitting a proposal for, or entering into or renewing a contract, the company is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, F.S., or is engaged in a boycott of Israel; and,
- 2) Contracting with companies for goods or services over \$1,000,000.00 that are on either the Scrutinized Companies with activities in the Iran Petroleum Energy Sector List, created pursuant to s. 215.473, or are engaged in business operations in Syria.

As the person authorized to sign on behalf of the Company, I hereby certify that the company identified above in the section entitled "Company Name" does not participate in any boycott of Israel, is not listed on the Scrutinized Companies that Boycott Israel List; the Scrutinized Companies with Activities in Sudan List; the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; and is not engaged in business operations in Syria. I understand that pursuant to Section 287.135, Florida Statutes, the submission of a false certification may subject the company to civil penalties, attorney's fees, and/or costs. I further understand that any contract with the City for goods or services may be terminated at the option of the City if the company is found to have submitted a false certification or has been placed on any of aforementioned lists.

  
\* SIGNATURE

David Stambaugh, VP of Professional Services  
PRINT NAME & TITLE

\* Individual must have the authority to bind the Company.

**Form must be executed and returned with attached proposal to be considered.**

**E-VERIFY FORM**

**Definitions:**

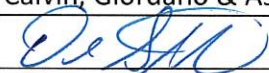

“Contractor” means a person or entity that has entered or is attempting to enter into a contract with a public employer to provide labor, supplies, or services to such employer in exchange for salary, wages, or other remuneration.

“Subcontractor” means a person or entity that provides labor, supplies, or services to or for a contractor or another subcontractor in exchange for salary, wages, or other remuneration.

Effective January 1, 2021, public and private employers, contractors, and subcontractors will begin required registration with, and use of the E-verify system in order to verify the work authorization status of all newly hired employees. Vendor/Consultant/Contractor acknowledges and agrees to utilize the U.S. Department of Homeland Security’s E-Verify System to verify the employment eligibility of:

- a) All persons employed by Vendor/Consultant/Contractor to perform employment duties within Florida during the term of the contract; and
- b) All persons (including sub-vendors/sub-consultants/subcontractors) assigned by Vendor/Consultant/Contractor to perform work pursuant to the contract with the Department. The Vendor/Consultant/Contractor acknowledges and agrees that use of the U.S. Department of Homeland Security’s E-Verify System during the term of the contract is a condition of the contract with the City of Cooper City; and

Should vendor become successful Contractor awarded for the above-named project, by entering into this Contract, the Contractor becomes obligated to comply with the provisions of Section 448.095, Fla. Stat., "Employment Eligibility," as amended from time to time. This includes but is not limited to utilization of the E-Verify System to verify the work authorization status of all newly hired employees and requiring all subcontractors to provide an affidavit attesting that the subcontractor does not employ, contract with, or subcontract with, an unauthorized alien. The contractor shall maintain a copy of such affidavit for the duration of the contract. Failure to comply will lead to termination of this Contract, or if a subcontractor knowingly violates the statute, the subcontract must be terminated immediately. If this contract is terminated for a violation of the statute by the Contractor, the Contractor may not be awarded a public contract for a period of 1 year after the date of termination.

### CONFLICT OF INTEREST DISCLOSURE FORM

The award of this contract is subject to the provisions of Chapter 112, *Florida Statutes*. All Proposers must disclose within their Proposal: the name of any officer, director, or agent who is also an employee of the City of Cooper City.

Furthermore, all Proposers must disclose the name of any City employee who owns, directly or indirectly, an interest of more than five percent (5%) in the Proposer's firm or any of its branches.

The purpose of this disclosure form is to give the City the information needed to identify potential conflicts of interest for evaluation team members and other key personnel involved in the award of this contract.

The term "conflict of interest" refers to situations in which financial or other personal considerations may adversely affect, or have the appearance of adversely affecting, an employee's professional judgment in exercising any City duty or responsibility in administration, management, instruction, research, or other professional activities.

Please check one of the following statements and attach additional documentation if necessary:

  X   To the best of our knowledge, the undersigned firm has no potential conflict of interest due to any other cities, counties, contracts, or property interest for this Proposal.

           The undersigned firm, by attachment to this form, submits information that may be a potential conflict of interest due to any other cities, counties, contracts, or property interest for this Proposal.

## Addendum #3 - CLARIFICATIONS

(Issued Monday, December 9, 2024)

### RFQ 2024-1-PW, Continuing Professional Consulting Services (CCNA)

*This addendum is issued to make the following change(s)/correction(s)/clarification(s) to:*

*Question 1: Does the City want the Proposers to include five references for each category?*

Answer 1: No. Five (5) references will be sufficient

*Question 2: Under what section does the City prefer the Proposers to include their project experience (besides the reference section)?*

Answer 2: TAB 6 References please provide the details of "Project Experience" per each area your firm desires to be considered the prime consultant.

*Question 3: Our firm is able to provide more than one of the requested services. Section 2.1 Introduction of the solicitation states, "a firm may submit only as a prime." Is the City looking for us to (a) ONLY submit for services specific to each Exhibit A in which we will be prime and omit any potentially needed sub-consultant? Alternatively (b) include sub-consultants that we anticipate would be needed, even if they have their own dedicated Exhibit A? (For example: How do we address Civil Engineering as prime and Geotechnical Engineering as a sub-consultant?)*

Answer 3: The City desires only the prime consultant, as identified in Exhibit A.

*Question 4. Would the City consider extending the deadline due to the holidays?*

Answer 4: Yes. January 6<sup>th</sup> 2025

*Question 5: Section 1.21 requests that an original and three copies be submitted in a sealed envelope, with a USB. Does the city prefer a certain method for binding the hard copy responses (e.g. spiral bound vs three-ring binder)?*

Answer 5: No preference on binding

*Question 6: How much work (\$ amount and type of projects) were distributed under the previous continuing contract?*

## Calvin, Giordano & Associates, Inc.

A SAFEbuilt Company

City of Cooper City, Florida

RFQ 2024-1-PW,

Continuing Professional Consulting Services (CCNA)

Addendum #2 - Clarifications

Answer 6: The City currently has several contracts and approximately twenty-five (25) active capital projects of varying scale, cost, and complexity. It is also preparing to enter the bond market soon to obtain a rating and secure funding for many more projects over the next one to two years.

---

*Question 7: Is there an existing contract in place for these services, and if so, could you confirm the incumbent's name?*

Answer 7: Currently the city has three (3) contracts in place: Hazen and Sawyer, Chen Moore & B Corradino Group. Additionally, there are several existing contracts for services. However, the City wishes to deepen the pool of available consultants, and values small to intermediate sized firms who can complete the types of projects Cooper City has to complete, including water and wastewater utility projects, general fund and public works capital projects, building facilities, resiliency and other types of projects (such as lighting, electrical, MEP and other services).

---

*Question 8: While we understand this is a continuing contract, could you provide information on any allocated budget, or the budget assigned to previous or similar projects?*

Answer 8: The City has projects that will range from several hundred thousands of dollars to as much as twelve to twenty million dollars in magnitude, and include the various types of projects outlined in response to question 8 (eight) above.

---

*Question 9: Is it acceptable to submit the proposal ONLY via DemandStar?*

Question 9: Yes

---

*Question 10: Could you please confirm whether the current RFQ 2024-1-PW will replace the contracts previously awarded under RFQ 2020-1-UTL? If that is the case, would CMA need to resubmit to be reconsidered under the new RFQ?*

Question 10: Existing contracts have been replaced by submissions under RFQ 2024-1-PW. CMA should submit again under this RFQ. Any contracts that have already been executed will proceed to completion, but new assignments will require re-selection through this RFQ.

---

*Question 11: Can we use 11 x 17 paper size for the organizational chart?*

Question 11: Yes but fold it into 8.5 x 11 inch size book.

---

*Question 12: Can we extend Exhibit B to include all project team members and add a column for "Other"?*

Question 12: Yes

---

*Question 13: Page 46, Domestic Partnership has two sections – Section one has applicable information to select, Section two mentions contract price terms and is not applicable to section one – How do we proceed?*

Question 13: Please select an item for Section Two only if Item #4 in Section One is selected

---

*Question 14: If a firm is pursuing continuing consulting services for architectural services, should that firm include subconsultants/services such as MEP, Structural etc.?*

Question 14: Yes, and if you change these, the Contract eventually executed should require you to update any of these selections and

City of Cooper City, Florida  
RFQ 2024-1-PW,  
Continuing Professional Consulting Services (CCNA)  
Addendum #2 - Clarifications

request approval by City before using any different sub consultants.

---

*Question 15: We would like to know if the City wants subconsultants included in the proposal submittal. If subconsultants as to be included should they fill out the Exhibits A & B?*

Question 15: No, those sub consultants would not necessarily need to complete the Exhibit A & B inquiries. We can evaluate them through the proposal review process.

---

*Question 16: In regard to the above referenced project, is it acceptable to recreate the Exhibit B form (page 2) with the table that lists the project team? It is difficult to fit the information on the form provided with the RFQ. :*

Question 16: Yes, please complete Form 330, Parts I and II, as required by the RFQ. The form has been uploaded to Demandstar as an amendment.

---

*Question 17: Is the expectation of the City that each firm submits its qualifications as a sole entity and not as a team with subconsultants?*

Question 17: Yes. Each consultant should submit its own qualifications and list its sub consultants to be used, not as a team of consultants. The City desires specialized consultants that can self-perform a substantial amount of work included in the project, but acknowledges some sub consultants may be needed for specific needs in portions of any project undertaken.

---

*Question 18: As currently worded, we believe that the indemnity provisions in Section 1.15 on page 8, and Article 6.1 on page 56, of the RFQ does not comply with FL Statute 725.08 and is unenforceable. Will you agree to reword the indemnification to conform with the statute? Suggested language per FL Statute 725.08: "The design professional shall indemnify and hold harmless the agency, and its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the design professional and other persons employed or utilized by the design professional in the performance of the contract."*

Question 18: The City will ensure that contract awarded pursuant to the RFQ is consistent with Sec. 725.08, F.S., and the other requirements of Florida law.

## Addendum #5

(Issued Thursday, December 19, 2024)

### RFQ 2024-1-PW, Continuing Professional Consulting Services (CCNA)

*This addendum becomes a part of the subject solicitation.*

#### A. CHANGES TO THE SOLICITATION:

Please note the following changes to the Solicitation:

1. **Question and Answer Deadline:** Extended to Monday, December 23, 2024, at 12:00 PM EST.
2. **Proposal Due Date:** Extended to Monday, January 6, 2025 at 3:00 PM EST.
3. **Section 1.15, Indemnification has been replaced with the following:**

#### 1.15 Indemnification

Pursuant to Florida Statutes 725.08 and notwithstanding the provisions of Florida Statutes 725.06, the CONSULTANT shall indemnify and hold harmless the CITY, and its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONSULTANT and other persons employed or utilized by the CONSULTANT in the performance of this Agreement.

To the extent this indemnification clause or any other indemnification clause in this Agreement does not comply with Chapter 725, Florida Statutes, as may be amended, this provision and all aspects of the Contract Documents shall hereby be interpreted as the parties' intention for the indemnification clauses and Contract Documents to comply with Chapter 725, Florida Statutes, as may be amended. This Section shall survive expiration or termination of this Agreement.

4. **Section 1.21 Proposal Submission Deadline and Opening has been replaced with the following:**

1.21 PROPOSAL SUBMISSION DEADLINE AND OPENING: Sealed proposals will be received electronically via [www.DemandStar.com](http://www.DemandStar.com) and by the City Clerk's Office, City of Cooper City, 9090 SW 50th Place, Cooper City, Florida until 3:00 PM, Friday, December 13, 2024. The proposals will be opened and read aloud shortly thereafter. One (1) USB, one (1) original and three (3) copies of proposals must be presented in a sealed envelope and identified with the following information: "Continuing Professional Consulting Services, RFQ2024-1-PW#" for physical submissions. Electronic proposal submissions require the uploading of electronic attachments via [www.DemandStar.com](http://www.DemandStar.com). The submission of electronic attachments containing embedded documents or proprietary file extensions is prohibited. All electronic proposals received and time stamped through DemandStar, prior to the proposal submittal deadline shall be accepted as timely submitted. If you submit your Proposal and subsequently an Addendum is issued, failure to resubmit the Proposal, after acknowledging Addenda or making any edits to your Proposal, may result in your Proposal not being received by the City. The City of Cooper City reserves the right to reject any or all proposals, to waive any informalities or irregularities in any proposals received, to re-advertise for proposals, to award only portions of the project, to award to multiple Proposers, or take any similar actions that may be deemed to be in the best interests

5. Section 2.4, Statement of Qualifications Content has been replaced with the following:

**2.4 Statement of Qualifications Content:**

Consultants interested in performing these professional services must identify which area(s) the firm(s) are interested in being considered. Consultants must display considerable relevant experience with the specified type of work (as listed on Exhibit "A") and should emphasize both the experience and capability of particular personnel who will actually perform the work. In order to ensure a uniform review process and to obtain the maximum degree of comparability, it is required that the Statements of Qualifications be organized in the manner specified. The following information and documents are required to be provided with Proposer's Statement of Qualifications. Failure to do so may deem your Statement of Qualifications non-responsive.

TAB 1: Table of Contents

The table of contents should outline in sequential order the major areas of the Statement of Qualifications, including enclosures. All pages must be consecutively numbered and correspond to the Table of Contents.

TAB 2: Letter of Interest

Provide a Letter of Interest indicating your firm's commitment to the project. Letter of interest shall include which area(s) the Proposer is interested in being considered for. The shall also include the following:

- a. Size of firm
- b. Range of activities
- c. Firms strength and stability
- d. Location of firm
- e. Summary of abilities and experience of the firms' professional personnel (Standard Form 330 - Attached)
- f. Summary of past performance of the firm on similar projects (Standard Form 330 - Attached)
- g. Recent, current, and projected workload of the firm, and availability and access to the firms' top level management personnel.
- h. Identification of firms, single, professionally licensed point of contact for all City projects.

TAB 3: Standard Form 330

*Proposers shall complete both Part I and II of the Standard Form 330 so that the City can obtain adequate information for this RFQ. Proposer's shall use the attached Standard Form 330 or visit <https://www.qsa.gov/forms-library/architect-engineer-qualifications> for a PDF fillable version of this form.*

Indicate the firm's number of years of experience in providing Engineering / Architect and or professional services. Indicate Business structure (Corp., Partnership, etc.) with proof; Firm should be established as a legal entity in the State of Florida; Company address, phone number, E-Mail address, web site, contact person(s), etc.; Relative size of the firm, including management, technical and support staff; Licenses and any other pertinent information shall be submitted. Please include the firm's proximity to the City of Cooper City, as well as the number of employees or staff members. TAB 4: Project Team/Manager's Experience (Form - Exhibit B) Proposers must list the members of the project team per discipline. Provide a list of the personnel to be used on each project and their qualifications. A brief resume including education, experience, licenses and any other pertinent information shall be included for each team member, for each project, to be assigned to each project. Provide any other documentation that demonstrates their ability to satisfy all of the minimum qualification requirements. Provide a summary of the experience and qualifications of the individual(s) who will be selected to serve as project managers for the City. Individuals MUST have a minimum of five (5) years' experience in architectural, engineering, or landscape architectural services, and have served as project manager/construction manager on similar projects on a minimum of three previous occasions.

TAB 4: Approach to Handling of Potential Projects

Describe your proposed approach to the project(s) that may be assigned to your firm. As part of the project approach, the firm shall propose a scheduling methodology (timeline) for effectively managing and executing the

work in the optimum time. Provide the methodology or approach to formulating an "Opinion of Project Cost" Also provide information on your firm's current workload and how the potential project(s) will fit into your workload. Describe available facilities, technological capabilities and other available resources you offer for the potential project(s). Provide in concise narrative form, your understanding of the City's needs, goals and objectives as they relate to the potential project(s), and your overall approach to accomplishing the project(s). Give an overview on your proposed vision, ideas and methodology.

TAB 5: References

Provide a minimum of five (5) references, for each service that the Proposer's wishes to be considered for. Each reference shall be able to confirm the Proposer's experience and performance within the last five (5) years. References shall be from clients of similar size and complexity to Cooper City or larger municipalities, for which the Proposer has performed scopes similar those listed in this RFP. Proposers shall include the following information for each reference:

- Client Name, address, contact person, email address and phone number
- Description of service(s)/work performed
- Year the project was completed
- Total of fee(s) paid to firm
- Total cost of the construction, both estimated and actual.

TAB 6: Attached Forms

- Proposal Certification Form
- Sworn Statement regarding Public Entities Crimes
- Non-Collusion Form
- Scrutinized Companies Certification Form
- E-verify Certification Form
- Conflict of Interest Disclosure Form

6. Exhibit B has been replaced by Standard Form 330.
7. Domestic Partnership Certification Form has been deleted from this solicitation and not required to be submitted.
8. Article 6, Indemnification of the Sample Continuing Professional Services Agreement has been replaced with the following:

Article 6

INDEMNIFICATION

6.1 Pursuant to Florida Statutes 725.08 and notwithstanding the provisions of Florida Statutes 725.06, the CONSULTANT shall indemnify and hold harmless the CITY, and its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONSULTANT and other persons employed or utilized by the CONSULTANT in the performance of this Agreement.

To the extent this indemnification clause or any other indemnification clause in this Agreement does not comply with Chapter 725, Florida Statutes, as may be amended, this provision and all aspects of the Contract Documents shall hereby be interpreted as the parties' intention for the indemnification clauses and Contract Documents to comply with Chapter 725, Florida Statutes, as may be amended. This Section shall survive expiration or termination of this Agreement.

B. QUESTION AND ANSWERS:

*The following questions were received during the Question-and-Answer period.*

*Question 1: Is the SF330 form required for this proposal response? It is included in the downloads on Demandstar, but not mentioned anywhere in the RFQ, including in what section to include it. Information requested in designated tabs including qualifications of firm, project team resumes, and references will all be duplicated information if the SF330 is required.*

Answer 1: Yes. Please refer to Section A.5. of this addendum.

*Question 2: I noticed that the City added an SF-330 document to the procurement site. The RFQ does not require an SF-330 to be submitted. Are we allowed to submit our information following the format requested in the RFQ – or do we need to include an SF-330 also?*

Answer 2: No, Proposers shall submit Standard Form 330 with their submittal. Please refer to Section A.5. of this addendum.

---

*Question 3: I'm emailing in regard to the above referenced RFQ. On 11/27 SF 330 forms were uploaded to Demand Star with no explanation in the RFQ or addendum. Do we need to include these in our submittal? If so, is there a preferred tab?*

Answer 3: Proposers shall include Standard Form 330 with their submittal. Please refer to Section A.5. of this addendum to determine what information should be included on each Tab.

---

*Question 4: I am following up to see if the clarification on Standard Form 330, added to the submission, will be answered in the Addendum scheduled for Friday, December 6. This inquiry is based on the question from my previous email below. Thank you.*

Answer 4: Proposers shall include Standard Form 330 with their submittal. Please refer to Section A.5. of this addendum to determine what information should be included on each Tab.

---

*Question 5: We have encountered a query regarding the Domestic Partnership Certification Form as we finalize our submission for printing. The first four checkbox items refer to Section 2-197.1 of the City of Cooper City's Code of Ordinances. However, when we searched the City's Municipal Code of Ordinances & Charter website, Section 2-197 is marked as "Reserved" and lacks a definition (please see the attached document). Without knowing what Section 2-197.1 entails, we are unsure which items to select for our firm. Could you please provide the definition for Section 2-197.1?*

Answer 5: The Domestic Partnership Certification Form has been removed from this solicitation. Please refer to Section A.7. of this addendum.

---

*Question 6: Regarding Addendum 3, Clarification: In which section of the submittal does the City require the SF-330 to be included? It is not listed in the original RFQ. As per the RFQ, firm information/background, org chart, staff resumes, and key projects are already included. Are we providing a separate tab with the entire SF-330 in one spot?*

Answer 6: Proposers shall include Standard Form 330 with their submittal. Please refer to Section A.5. of this addendum to determine what information should be included on each Tab.

---

*Question 7: Respectfully, we request clarification re: addendum #3. Question/answer #9 indicates that submissions will be permitted via Demandstar: However, the e-bidding function does not show that it is active: Please confirm whether electronic responses are accepted. If so, please advise if the e-bid feature will be activated before the submission deadline.*

Answer 7: Yes, electronic responses shall be accepted. The e-bid feature has been activated.

---

*Question 8: Regarding the above-referenced RFQ, the latest addendum (#3) states that Form 330 must also be submitted. Could you please clarify in which section of the RFQ these forms should be included?*

Answer 8: Proposers shall include Standard Form 330 with their submittal. Please refer to Section A.5. of this addendum to determine what information should be included on each Tab.

*Question 9: Question 16 of Addendum No. 3 asks about recreating the Exhibit B form. The answer to the question doesn't address Exhibit B and instead references completing Form 330 as required by the RFQ. I am not coming across anything in the original RFQ about including an SF330 with the submission. Can you please confirm if we are to include an SF330 and if yes, which tab should it be included in?*

Answer 9: Proposers shall include Standard Form 330 with their submittal. Please refer to Section A.5. of this addendum to determine what information should be included on each Tab.

---

*Question 10: The answer to question 9 of Addendum No. 3 allows for submitting through DemandStar only, but there is no option to submit an e-bid. Will the City be enabling the e-bid feature so we can submit electronically?*

Answer 10: Yes, electronic responses shall be accepted. The e-bid feature has been activated.

---

*Question 11: With reference to the above RFQ and Addendum 3, Item 9. Please confirm that bids will be received online through Demandstar. If that is the case, please let us know when Demandstar will be updated to be able to receive the uploaded bids. At this time there is no ability to upload to Demandstar. Also, What section do you want SF330 to be placed.*

Answer 11: Yes, electronic responses shall be accepted. The e-bid feature has been activated. Section A.5. of this Addendum details how Standard Form 330 shall be submitted.

---

*Question 12: Answer to No. 1 of Addendum No. 3 states: 5 references are sufficient. Answer to Question No. 2 states "per each area your firm desires". Which would the City prefer: 5 total references or 5 per category?*

Answer 12: TAB 5: References, has been replaced to require Proposers to provide a minimum of five (5) references, for each service that the Proposer's wishes to be considered for. Please refer to Section A.5. of this addendum to determine what information should be included on each Tab.

---

*Question 13: Answer to No. 3 states: the City desires only the Prime Consultant. Answer to No. 15 & 17 indicates that subs should be on the team. Should the proposer add subconsultants to the team?*

Answer 13: If a Proposer intends to utilize sub-consultant(s), then the sub-consultant shall be added to the team.

---

*Question 14: We are still unsure what to do with reference to Question 16. Is it ok to recreate the 2<sup>nd</sup> page to Exhibit B since the form is difficult to manipulate?*

Answer 14: Proposer's shall submit Standard Form (SF) 330.

---

*Question 15: Question 9: the City responded "yes" to submit submittal on Demandstar. The RFQ states on Page 10, No. 1.21 to deliver proposals to the City. Which does the City prefer, to submit on Demandstar or deliver a hard copy to the City? There is not an option to submit on DemandStar.*

Answer 15: DemandStar has been updated to allow for electronic submissions. Method of submittal is at the discretion of the Proposer.

---

*Question 16: Under which Tab would the City prefer we include the SF330?*

Question 16: Please refer to Section A.5. of this addendum to determine how to include Standard Form 330.

---

*Question 17: In addendum 3, question #9 of the above referenced solicitation someone asked if we were able to submit the RFQ through Demandstar only and the response was yes. The RFQ indicates printed hard copies would be required to be brought to City Hall and there isn't an option on Demandstar to submit anything. I just wanted to confirm whether a digital submittal is an option or if it is required to submit only hard copies?*

Answer 17: DemandStar has been updated to allow for electronic submissions. The method of submittal is at the discretion of the Proposer.

---

*Question 18: Will you clarify which portions of the proposal need to be in SF 330 format? For example, what exactly is a "key person"? Do you want all of the proposed team's resumes to be in SF 330 format instead of the format we usually use, or in addition to the resumes we usually use? Or do you just want the project manager's resume to be in SF 330 format?*

Answer 18: Section A.5. of this addendum details how to include Standard Form 330. Key Personnel are employees of the Proposer considered to be essential to the performance of execution of the resultant scope of work.

---

*Question 19: The first four checkbox items refer to Section 2-197.1 of the City of Cooper City's Code of Ordinances. However, when we searched the City's Municipal Code of Ordinances & Charter website, Section 2-197 is marked as "Reserved" and it does not provide a description or definition for what it is (please see the attached Word document). Without knowing what Section 2-197.1 pertains to, we are unsure which items to select for our firm on the Domestic Partnership Certification Form in our qualifications submittal. Can you please provide the definition for Section 2-197.1?*

Answer 19: The Domestic Partnership Certification Form has been removed from this solicitation. Please refer to Section A.7. of this addendum.

---

*Question 20: Can the City provide a list of previous incumbents/ previously awarded firms?*

Answer 20: CCNA services were previously awarded under RFQ 2020-1-UTL. The solicitation was awarded to the following firms:  
Chen Moore and Associates, Inc. | Hazen & Sawyer, P.C. | The Corradino Group, Inc.

---

*Question 21: Is a hardcopy proposal required or will the City accept a electronic submittal through Demandstar?*

Answer 21: The City will accept electronic submittals. DemandStar has been updated to allow for electronic submissions.

---

*Question 22: Is there a page limit for the Statement of Qualifications Package?*

Answer 22: No.

---

*Question 23: Does the City have any small business preference?*

Answer 23: No, unfortunately, Cooper City does not have a small business preference.

---

*Question 24: Does the City have any local business preference?*

Answer 24: No, unfortunately, Cooper City does not have a local business preference; however If all bids received are for the same total amount or unit price, quality and service being equal, the contract shall be awarded based on the following criteria to be

considered in the following order of priority: (a) A local bidder with a primary business location within the City of Cooper City. (b) A bidder with a primary business location within Broward, Miami- Dade or Palm Beach Counties. (c) A bidder with a primary business location within the State of Florida.

---

*Question 25: A standard form 330 was added as a document on Demandstar, is the SF 330 expected to be filled out by proposers, if so, under which Tab would the City prefer it to be included?*

Answer 25: Proposer's shall submit Standard Form (SF) 330. Section A.3. of this addendum details how to include Standard Form 330.

---

*Question 26: As currently worded, we believe that the indemnity provisions in Section 1.15 on page 8, and Article 6.1 on page 56, of the RFQ does not comply with FL Statute 725.08 and is unenforceable. Will you agree to reword the indemnification to conform with the statute? Suggested language per FL Statute 725.08: "The design professional shall indemnify and hold harmless the agency, and its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the design professional and other persons employed or utilized by the design professional in the performance of the contract."*

Answer 26: Both Section 1.15 and Article 6.1 of Draft Agreement have been revised. Please see Section A.5. of this Addendum.

---

*Question 27: A sample SF330 was posted on November 27th, could you please clarify if this was posted solely for informational purposes? If it is intended to be an addition to the submittal, may we provide the resume and project information in our own format, as long as it includes the same details as the attached SF330?*

Answer 27: Proposer's shall submit Standard Form (SF) 330. Proposer's shall follow the instructions listed within Standard Form 330.

---

*Question 28: Will you accept the previously requested brief resumes instead of SF-330, which was just instructed on 11/27/24*

Answer 28: No, Proposer's shall submit Standard Form (SF) 330. Section A.5. of this addendum details how to include Standard Form 330.

---

*Question 29: Please explain/clarify the purpose of Addendum #2. Does the City prefer that we use the SF-330 form for the proposal submittal?*

Answer 29: The purpose of Addendum # 2 was to extend the proposal due date. Proposer's shall submit Standard Form (SF) 330. Section A.5. of this addendum details how to include Standard Form 330.

---

*Question 30: Will Section 2.4 Statement of Qualifications Content be revised to include the requirement for the SF330?*

Answer 30: Section 2.4 has been revised. Section A.5. of this addendum details how to include Standard Form 330.

---

*Question 31: An addendum for the City of Cooper City called (Standard Form 330-Architect Engineering Qualifications) was just posted: does a full SF 330 also need to be apart of the submittal along with the original resumes requested?*

Answer 31: Section A.5. of this addendum details how to include Standard Form 330.

---

*Question 32: According to Addendum 3, Question 9, it states that proposals can be submitted via DemandStar only. However, we*

City of Cooper City, Florida  
RFQ 2024-1-PW,  
Continuing Professional Consulting Services (CCNA)  
Addendum #5

*are currently unable to see an option to submit on DemandStar. Will this feature be enabled to accept e-submissions?*

Answer 32: DemandStar has been updated to allow for electronic submissions. The method of submittal is at the discretion of the Proposer.

---

**Acknowledgment of Addendum #5**

Bidders hereby acknowledges that he/she has received and understands the information contained in this Addendum. Bidders further acknowledges that this page **MUST** be signed and returned with its Bid, along with any revised Bid Forms, if applicable.

## Addendum #6

(Issued Monday, December 30, 2024)

### RFQ 2024-1-PW, Continuing Professional Consulting Services (CCNA)

*This addendum becomes a part of the subject solicitation.*

#### A. CHANGES TO THE SOLICITATION:

*Please note the following changes to the Solicitation:*

1. **Proposal Due Date:** Extended to Tuesday, January 21, 2025 at 3:00 PM EST.
2. **Question and Answer Due Date:** Extended to Friday, January 3, 2025 at 12:00 PM EST.
3. **Section 2.4, Statement of Qualifications Content has been replaced with the following:**

#### 2.4 Statement of Qualifications Content:

Consultants interested in performing these professional services must identify which area(s) the firm(s) are interested in being considered. Consultants must display considerable relevant experience with the specified type of work (as listed on Exhibit "A") and should emphasize both the experience and capability of particular personnel who will actually perform the work. In order to ensure a uniform review process and to obtain the maximum degree of comparability, it is required that the Statements of Qualifications be organized in the manner specified. The following information and documents are required to be provided with Proposer's Statement of Qualifications. Failure to do so may deem your Statement of Qualifications non-responsive.

#### *TAB 1: Table of Contents*

The table of contents should outline in sequential order the major areas of the Statement of Qualifications, including enclosures. All pages must be consecutively numbered and correspond to the Table of Contents.

#### *TAB 2: Letter of Interest*

Provide a Letter of Interest indicating your firm's commitment to the project. Letter of interest shall include which area(s) the Proposer is interested in being considered for. The letter shall also include the following:

- a. Size of firm, to include the number of employees or staff members (including management, technical and support staff);
- b. Range of activities
- c. Firms strength and stability
- d. Location of firm; proximity to the City of Cooper City
- e. Summary of abilities and experience of the firms' professional personnel
- f. Summary of past performance of the firm on similar projects
- g. Indicate the firm's number of years of experience in providing Engineering / Architect and or professional services and Business structure (Corp., Partnership, etc.) with proof;
- h. Recent, current, and projected workload of the firm, and availability and access to the firms' top level management personnel.

- i. Identification of firms, single, professionally licensed point of contact for all City projects.

**TAB 3: Exhibit A/Standard Form 330**

*Proposers shall complete both Part I and II of the Standard Form 330 so that the City can obtain adequate information for this RFQ. Proposer's shall use the attached Standard Form 330 or visit <https://www.gsa.gov/forms-library/architect-engineer-qualifications> for a PDF fillable version of this form. Tab 3 must include a list of the personnel to be used on each project and their qualifications. A brief resume including education, experience, licenses and any other pertinent information (such as company address, phone number, E-Mail address, web site, contact person(s), etc.) shall be included for each team member, for each project, to be assigned to each project. Provide any other documentation that demonstrates their ability to satisfy all of the minimum qualification requirements. Provide a summary of the experience and qualifications of the individual(s) who will be selected to serve as project managers for the City. Individuals MUST have a minimum of five (5) years' experience in architectural, engineering, or landscape architectural services, and have served as project manager/construction manager on similar projects on a minimum of three previous occasions. All additional information shall be included in Section H. Additional Information of SF 330.*

**TAB 4: Professional Registration Certificates**

A reproduction of the firm's current professional registration certificate(s) is required for the services offered and must be in the name of the firm offering said services (architecture, engineering, general contractor or other certification required). Firms must be properly registered at the time of application to practice their profession in the State of Florida and with the appropriate State Board governing the services offered. Firm should be established as a legal entity in the State of Florida.

**TAB 5: Approach to Handling of Potential Projects**

Describe your proposed approach to the project(s) that may be assigned to your firm. As part of the project approach, the firm shall propose a scheduling methodology (timeline) for effectively managing and executing the work in the optimum time. Provide the methodology or approach to formulating an "Opinion of Project Cost" Also provide information on your firm's current workload and how the potential project(s) will fit into your workload. Describe available facilities, technological capabilities and other available resources you offer for the potential project(s). Provide in concise narrative form, your understanding of the City's needs, goals and objectives as they relate to the potential project(s), and your overall approach to accomplishing the project(s). Give an overview on your proposed vision, ideas and methodology.

**TAB 6: Exhibit A/References**

*Proposers shall complete Exhibit A – Services to be Considered For and provide a minimum of five (5) references, for each discipline that the Proposer's wishes to be considered for. Each reference shall be able to confirm the Proposer's experience and performance within the last five (5) years. References shall be from clients of similar size and complexity to Cooper City or larger municipalities, for which the Proposer has performed scopes similar those listed in this RFP. Proposers shall include the following information for each reference:*

- Client Name, address, contact person, email address and phone number
- Description of service(s)/work performed
- Year the project was completed
- Total of fee(s) paid to firm
- Total cost of the construction, both estimated and actual.

**TAB 7: Attached Forms**

- Proposal Certification Form
- Sworn Statement regarding Public Entities Crimes
- Non-Collusion Form
- Scrutinized Companies Certification Form
- E-verify Certification Form
- Conflict of Interest Disclosure Form

B. QUESTION AND ANSWERS:

*The following questions were received during the Question-and-Answer period.*

*Question 1: Do we need to include in our response package a copy of our Certificate of Insurance or after notification of award?*

Answer 1: The successful proposer will furnish to the City, Certificates of Insurance or endorsements evidencing the insurance coverage specified above within seven (7) days after notification of an award. The required Certificates of Insurance or endorsements will not only name the types of policies continued but will also refer specifically to this contract and will state that such insurance is as required by this contract. Refer to Section 16. Proof of Insurance Coverage

---

*Question 2: Do we need to include/provide in our response package a statement and/or documentation concerned with the performance of the following listed below, if applicable? If so, what tab should we use to insert this information/statement? (bankruptcy, mortgage foreclosures; previous or pending litigation and/or restrictions, restraints or impositions imposed by federal or state regulatory agencies such as Federal Housing Administration, Securities and Exchange Commission, etc.)*

Answer 2: The City will have the right to investigate the financial condition, experience record, and equipment of each proposer and determine to its satisfaction the competency of each to undertake the project. The proposer will submit documentation concerned with the past performance and integrity of a contractor/developer. Accordingly, proposer should provide information as to any of the following: (a) bankruptcy, (b) mortgage foreclosures; (c) previous or pending litigation and (d) restrictions, restraints or impositions imposed by federal or state regulatory agencies such as Federal Housing Administration, Securities and Exchange Commission, etc., that apply to the proposer/contractor/developer. Refer to Section 1.7 Proposer's Experience Record.

---

*Question 3: Since the City extended the "Q&A" deadline, can you revise the proposal due date, again, to sometime after January 6th, 2025? Due to the holidays, many offices are closed or short-staffed the last week of December.*

Answer 3: Proposal due date has been extended to Tuesday, January 21, 2025 at 3:00 PM EST.

---

*Question 4. Addendum #3, Question #2: Under what section does the City prefer the Proposers to include their project experience (besides the reference section)? CITY OF COOPER CITY RESPONSE / ANSWER 2: TAB 6 References Please provide the details of "Project Experience" per each area your firm desires to be considered the prime consultant. COMMENT/QUESTION: We're an architectural firm, so TAB 6 will only include projects/services listed in "Exhibit A – Architecture", correct? Can these projects be the same and/or different than those found in the SF330 form? Also, can you clarify what is meant by "structural" listed in "Exhibit A – Architecture"? What type of project experience are you looking for/referring to? Example?*

Answer 4: Correct. Yes those projects can be the same. Structural as it relates to Exhibit A - Architecture, are structural design services limited of Architects licensure. These types of projects may include design of a multi-floor habitable structure, docks or seawalls, slabs, or buildings with reinforced concrete, wood or plastics design and construction.

---

*Question 5: Addendum #3, Question 3: .... "is the City looking for us to (a) ONLY submit for services specific to each Exhibit A in which we will be prime and omit any potentially needed sub-consultant? Alternatively (b) include sub-consultants that we anticipate would be needed, even if they have their own dedicated Exhibit A? (For example: How do we address Civil Engineering as prime and Geotechnical Engineering as a sub-consultant?) CITY OF COOPER CITY RESPONSE / ANSWER 3: The City desires only the prime consultant, as identified in Exhibit A. COMMENT/QUESTION: As architects, our specialty includes studies, design, plan review, and cost estimating among others. These tasks can be achieved by our firm alone, but for many other projects, additional disciplines are required. How do we list/mention and/or where do we include subconsultant information in our response package?*

Answer 5: Subconsultants shall be listed on Standard Form 330.

*Question 6: Addendum #3, Question 12: Can we extend Exhibit B to include all project team members and add a column for "Other"? CITY OF COOPER CITY RESPONSE / ANSWER 12: Yes COMMENT/QUESTION: Is "Exhibit B" Form being replaced entirely by SF330 packet (Parts I +II) or is it a separate form/requirement in addition to the SF330 packet (Parts I +II)?*

Answer 6: Exhibit B Form has been replaced by Standard Form 330. Please see Section A. of Addendum No. 6.

---

*Question 7: Addendum #3, Question 14: If a firm is pursuing continuing consulting services for architectural services, should that firm include subconsultants/services such as MEP, Structural etc.? CITY OF COOPER CITY RESPONSE / ANSWER 14: Yes, and if you change these, the Contract eventually executed should require you to update any of these selections and request approval by City before using any different sub consultants. COMMENT/QUESTION: As architects, our specialty includes studies, design, plan review, and cost estimating among others. These tasks can be achieved by our firm alone, but for many other projects, additional disciplines are required. How do we list/mention and/or where do we include subconsultant information in our response package?*

Answer 7: Subconsultants shall be listed on Standard Form 330.

---

*Question 8: Addendum #3, Question 15: We would like to know if the City wants subconsultants included in the proposal submittal. If subconsultants as to be included should they fill out the Exhibits A & B? CITY OF COOPER CITY RESPONSE / ANSWER 15: No, those sub consultants would not necessarily need to complete the Exhibit A & B inquiries. We can evaluate them through the proposal review process. COMMENT/QUESTION: please clarify on how the city will "evaluate subconsultants through the proposal review process". The answer to Question 14 states that an architectural firm should include subconsultants/services such as MEP, Structural, etc. however, the subconsultant will not be part of Exhibits A & B, so are subconsultants going to be included in the SF330 packet (Parts I +II), then? Or is a list all that is needed?*

Answer 8: Subconsultants shall be listed on Standard Form 330.

---

*Question 9: Addendum #3, Question 16: In regard to the above-referenced project, is it acceptable to recreate the Exhibit B form (page 2) with the table that lists the project team? It is difficult to fit the information on the form provided with the RFQ. : CITY OF COOPER CITY RESPONSE / ANSWER 16: Yes, please complete Form 330, Parts I and II, as required by the RFQ. The form has been uploaded to Demandstar as an amendment. COMMENT/QUESTION: you stated above that the SF330 "is required by the RFQ". Where else in the RFQ is form SF330 mentioned? In 2020, SF300 was part of "Tab 2". This year (2024), there is no mention of an SF 330 form other than in your response to Question #16 above. Is TAB #4 going to include Exhibit B Form and the SF330 packet (Parts I +II) or is Exhibit B being replaced entirely by SF330 packet (Parts I +II)?*

Answer 9: Please refer to Section A. of Addendum No. 6.

---

*Question 10: Addendum #3, Question 17: Is the expectation of the City that each firm submits its qualifications as a sole entity and not as a team with subconsultants? CITY OF COOPER CITY RESPONSE / ANSWER 17: Yes. Each consultant should submit its own qualifications and list its sub consultants to be used, not as a team of consultants. The City desires specialized consultants that can self-perform a substantial amount of work included in the project but acknowledges some sub consultants may be needed for specific needs in portions of any project undertaken. COMMENT/QUESTION: Where should we include the list of sub consultants to be used? are subconsultants going to be included in the SF330 packet (Parts I +II)?*

Answer 10: Subconsultants shall be listed on Standard Form 330.

---

*Question 11: Regarding Addendum 5, can you please clarify the following:*

- *Item 5 on page 2 revises the proposal content from the original RFQ – will there be an additional deadline extension to revise our proposals?*

City of Cooper City, Florida  
RFQ 2024-1-PW,  
Continuing Professional Consulting Services (CCNA)  
Addendum #6

- *The new content shows as follows:*
  - TAB 1: Table of Contents
  - TAB 2: Letter of Interest (SF 330 information is requested in this section)
  - TAB 3: Standard Form 330 (do you want the SF 330 twice?)
  - TAB 4: Project Team/Manager's Experience (Form - Exhibit B) – (elsewhere in this addendum it is noted that Exhibit B is replaced by SF 330 – do we include Exhibit B or not?)
  - TAB 4: Approach to Handling of Potential Projects (there are two Tab 4s – do we change this to Tab 5 and revise the other tab numbers accordingly?)
  - In which Tab should we include Exhibit A?

Answer 11: Proposal due date has been extended to *Tuesday, January 21, 2025 at 3:00 PM EST*. SF 330 replaced Exhibit B. The TABs have been updated; please see Section A. of Addendum No. 6. Exhibit A should be submitted under TAB 6.

---

*Question 12: In regards to the Addendum #5 which was just issued for the above noted RFQ, I have the following questions. Under section A.5 on page 2, the Standard Form 330 is called out for under Tab #2 (items e and f) and also at the beginning of Tab #3. In addition, under the first noted Tab #4 (mid paragraph in the middle of page 2), Exhibit B is still called out which according to section A.6 on page 3, should be replaced with the SF330 form. So, where in fact do you want the SF 330 included?*

Answer 12: Please see Section A. of Addendum No. 6.

---

*Question 13: In regards to the Addendum #5 which was just issued for the above noted RFQ, I have the following questions. Also under section A.5 on page 2, there appear to be multiple Tab #4 sections now listed (mid paragraph in the middle and also at the bottom of page 2). Is this correct or if not, how should these Tabs be numbered?*

Answer 13: Please see Section A. of Addendum No. 6.

---

*Question 14: In regards to the Addendum #5 which was just issued for the above noted RFQ, I have the following questions. Under section A.5 on page 3, the Tab #5 References now states that a minimum of 5 references shall be provided for each service that the Proposer wishes to be considered for. So for example, a proposer who wishes to be considered for providing the 5 services listed under the Transportation discipline along with the 5 services listed under the Water/Wastewater/Stormwater discipline would need to provide 50 references (i.e. 10 services x 5 references per service). Would this be correct?*

Answer 14: No, 5 references per discipline. See Section A. of Addendum No. 6.

---

*Question 15: Where in our submittal should we include Exhibit A?*

Answer 15: Exhibit A should be included under TAB 6. See Section A. of Addendum No. 6.

---

*Question 16: Could you please confirm the term "References" refers to providing five project examples for each service, rather than reference letters from other clients?*

Answer 16: Provide a minimum of five (5) references, for each discipline that the Proposer's wishes to be considered for. Each reference shall be able to confirm the Proposer's experience and performance within the last five (5) years. References shall be from clients of similar size and complexity to Cooper City or larger municipalities, for which the Proposer has performed scopes similar those listed in this RFP. Proposers shall include the following information for each reference:

- Client Name, address, contact person, email address and phone number
- Description of service(s)/work performed
- Year the project was completed
- Total of fee(s) paid to firm
- Total cost of the construction, both estimated and actual.

RFQ 2024-1-PW,  
Continuing Professional Consulting Services (CCNA)  
Addendum #6

*Question 17: In the References TAB, can one project cover more than one service? For example, one project covering both Civil and Landscape Architecture*

Answer 17: Yes, just ensure that reference highlights each discipline in which it will cover.

*Question 18: Addendum #5 Response 4. Kept due date of December 13? and by the City Clerk's Office, City of Cooper City, 9090 SW 50th Place, Cooper City, Florida until 3:00 PM, Friday, December 13, 2024.*

Answer 18: Section A. of Addendum No. 6 extended the Proposal Due Date to Monday, January 20, 2025 at 3:00 PM EST.

*Question 19: On page 2 of 4, You have Tab 4 listed as Project Team/Manager's experience and then you have another Tab 4 of Approach to Handling the Potential Projects?*

*TAB 4: Project Team/Manager's Experience (Form - Exhibit B) Proposers*

*TAB 4: Approach to Handling of Potential Projects*

Answer 19: The TABs have been updated. Please see Section A. of Addendum No. 6.

*Question 20: On Page 2 of 4, you request licenses in Tab 3 and also in the first Tab 4. Where would you like the licenses placed?*

Answer 20: The TABs have been updated. Please see Section A. of Addendum No. 6.

*Question 21: Answer 6 states Exhibit B has been replaced with SF-330s. However, in your first Tab 4, you request Exhibit B Page 2 of 4 (really 2 of 8). Do you want Exhibit B or not and if not what do you want under Tab 4. Project Team?*

*TAB 4: Project Team/Manager's Experience (Form - Exhibit B) Proposers must list the members of the project team per discipline. Provide a list of the personnel to be used on each project.*

Answer 21: The TABs have been updated. Please see Section A. of Addendum No. 6. Project team shall be input on SF 330.

**Acknowledgment of Addendum #6**

Bidders hereby acknowledges that he/she has received and understands the information contained in this Addendum. Bidders further acknowledges that this page **MUST** be signed and returned with its Bid, along with any revised Bid Forms, if applicable.

**Addendum #7**

(Issued Friday, January 3, 2025)

**RFQ 2024-1-PW, Continuing Professional Consulting Services (CCNA)**

*This addendum becomes a part of the subject solicitation.*

**A. CHANGES TO THE SOLICITATION:**

*Please note the following changes to the Solicitation:*

1. **Section 2.4, Statement of Qualifications Content has been replaced with the following:**

**2.4 Statement of Qualifications Content:**

Consultants interested in performing these professional services must identify which area(s) the firm(s) are interested in being considered. Consultants must display considerable relevant experience with the specified type of work (as listed on Exhibit "A") and should emphasize both the experience and capability of particular personnel who will actually perform the work. In order to ensure a uniform review process and to obtain the maximum degree of comparability, it is required that the Statements of Qualifications be organized in the manner specified. The following information and documents are required to be provided with Proposer's Statement of Qualifications. Failure to do so may deem your Statement of Qualifications non-responsive.

***TAB 1: Table of Contents***

The table of contents should outline in sequential order the major areas of the Statement of Qualifications, including enclosures. All pages must be consecutively numbered and correspond to the Table of Contents.

***TAB 2: Letter of Interest***

Provide a Letter of Interest indicating your firm's commitment to the project. Letter of interest shall include which area(s) the Proposer is interested in being considered for. The letter shall also include the following:

- a. Size of firm, to include the number of employees or staff members (including management, technical and support staff);
- b. Range of activities
- c. Firms strength and stability
- d. Location of firm; proximity to the City of Cooper City
- e. Summary of abilities and experience of the firms' professional personnel
- f. Summary of past performance of the firm on similar projects
- g. Indicate the firm's number of years of experience in providing Engineering / Architect and or professional services and Business structure (Corp., Partnership, etc.) with proof;
- h. Recent, current, and projected workload of the firm, and availability and access to the firms' top level management personnel.
- i. Identification of firms, single, professionally licensed point of contact for all City projects.

Addendum #7

### TAB 3: Standard Form 330

*Proposers shall complete* both Part I and II of the Standard Form 330 so that the City can obtain adequate information for this RFQ. Proposer's shall use *the attached Standard Form 330 or visit <https://www.gsa.gov/forms-library/architect-engineer-qualifications> for a PDF fillable version of this form.* Tab 3 must include a list of the personnel to be used on each project and their qualifications. A brief resume including education, experience, licenses and any other pertinent information (such as company address, phone number, E-Mail address, web site, contact person(s), etc.) shall be included for each team member, for each project, to be assigned to each project. Provide any other documentation that demonstrates their ability to satisfy all of the minimum qualification requirements. Provide a summary of the experience and qualifications of the individual(s) who will be selected to serve as project managers for the City. Individuals MUST have a minimum of five (5) years' experience in architectural, engineering, or landscape architectural services, and have served as project manager/construction manager on similar projects on a minimum of three previous occasions. All additional information shall be included in Section H. Additional Information of SF 330.

### TAB 4: Professional Registration Certificates

A reproduction of the firm's current professional registration certificate(s) is required for the services offered and must be in the name of the firm offering said services (architecture, engineering, general contractor or other certification required). Firms must be properly registered at the time of application to practice their profession in the State of Florida and with the appropriate State Board governing the services offered. Firm should be established as a legal entity in the State of Florida.

### TAB 5: Approach to Handling of Potential Projects

Describe your proposed approach to the project(s) that may be assigned to your firm. As part of the project approach, the firm shall propose a scheduling methodology (timeline) for effectively managing and executing the work in the optimum time. Provide the methodology or approach to formulating an "Opinion of Project Cost" Also provide information on your firm's current workload and how the potential project(s) will fit into your workload. Describe available facilities, technological capabilities and other available resources you offer for the potential project(s). Provide in concise narrative form, your understanding of the City's needs, goals and objectives as they relate to the potential project(s), and your overall approach to accomplishing the project(s). Give an overview on your proposed vision, ideas and methodology.

### TAB 6: Exhibit A/References

*Proposers shall complete Exhibit A – Services to be Considered For and provide* a minimum of five (5) references, for each discipline that the Proposer's wishes to be considered for. Each reference shall be able to confirm the Proposer's experience and performance within the last five (5) years. References shall be from clients of similar size and complexity to Cooper City or larger municipalities, for which the Proposer has performed scopes similar those listed in this RFP. Proposers shall include the following information for each reference:

- Client Name, address, contact person, email address and phone number
- Description of service(s)/work performed
- Year the project was completed
- Total of fee(s) paid to firm
- Total cost of the construction, both estimated and actual.

### TAB 7: Attached Forms

- Proposal Certification Form
- Sworn Statement regarding Public Entities Crimes
- Non-Collusion Form
- Scrutinized Companies Certification Form
- E-verify Certification Form
- Conflict of Interest Disclosure Form
- Acknowledgement of Addendum(s)

Addendum #7

**B. QUESTION AND ANSWERS:**

*The following questions were received during the Question-and-Answer period.*

*Question 1: Would you like us to include the signed addendums under the forms section?*

Answer 1: The signed addendums should be included in Tab 7.

*Question 2: On Page 2, Tab 3 includes Exhibit A and then Tab 6 includes Exhibit A – Do you want this in both places?*

Answer 2: Exhibit A has been removed from Tab 3. Please see Section A. of Addendum No. 7.

*Question 3: Due date is January 21, 2025 – on Question 18 it refers to January 20? Please confirm Question 18: Addendum #5 Response 4. Kept due date of December 13? and by the City Clerk's Office, City of Cooper City, 9090 SW 50th Place, Cooper City, Florida until 3:00 PM, Friday, December 13, 2024.*

Answer 3: Proposal due date is Tuesday, January 21, 2025 at 3:00 PM EST.

*Question 4. Since Exhibit A is to be included in Tab 6, shouldn't "Exhibit A" be deleted from the title of Tab 3?*

Answer 4: Exhibit A has been removed from Tab 3. Please see Section A. of Addendum No. 7.

**Acknowledgment of Addendum #7**

**Calvin, Giordano & Associates, Inc.**  
A SAFEbuilt Company

*CGA's Headquarters in Fort Lauderdale*

## Qualifications of the Firm

### Executive Summary

Calvin, Giordano & Associates, Inc. (CGA) is pleased to submit a proposal in response to the Request for Qualifications (RFQ #2024-1-PW) for Continuing Professional Consulting Services from the City of Cooper City (the City). CGA is a multidisciplinary firm that specializes in providing a range of professional services, including Civil Engineering, Water/Wastewater/Stormwater Engineering, Irrigation Design, Wetlands Design, Roadway and Highway Design, Transportation & Mobility, Transportation Planning, Landscape Architecture, Construction Engineering and Inspection (CEI), Engineering Plan Review, Surveying & Mapping, Cost Estimating, Grant Administration, Geographic Information System (GIS) to public sector clients throughout Florida. We are optimistic and committed to providing the best possible proposal in response to your solicitation.

### Location of Firm

CGA's headquarters is located at 1800 Eller Drive, Suite 600, Fort Lauderdale, FL 33316. This office is only 10 miles east of Cooper City City Hall, and the majority of the proposed team members (including Project Manager Jenna Martinetti and Professional-in-Charge David Stambaugh) are based in Broward County. Therefore, we are ready, willing, and able to commute to the City as needed to provide services.

### Business Structure

CGA is a legally registered corporation in the State of Florida. In Tab 4, you will find our current DBPR license and Sunbiz License.

## The SAFEbuilt Family of Companies

As part of the SAFEbuilt family of companies, CGA fully embraces SAFEbuilt's core values of Service, Integrity, Improvement, Teamwork, and Respect.

**Service:** We always provide unequalled service levels to our customers, both external and internal.

**Integrity:** We choose to do the right thing every time.

**Improvement:** We strive to continuously improve and understand how we can do better tomorrow.

**Teamwork:** We host and foster an environment where everyone can contribute ideas. We encourage and reward creativity and initiative.

**Respect:** We are respectful in the way we interact with everyone.

These core values embody our approach to working relationships, as well as our philosophy for providing services. Our team stands apart from others by remaining dedicated to a client-centered method based on our core values. Our goal is to help support the City in achieving its goals and priorities. We become a seamless extension of your team, utilizing our mission, vision, and core values to guide our efforts throughout the process. Our goals are perfectly aligned with the goals of the City, and together, we can meet your objectives to invigorate your culture through scalable, sustainable, and cost-effective business practices.

## The SAFEbuilt Family of Brands

## Summary of Proposal

CGA has had the privilege of sporadically serving the City since 2009. We are excited about the possibility of expanding our partnership to include the Continuing Professional Consulting Services laid out in the RFQ, and we are confident that our proposal provides the best solutions available to meet the needs and goals outlined in the solicitation.

Our proposed project manager is **Jenna Martinetti, PE**, and our proposed professional-in-charge is **David Stambaugh, PE, DBIA**. CGA is proposing two subconsultants: Synalovski Romanik Saye for Architecture and Nutting Engineers for Geotechnical.

Our Statement of Qualifications is detailed throughout the proposal. This SOQ is laid out according to the specifications in the RFQ. CGA is especially proud of our proposed team's extensive licensure and esteemed backgrounds.

## CGA's Qualifications as Prime Consultant

### Civil Engineering

The CGA Team is a well-established multi-disciplinary consulting firm and is capable of "tackling" the projects listed in the RFQ. The keys to success of every project will be keeping City staff informed with efficient communication, experienced and responsive/accessible technical staff, and innovative, value-engineering design.

Our similar successful past projects with other municipalities include the following:

- CDBG 42, 47, & 49 for the City of Hallandale Beach
- SW 25th Terris Stormwater Projects
- Hurricane Hardening Upgrades at Dania Beach Fire Station (FEMA HMGP)
- Street Lighting Upgrades on numerous roads in Davie
- NE & SW Stormwater Injection Wells (FEMA HMGP)
- Nova Drive Complete Streets Project (CSLIP)
- Davie Road Phase 1, 2, & 3 (LAP and CSLIP)
- Industrial Way Drainage Retrofit

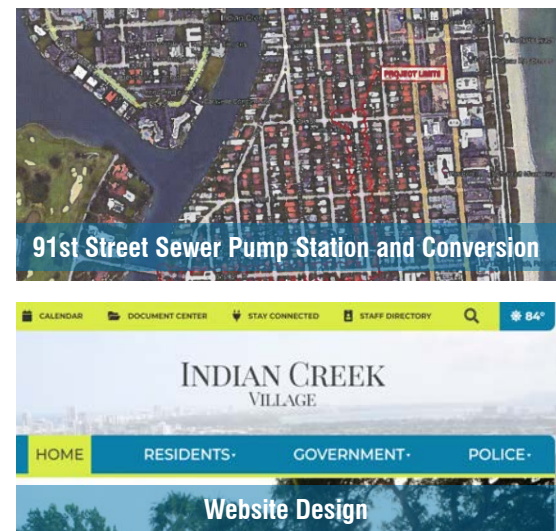

### Water/Wastewater/Stormwater Engineering

Our proposed team offers a wealth of experience in water, wastewater, and stormwater engineering. For example, CGA recently completed a major drainage project that installed a control structure, four (4) 48" flapgates, and an automatic sluice gate that closes to isolate the system when rain and high tides trigger it. Once the gate is closed, a new pump station will turn on and pump stormwater into 17 new pressurized wells.

This project has provided relief to a neighborhood that had no positive discharging ability during high tailwater conditions. CGA completed design and permits for a pump station replacement which replaced an emergency generator to be above FEMA 500-year elevation and utilize an available natural gas source instead of fuel. The pump station will receive new pumps, new electrical controls and equipment, and face lift for the adjacent neighborhood. Whether a minor or major drainage project, a roadway reconstruction project to elevate or protect a road, or a site design project with potential for sustainable materials, the CGA Team recognizes the importance of incorporating sustainability into the project design.

### Transportation and Traffic

CGA's Transportation and Traffic team consists of in-house roadway engineers, traffic engineers, and transportation planning experts who have a history of working together to lead traffic transportation engineering projects and contracts. They will ensure that all of the team members are aligned with the CGA goals and objectives for meeting all deadlines and budgets on all task authorizations. The CGA Team will contribute to the development of smart solutions using the very best engineering judgment with deliverables that will be carefully prepared, reviewed, submitted on time, and within budget.

### **Landscape Architecture**

CGA has garnered a vast amount of experience in conceiving design solutions and following them through to design development and into construction. CGA's team members hold numerous, relevant registrations and certifications, and many of our selected staff have a cross-discipline educational background to support our mission of providing complete and thoroughly articulated projects. Our process employs careful situational analyses, staff and stakeholder involvement, and solid creative work to establish a vision that is both realistic and imaginative.

We provide a broad array of services to meet all of the City's needs. A few of these services include hardscape, greenway, and streetscape design; recreational and park facilities design; municipal landscape code review and inspection services; redevelopment master planning; arborist and vegetation services; and, of course, development of planting plans for various conditions, including parks and open space, roadways and roundabouts, custom bus shelters, decorative hardscape, environmental mitigation, buffer creations, and site planting design.

### **Grant Administration**

CGA staff have extensive experience and success in administering and implementing multiple federal and state grants. We create and apply management systems that work and carefully monitor program effectiveness by closely tracking each activity reports on the City's expenditures work quality, quantity, and cost. Our approach begins with the identification of project priorities and expenditure deadlines.

CGA has experience providing Grant Application writing as well as Grant Administration. We monitor grant compliance throughout the project "life," including appropriate invoicing, grant procedural requirements not to jeopardize any eligibility of grant reimbursement. The complex network of federal and state rules and regulations requires nothing short of diligence, aggressive follow up, troubleshooting, and follow-up with grant agencies. We are pro-active to ensure the appropriate steps are taken before problems arise, not after. This allows for efficient project close out, quick snapshot of project progress and accountability of funding expenditures as required for grant fund programs.

### **Engineering Plan Review**

The key to a successful plan review process is communication. It starts with a kickoff meeting between City staff and the planreview staff. This meeting will provide an understanding of the expectations from the City, the applicants, and the stakeholders. It is important for the involved staff to understand the required turnaround times and the process's critical dates. Once reviews begin, CGA will provide comments to City staff and be available for staff or applicant comments. Internal communication between CGA disciplines (e.g., traffic and civil) and the City staff reviewing the plans is critical to ensuring a consistent set of comments for the applicant.

### **Construction Engineering and Inspection (CEI)**

The CGA Team provides a remarkable combination of technical capability, regional knowledge, creative and resourceful approaches to complex problems. We believe that to deliver exceptional solutions and services involve commitment, desire, and initiative. Our approach to project management is a holistic perspective rooted in a thorough knowledge of the program requirements of federal, state and local governing agencies. Our CEI team will include Erik Padron, PE, our Senior Project Engineer (SPE)/Construction Management Lead (CM), who has over 27 years of experience in the construction industry.

### **Other Proposed Services**

Our proposed team includes the following experts/specialists:

- Surveying & Mapping: Steve Watts
- Cost Estimating: Joel Wadsworth
- Geographic Information System (GIS): Norwing Hernandez

Please see these team members' resumes above to view the wealth of experience and knowledge they bring to the table.

### **Qualifications of Subcontractors**

CGA will be utilizing Synalovski Romanik Saye as a subcontractor for Architecture and Nutting Engineers as a subcontractor for Geotechnical. In Tab 3, you will find the resumes of the proposed team members from the firms of our subcontractors. Later in this tab, you will also find these team members' licenses and flyers about these firms, which detail all of the services they offer.

## Project Team/Manager's Experience

CGA is excited to present our team of highly qualified and experienced professionals for your consideration for the City's Continuing Professional Consulting Services RFQ.

### Team Leadership

We have assigned a proven leader to manage this contract, Ms. **Jenna Martinetti, PE**, to lead a team of fully licensed and experienced individuals to ensure the successful completion of each of your required services. Ms. Martinetti is a Florida-licensed Professional Engineer who has overseen dozens of municipal projects in South Florida, including roadway design and improvements, milling and resurfacing, ADA upgrades, traffic control plans, lift stations, water and wastewater line replacements, and drainage systems, among many others.

Ms. Martinetti has 20 years of extensive, diverse and accomplished experience in Municipal and Governmental projects. She has led a large variety of projects related to roadway, site plan improvements, parks and open spaces, water, wastewater, and stormwater infrastructure projects throughout Florida. Her project management experience includes design and retrofit of parks, roadways, water mains, sewage force mains, lift stations, fuel station, site design and stormwater projects as well as site planning, modifications, permitting, bidding documents, plan review during construction and project close-out. She is defined as a results-oriented leader with strong management, financial and communication skills who encourages teamwork and a collaborative approach to achieve organizational excellence, with a personal philosophy of "Respect, Integrity, Service and Excellence."

Her role as Project Manager will infiltrate all aspects of all project development with a driving force to ensure that the goals and objectives for each of the City's projects meet the expectations of the City, residents, and the overall affecting community and are supported by all the necessary inhouse resources of the CGA organization. Ms Martinetti's professional work is supportive of the firm's mission to develop excellent sustainable solutions to enhance the environment and surrounding communities. Her leadership has been exemplified in demonstrating and promoting innovative leadership strategies that foster the promotion of climate adaptation and resilience and the maximization of investments in public infrastructure improvements.

**JENNA MARTINETTI, PE**

*Project Manager*

JMartinetti@cgasolutions.com

954.766.2796

**DAVID STAMBAUGH,  
PE, DBIA**

*Professional-in-Charge*

Ms. **Jeannie Walsh-Fabian** will serve as the Account Manager, providing support for the contract on a service delivery and satisfaction basis. Ms. Walsh-Fabian will be the City's primary contact during the procurement process.

As the Account Manager, Ms. Walsh-Fabian will act as an intermediary between CGA and the City to meet the City's needs for information, support, and assistance for proper high-level service delivery, as well as conflict resolution. In turn, Ms. Walsh-Fabian helps CGA better understand the City's needs, expectations, and challenges.

Throughout the life of the contract, she will maintain frequent and consistent check-in meetings with the City to help identify potential performance risks early, prevent issues from affecting services and satisfaction, and mitigating the impacts. These meetings provide both parties the opportunity to manage the resources tactfully and develop the best client-contractor relationship. Further, we can also estimate and evaluate possible outcomes during this process and make the necessary changes.

Ms. Walsh-Fabian has worked with clients all throughout South Florida and understands the concerns and priorities of municipalities such as the City.

**JEANNIE WALSH-FABIAN**

(BCHCED)**

## Nutting Engineers Team Member Licenses

## FIRM SUMMARY

SYNALOVSKI ROMANIK SAYE, LLC (SRS), is an Architectural, Planning & Interior Design firm incorporated in the State of Florida, providing professional services in the State of Florida since 1988. Based on the Plantation's needs, goals and expectations, we have carefully partnered with sub-consultants in order to provide an exceptional Master Plan in the best interest of the community.

## FIRM HISTORY

SYNALOVSKI ROMANIK SAYE, LLC (SRS), is a distinguished Architectural, Planning & Interior Design firm with over **36 years** of rich history. **Founded in 1988** in the State of Florida by Manuel Synalovski, AIA, LEED AP, the firm initially operated as Manuel Synalovski Architects, Inc., later welcoming partners Merrill Romanik, AIA, in 1992, and architect Jose Saye in 1998, enhancing our design capabilities and organizational expertise.

In 2021, SRS was honored with the Architectural Firm of the Year award by the Fort Lauderdale Chapter of the American Institute of Architects during the AIA Design Awards. This recognition underscores our commitment to design excellence, mentorship, community service, and support for the architectural community. With over 40 awards and recognitions, our track record speaks volumes about our dedication to quality.

In 2023, SRS became a part of the Stratus Team LLC network as a wholly-owned subsidiary of Zyscovich, Inc., following a strategic acquisition. Stratus Team is a comprehensive network of engineering and architecture consulting firms dedicated to overseeing the entire project lifecycle, from initial planning to final construction oversight. Our team of highly skilled and licensed professionals, including engineers, architects, planners, designers, and surveyors, offers invaluable expertise to tackle complex challenges, empowering our clients and community partners to create better plans and places.

Throughout our three decades of operation, SRS has consistently grown and earned the respect of clients, professional associates, and the communities we serve. With a diverse portfolio spanning South Florida, Connecticut, Texas, Illinois, and Puerto Rico, we have completed hundreds of projects and received numerous accolades. As SRS, we remain committed to our legacy of excellence and continuous pursuit of architectural innovation.

## NUMBER OF LOCATIONS

SRS has two locations.

The work will primarily be performed from:  
1800 Eller Drive Suite 500  
Fort Lauderdale, FL 33316  
(954) 961 - 6806

## PRIMARY PERSON RESPONSIBLE FOR THIS PROJECT

**Merrill Romanik AIA, LEED AP**  
Vice President, Principal-in-Charge

## NUMBER OF YEARS IN BUSINESS

36

## NUMBER OF EMPLOYEES

SRS has 17 Professionals including architects, interior designers, LEED accredited professionals and administrative Staff.

## To clients and associates, SRS is characterized by:

- Commitment
- Enthusiasm
- Experience
- Intelligent Design Solutions
- Knowledge
- Legendary Service
- Prudent Budgeting
- Responsible Community & Environmental Values
- Visionary Management Practice

SRS proposes to provide comprehensive architectural services under the City of Cooper City’s Continuing Services Contract, delivering design solutions for future projects as they arise. Key aspects include:

- **Architectural Design:** SRS will handle all phases from concept to construction, ensuring designs meet project requirements while prioritizing functionality, sustainability, and resilience, especially for South Florida’s environmental challenges.
- **Stakeholder Engagement:** We will maintain open communication with City officials and stakeholders, ensuring their input is integrated into the project.
- **Compliance and Permitting:** We will manage all regulatory compliance, collaborating with the City’s Building Department and other agencies to streamline the permitting process and meet all codes and standards, including ADA and environmental regulations.
- **Budget and Schedule Management:** We are committed to delivering cost-effective projects through early cost estimates, value engineering, and proactive scheduling to avoid delays.
- **Construction Administration:** SRS will oversee construction activities, ensuring work is completed according to the approved design, on time, and within budget. Regular site visits and quality control will be part of this process.
- **Specialized Consultants:** For complex projects, SRS will collaborate with experienced consultants to provide expert support.

SRS’s experience with over 380 municipal projects ensures that we are prepared to deliver efficient, high-quality architectural services that meet the City’s needs, with a focus on long-term sustainability and resilience.

We understand that setting client satisfaction is a primary focus. Through conscious design, our firm consistently applies quality management principles to the practice of architecture and related services, thereby earning a reputation for always meeting, and often exceeding Client goals.

SRS approaches each project – whether large or small – with the utmost attention, giving it the time, energy and the thorough supervision it requires. Our practice is diversified with an accomplished portfolio of work including municipal, residential, retail, mixed-use, commercial interiors, and hospitality, religious, institutional and academic projects. Many different building types have been designed to create a climate conducive to innovative design and to meet the changing needs of the clients we serve.

Our continued success is a product of diligence, knowledge and service. We are true team leaders and we use our leadership abilities to ensure quality control, cost control, timeliness and design excellence. Our practice, focused in South Florida for the past 36 years, provides us with an incomparable edge and unique advantage as it relates to serving our local Community. We clearly understand the work to be done and are confident that our proven qualifications and our “can-do” attitude will meet and exceed your expectations.

|--|---|
|  |   |
| <b>Safe and Secure</b>                       | SRS will design resilient, sustainable facilities prioritizing public safety, operational efficiency, and community well-being.   |
| <b>Proactive Responsive Asset Management</b> | SRS will create durable, forward-thinking designs that align with long-term operational efficiency and asset preservation.  |
| <b>Balance Progress with Traditions</b>      | SRS leverages experience with over 50 municipalities, advanced architectural technology, sustainable design, and creative problem-solving to deliver visually striking, efficient, and future-ready buildings.  |
| <b>Planning for a Sustainable Future</b>     | SRS integrates industry trends, smart building systems, energy-efficient solutions, and modern construction techniques to enhance user experience and long-term building performance.   |
| <b>Communication &amp; Transparency</b>      | We recognize the vital role that community stakeholders play in the success of any architectural project. By actively engaging with local residents, businesses, and civic leaders, we ensure that our designs reflect the values, needs, and aspirations of the community. |

NUTTING ENGINEERS OF FLORIDA, INC. has been one of the premier geotechnical engineering firms, provides extensive geotechnical engineering, construction materials testing and structural inspection services in South Florida and the Treasure Coast since its incorporation in 1967. Prior to this date, operations were performed through Nutting Engineers, Inc. (from 1956) and by H.C. Nutting Company (from 1932). Over this time NUTTING has built an excellent reputation, developed a strong understanding of soil conditions, construction technologies and formed numerous strong business relationships throughout the construction industry.

Project types include airports, seaports, roadways (improvements, widening, extensions, lighting, guard rails), bridges, parking lots and garages, drainage systems, city halls and municipal buildings, parks, recreational facilities, hospitals, educational facilities (K-12 and higher educational facilities) including auditoriums, stadiums/sports facilities, water and wastewater treatment plants, water storage facilities, courthouses, industrial parks, mining operations, shopping centers, residential communities, warehouses, hotels, assisted-living facilities, high-rise condominiums and office towers, and communication towers.

## SERVICES

### GEOTECHNICAL EXPLORATION AND ENGINEERING:

NUTTING'S geotechnical exploration and engineering services include site explorations, sample analysis, site and foundation recommendations, site feasibility, ground modification recommendations, large scale preliminary site and geological survey programs, utilization of outcroppings of subsurface materials, resistivity testing, and geophysical techniques such as ground penetrating radar, soil borings, hydrogeologic testing, monitoring well installation and seismographic equipment utilization. NUTTING also performs pre- and post- condition surveys, forensic evaluations and litigation support. **Drillers (3)** are trained to perform geotechnical drilling services in accordance with the American Society of Testing and Materials (ASTM), South Florida Water Management District (SFWMD) and the Florida Department of Transportation (FDOT) standards. Nutting also maintains strong relationships with several excellent, well trained subcontracting drilling companies to handle overflow.

The NUTTING fleet includes **three (3) company owned** soil and rock truck mounted drilling rigs, including Mobile B-57 and two (2) CME drill rigs. The company also has powered portable tripod equipment.

#### Geotechnical exploration services include:

- ◆ Standard penetration test borings
- ◆ Installation and monitoring of monitor wells
- ◆ Double ring infiltration tests
- ◆ Undisturbed sampling (Shelby tube samples)
- ◆ Roadway & Parking Lot cores
- ◆ Septic Tank Drainfield evaluations
- ◆ Rock coring
- ◆ Power/manual auger borings
- ◆ Ground Penetrating Radar (G.P.R)
- ◆ Well abandonment
- ◆ Settlement evaluations
- ◆ SFWMD & FDOT exfiltration tests

#### Monitoring services include:

- ◆ Fill and demucking operations
- ◆ Vibroflotation & Vibro-replacement (stone columns)
- ◆ Deep dynamic compaction
- ◆ Cementous and chemical grouting
- ◆ Piling installation - auger cast, driven piles, piers
- ◆ Temporary & permanent excavation shoring techniques
- ◆ Pile load test & load bearing tests
- ◆ Footing preparation
- ◆ Precast yard
- ◆ Fire proofing
- ◆ Vibration monitoring (seismograph)
- ◆ Test pits

| <b>Part II Certification</b>   |  |   |                        |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |                                |  |  |  |  |  |  |  |  |   |   |   |   |   |   |   |   |   |
| <p>Under penalties of perjury, I certify that:</p> <ol style="list-style-type: none"><li>The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and</li><li>I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and</li><li>I am a U.S. person (including a U.S. resident alien).</li></ol> <p><b>Certification instructions.</b> You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. (See the instructions on page 4.)</p> |  |   |                        |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |                                |  |  |  |  |  |  |  |  |   |   |   |   |   |   |   |   |   |
| <b>Sign Here</b>   | Signature of U.S. person ▶   | Date ▶ March 24, 2023                                     |                        |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |                                |  |  |  |  |  |  |  |  |   |   |   |   |   |   |   |   |   |
| <b>Purpose of Form</b>   |  |   |                        |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |                                |  |  |  |  |  |  |  |  |   |   |   |   |   |   |   |   |   |
| <p>A person who is required to file an information return with the IRS, must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.</p> <p><b>U.S. person.</b> Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:</p> <ol style="list-style-type: none"><li>Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),</li><li>Certify that you are not subject to backup withholding, or</li><li>Claim exemption from backup withholding if you are a U.S. exempt payee.</li></ol> <p><i>Note: If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.</i></p> <p><b>Foreign person.</b> If you are a foreign person, use the appropriate Form W-8 (see Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).</p>  |  |   |                        |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |                                |  |  |  |  |  |  |  |  |   |   |   |   |   |   |   |   |   |
| <p><b>Nonresident alien who becomes a resident alien.</b> Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the recipient has otherwise become a U.S. resident alien for tax purposes.</p> <p>If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement that specifies the following five items:</p> <ol style="list-style-type: none"><li>The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.</li><li>The treaty article addressing the income.</li><li>The article number (or location) in the tax treaty that contains the saving clause and its exceptions.</li><li>The type and amount of income that qualifies for the exemption from tax.</li><li>Sufficient facts to justify the exemption from tax under the terms of the treaty article.</li></ol>                                       |  |   |                        |   |   |   |   |   |  |  |  |  |  |  |  |  |  |  |  |  |    |  |  |  |  |  |  |  |  |                                |  |  |  |  |  |  |  |  |   |   |   |   |   |   |   |   |   |

## CGA's Drug-Free Workplace Certificate

City of Cooper City, Florida

### ATTACHMENT L DRUG FREE WORKPLACE CERTIFICATE

I, the undersigned, in accordance with Florida Statute 287.087, hereby certify that, (**print or type name of firm**)

Calvin, Giordano & Associates, Inc.

- Publishes a written statement notifying that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the workplace named above, and specifying actions that will be taken against violations of such prohibition.
- Informs employees about the dangers of drug abuse in the work place, the firm's policy of maintaining a drug free working environment, and available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug use violations.
- Gives each employee engaged in providing commodities or contractual services that are under bid or proposal, a copy of the statement specified above.
- Notifies the employees that as a condition of working on the commodities or contractual services that are under bid or proposal, the employee will abide by the terms of the statement and will notify the employer of any conviction of, pleas of guilty or nolo contendere to, any violation of Chapter 1893, or of any controlled substance law of the State of Florida or the United States, for a violation occurring in the work place, no later than five (5) days after such conviction, and requires employees to sign copies of such written (\*) statement to acknowledge their receipt.
- Imposes a sanction on, or requires the satisfactory participation in, a drug abuse assistance or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
- Makes a good faith effort to continue to maintain a drug free work place through the implementation of the drug free workplace program.

"As a person authorized to sign this statement, I certify that the above named business, firm or corporation complies fully with the requirements set forth herein".

## Exceptions

6.1 CONSULTANT shall indemnify and save harmless the CITY, its elected and appointed officials, agents and employees from and against any and all third-party liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, sustained by the CITY, its elected and appointed officials, agents, and employees to the extent arising out of, or by reason of, or resulting from the negligence, recklessness, or intentionally wrongful conduct of CONSULTANT, its agents, subcontractors or employees during the performance of this Agreement.

6.3 CONSULTANT's aggregate liability shall not exceed the proceeds of insurance required to be placed pursuant to this Agreement plus the total compensation received by CONSULTANT. The CITY's rights and remedies and CONSULTANT's liabilities as set forth in this Agreement, are exclusive, and the CITY hereby releases CONSULTANT from all further or subsequent liability, whether based in contract or tort and irrespective of fault, negligence, or strict liability. Nothing contained here is intended nor shall be construed to waive CITY's rights and immunities under the common law or Section 768.28, Florida Statutes, as may be amended from time to time.

6.4 CONSULTANT's obligation under this Article 6 to provide indemnification is contingent upon timely notice of the claim for which indemnification is sought, such that the defense of the claim is not prejudiced, and the reasonable cooperation of the party seeking indemnification with the defense of the claim.

6.5 NOTWITHSTANDING ANY PROVISION OF THIS AGREEMENT TO THE CONTRARY, IN NO EVENT SHALL THE TOTAL AGGREGATE LIABILITY OF CONSULTANT UNDER THIS AGREEMENT EXCEED THE AVAILABLE LIMITS OF INSURANCE COVERAGE PURSUANT TO ARTICLE 7, REQUIRED UNDER THIS AGREEMENT.

The City is to be expressly included as an "Additional Insured" in the name of "City of Cooper City" with respect to general and automobile liability arising out of operations performed by City by or for proposer; or acts or omissions of City concerning general supervision of such operation.

7.2.1 The City of Cooper City shall be named as an Additional Insured on each of the Liability Policies required herein with the exception of Workers Compensation and Professional Liability.

22.1 Ownership of Documents. Reports, surveys, plans, studies and other data provided in connection with this Agreement are and shall remain the property of CITY whether or not the project for which they are made is completed. CITY hereby agrees to use CONSULTANT's work product for its intended purposes. Notwithstanding any provision of this Agreement to the contrary, Consultant shall have no liability, including under Section 6, with respect to (i) the use by CITY of unfinished or draft Deliverables or (ii) the use of Deliverables for any project other than that for which they were prepared or (iii) the use of Deliverables after a change in applicable codes or law.

22.4 Assignments; Amendments. This Agreement, and any interests herein, shall not be assigned, transferred or otherwise encumbered, under any circumstances, by CONSULTANT without the prior written consent of CITY. Written consent shall not be unreasonable delayed or withheld. For purposes of this Agreement, any change of ownership of CONSULTANT shall constitute an assignment which requires CITY approval. However, this Agreement shall run to the benefit of CITY and its successors and assigns. It is further agreed that no modification, amendment, or alteration in the terms or conditions contained herein shall be effective unless contained in a written document executed with the same formality and of equal dignity herewith.
