To Whom It May Concern,

Thank you for the opportunity to connect with Region 14 Education Service Center (the Region) and other public agencies supported by this contract. We look forward to detailing throughout this process and proposal how we can provide a platform of products to increase the efficiency of civic engagement and move towards a true digital Region.

Granicus' platform of digital engagement will allow the Region, and other agencies, to transition to on-line services. During current times, the public is getting used to working on-line and from their own spaces. After the dust settles, a new normal, as already seen in the UK, will be employees and the public wishing to work within the digital world.

Granicus is uniquely position with a proven platform of integrated tools to make this new normal a reality. We have the digital tools to communicate both within and outside of agencies, move workflows and public facing processes like paying student fees, to a digital format with minimal coding. We can also wrap it all within a communication network that is made for mobile access.

We look forward to being able to guide the Region and its agencies in changing the way that you connect with residents, creating better lives for more people through secure, world-class technology.

Executive Summary

Broken customer experiences, legacy technologies, paper-based processes, and siloed departmental workflows cause frustration (and increase administrative cost) for both government employees and their customers. The COVID-19 pandemic is only making things worse.

Many of our competitors have gone to market with service-specific solutions that automate only a small portion of a city's resident connection strategy. This traditionally forces cities to rely heavily on fragmented solutions from multiple vendors, but the Granicus Platform will show why a partnership between the Region and its agencies and Granicus can transform how they connect with residents while following the guiding principles, including:

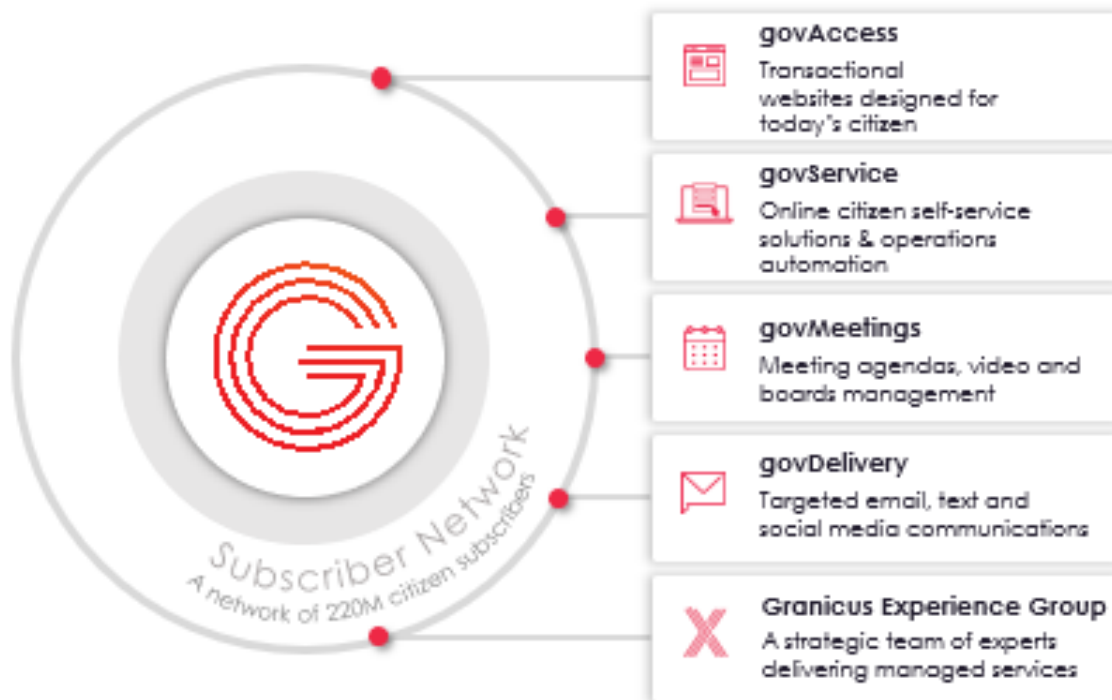

1. Meaningful
2. Transparent
3. Respectful
4. Inclusive
5. Accessible
6. Informative
7. Responsive
8. Timely
9. Convenient
10. Continuous

Why Granicus? There is no other company with the flexibility and configurability of solutions that also has the speed of implementation and breadth of capability that we can achieve. Our solutions are purpose-built for government organizations. Our portfolio is tailored to make government employees' lives easier. We will help the Region solve pressing challenges faced both today and well into the future.

Specifically, the Granicus Citizen Engagement Platform will unify technology systems to improve the overall resident experience, transparency and accountability, therefore increasing resident engagement. Our systems will automate back-office processes and work by internal staff.

ELEMENTS OF THE PLATFORM

BENEFITS AND OUTCOMES

The opportunity in front of the Region's agencies to build a true digital platform is profound. It starts with a robust CSM via govAccess and flows all the way through internal and external process to a fully integrated digital communication with GovDelivery.

In the end, the Granicus Citizen Engagement Platform is a connected platform to improve resident relationship and accountability and ensure council aids and council staff members follow through on requests from constituents.

Our solution is built for government, by government. A single platform with a single vendor will not only mean streamlining implementation, support and service, but a unique opportunity to bring to the table features that are integrated together, enhance public engagement, ensure accessibility, and continuous engagement.

We look forward to the opportunity to partner with the Region and its agencies on this endeavor.

COMMUNICATION SERVICE LEVEL AGREEMENT

Granicus response to support and service requests will be based on four (4) Severity Levels:

Severity Level	Description	Examples	Initial Customer Response Time
Level 1	Emergency. Incident represents a total outage; the product is unavailable or not accessible for use	<ul style="list-style-type: none"> • govDelivery’s admin.govdelivery.com is down or all sending is significantly delayed • govMeetings web server is running but the application is non-functional or SQL-server errors that are not related to hardware • govAccess website is unreachable by public users 	Within one (1) hour of notification by the customer of occurrence
Level 2	Severely Impaired. Incident occurs when a major feature of the product is not working and there is no workaround available, or the workaround is not acceptable and impacts the primary usability of the product	<ul style="list-style-type: none"> • govDelivery PageWatch sending is delayed by more than 20-30 minutes, or sudden and significant deliverability issues or intermittent errors or low performance issues for some or many customers • Site operational but govMeetings modular functionality is non-operational • govAccess error, where there is no means of circumvention, that renders an essential component of the content management tool non-functioning that did not occur at the time of the website launch and usually requires debugging of programming code 	Within four (4) hours of notification by the customer of occurrence

Level 3	Impaired. Incident occurs when a primary feature of the product is not working as expected and an acceptable workaround is available – does not impact the basic usability of the product	<ul style="list-style-type: none"> govDelivery system not connecting to social media, single customer app/feature help, or database requests govMeetings system files won't upload, or text not rendering govAccess website works but there are problems with presentation 	Within one (1) business day of notification by the customer of occurrence

AVAILABILITY

Availability is defined as the ability of users to access the Granicus Solutions services via the internet. Granicus represents an up-time guarantee of 99% per calendar quarter for its hosted services. Notifications for Granicus Solutions of any system-wide outages will occur within one hour from the time the issues are first recognized by Granicus.

Downtime is defined as any time that the Granicus Solutions services are unavailable.

A **Site Outage** is defined as continuous Downtime, as determined through URL monitoring (HTTP). Downtime reporting is limited to a Site Outage. Site Outage monitoring is conducted by Granicus utilizing industry-standard monitoring tools. Reports of Site Outages will be provided on an as-requested basis up to once per calendar quarter.

A Site Outage does not include Downtime that falls into one or several of the exclusions below:

- Scheduled or routine maintenance
- Caused by force majeure (which shall include any circumstances beyond Granicus's reasonable control, including but not limited to, acts of God, labor strikes and other labor disturbances, power surges or failures)
- The first four (4) Site Outages in any given quarter that are corrected within fifteen (15) minutes of their start
- The first five (5) minutes of any Site Outage is a grace period and will not be considered Downtime under any circumstances
 - Example: a Site Outage of fourteen (14) minutes in duration that is one of the first four (4) such outages in a given quarter would not result in any Downtime, while a Site Outage of sixteen (16) minutes would result in eleven (11) minutes of Downtime. After four (4) Site Outages of between five (5) and fifteen (15) minutes in a quarter, all Site Outage time over five (5) minutes for any one instance will count as Downtime.

- For **govAccess**, Granicus is not responsible for errors associated with denial of service attacks, distributed denial of service attacks, or customer DNS

Security Overview

Your data and application reliability is of paramount importance. As an organization, Granicus invests heavily in data protection, infrastructure and security. To that end, Granicus views the National Institute of Standards and Technology (NIST) Special Publication ST 800-53rev4 as the gold standard for security controls, particularly the Moderate data designation established under the Federal Information Protection Standards (FIPS.)

All our products are hosted entirely within the Continental United States, by reliable cloud providers. In addition to hosting in Amazon Web Services (AWS) Elastic Compute Cloud and Microsoft Azure, Granicus's datacenter provider QTS maintains two datacenters certified as Tier III by the [Uptime Institute](#). These applications are maintained by a robust team of over 50 engineers led by our Vice President of Cloud Operations.

But security is more than hosting – personnel represent the single largest security vulnerability in an organization. All Granicus employees must pass a background check upon hire and are re-screened every five years as required to maintain the FedRAMP authorization for Granicus's govDelivery application. In addition, all employees participate in annual privacy and security training facilitated by Granicus's Information System Security Officer.

Granicus understands the impact of disruption and takes the necessary steps, in our infrastructure design and scale, to ensure the availability of your applications when you need them. Data in those applications is encrypted at rest and in transit using FIPS 140-2 validated encryption methods. The remainder of the suite

is hosted in Amazon Web Services and all backups (from every application) are replicated to AWS datacenters.

Green Initiatives

As our business grows, we want to make sure we minimize our impact on the Earth's climate. We are taking every step we can to implement innovative and responsible environmental practices throughout NCPA to reduce our carbon footprint, reduce waste, energy conservation, ensure efficient computing and much more. To that effort we ask respondents to provide their companies environmental policy and/or green initiative.

Granicus provides mostly SaaS and PaaS products hosted through partners. For that reason, we do not have a Green Initiative in place. However, Granicus' is acutely aware of our carbon footprint. Our corporate office is housed in a building with Gold Standards and Green Policies.

Vendor Certifications (if applicable)

Provide a copy of all current licenses, registrations and certifications issued by federal, state and local agencies, and any other licenses, registrations or certifications from any other governmental entity with

jurisdiction, allowing respondent to perform the covered services including, but not limited to, licenses, registrations, or certifications. Certifications can include M/WBE, HUB, and manufacturer certifications for sales and service.

STREAMLINE SERVICES:

Walk-ins after switching to online services.

“ We wanted to replace our CRM and forms solution. Granicus was the leader with the right solution and price. The product is easy. The company is helpful. The best part of govService? Flexibility — there are so many different things we can do with it. ”

- Huw Ap Dewi, Digital Projects Office, Wrexham

The Challenge

Service delivery is a core function across all levels of government — from filling potholes to distributing critical benefits. But, for those requesting and fulfilling these services, the process is demanding. For government, the back-end procedures for completing a request are often tedious and costly. For citizens, getting through the labyrinth of inconsistent, paper-based workflows is frustrating (and often requires assistance). At best, the experience chips away at a citizen's positive attitude toward their government. At worst, government directs time and money toward unnecessary manual processes.

What If You Could...

- ✓ **Make it easier for citizens** to pay bills, apply for jobs, pay parking tickets, and more?
- ✓ **Make it easier for staff** to handle, track, and deliver inbound service requests?
- ✓ **Elevate productivity** by nearly eliminating the need for in-person visits?
- ✓ **Shrink costs of service delivery** by streamlining internal operations?

Reinvent Citizen-to-Government Interaction With govService

OVERVIEW

Over 10 years ago, the Supreme Court of Florida began the process of switching to electronic filing for its court systems. While it took some time to find and fully implement eUniversa throughout the 67 counties in Florida, it's been a welcome change that has saved the Florida Court Clerks & Comptrollers, taxpayers, and those who utilize the system, millions of dollars.

FLORIDA COURT CLERKS & COMPTROLLERS PRIORITIZES E-FILING, SAVES MILLIONS

SITUATION

Paper Causes Backups in Florida's Court System

In the early 2000s, the court system for the state of Florida relied exclusively on paper processes for filing. However, this process was costly for the counties, attorneys and citizens who represent themselves in court cases. Since files were paper-based, only one person or party could use each file at a time. "If you wanted to look at a file, you had to wait until the judge was done with it," says Tim Smith, Clerk of Courts for Putnam County, FL. The Florida Association of County Clerks (FACC) was also required by law to keep past filings, which it had to do in a hurricane-safe warehouse.

When it came time for lawyers to file court documents, they would have to do so in person, which also meant they could only file between the hours of 8 a.m. and 5 p.m. If someone chose to file by mail, or lived too far from a courthouse to file in person, they would have to pay to send their documents. As these packets could be up to 50 pages, this often added up to large postage costs for lawyers and other filers.

As the reasons for shifting this process to the digital world became too numerous and too compelling to ignore, the state of Florida began making preparations to get all of its 67 counties on the same page.

SOLUTION

Courts, Clerks, and Lawyers Speed Up Processes

Once the Florida Supreme Court decided to make a change to e-filing roughly 10 years ago, they put together a committee to address some of the questions that lingered. It was necessary to have a single system, the committee decided, and one that was easy for all counties to adopt.

"It would be easier to manage, easier to maintain [if everyone used the same system]," says Melvin Cox, Director of IT for Florida Court Clerks & Comptrollers. Before this could happen, however, the state had to find a system that would layer over and interface with the 67 different case management systems utilized by each of the 67 counties.

They eventually discovered that Granicus' [eUniversa](#) solution could accomplish this large undertaking. While it took nearly two years to fully implement due to the sheer number of counties where it would be used, the solution began to prove its own value immediately. Once the system was available in all counties, its use was mandated by the Florida Supreme Court for all court participants beginning on April 1, 2013.

The result of this change is that court documents are easy to file, which creates more efficiency for everyone from litigants to attorneys to the courts themselves. Filers can now send documents from anywhere they have an internet connection, at any time of day or night.

The system also has another welcome benefit: "It's a huge savings to the taxpayers," says Carolyn Weber, Portal Program Manager for Florida Court Clerks & Comptrollers.

While the state and those in charge of the system continue to make adjustments that allow the eUniversa portal to move beyond its original planned use, it continues to make the filing process within the courts easier to manage.

RESULTS

A More Efficient Court System

Now that Florida Court Clerks & Comptrollers allows filers to submit documents electronically using eUniversa, it saves the state of Florida a tremendous amount of time, money, and space. Their court system runs much more efficiently and smoothly, to the benefit of all involved.

CITY OF NEWTON, MASS.

OVERVIEW

The City of Newton, Mass. wanted to accomplish three major goals with their website: update the site to reflect a more modern look and feel, ease the burden of maintenance and security on the IT department and empower citizens to interact with their government more easily. To accomplish these goals, the City enlisted the help of Granicus' CivicaCMS. Now, Newton's website has a fresh layout, is easier to navigate, and most importantly, is easier to manage and maintain.

NEWTON TAKES CONTROL OF ITS TIME WITH BETTER WEBSITE MANAGEMENT

SITUATION

Crunch Time for the IT Department

Newton, a suburb of Boston, is home to nearly 90,000 people, and in an effort to get all those citizens more engaged with their community, the City needed to make some changes online to make it easier for individuals and businesses alike to interact with their government.

Chief Information Officer Joseph Mulvey had a particular interest in updating the City's website, as making content changes and adding minutes, agendas and other information to the website was complex, to say the least. "In the old days, Fridays were web update days," Mulvey says. "Any department with a committee gave themselves a deadline of noon on Friday to have their Word documents done, agendas for the following week and minutes from the previous week."

Those documents were sent to Mulvey's team en masse on Friday afternoons, and while this worked for the individual departments, it placed stress on the IT department, which was responsible for adding all the new information to various pages of the website.

"At 2 o'clock, we would start getting emails from people, and we'd have 30 to 40 documents to post online, turn into PDFs and insert lines and tables into," says Mulvey. "There were a lot of steps. It was very mechanical, very time consuming. That was crunch time for the IT department."

SOLUTION

Newton Found a Better Option

In addition to wanting to ease the burden of regular website updates, the City also had an interest in easing citizens' confusion in navigating the website. With most citizens not completely familiar with the structure of local government departments, and therefore unsure of which department handled the issue they were trying to resolve, it created frustration and generated calls and emails to the City. So Mulvey and his team began searching for a vendor to design a new website, with a team of constituents recommending a CMS-driven site, which is how the City found Granicus. "We liked that the system was proprietary," says Mulvey. "We liked the idea that no one could mess with [the site]." The City also liked the Filebank storage option, as well as some of the more popular modules such as News Items and Slideshows.

"We would be able to give people just the things they needed without confusing them with things they didn't." In working with the Granicus team, the City was also able to streamline the site's navigation. Content on the site isn't organized by department, but by task. A site visitor simply needs to decide what they wish to accomplish, mouse over a menu and click.

For example, to apply for a marriage license, one needs to simply mouse over the popout menu, look under "apply for..." and select "marriage license." "We wanted to make things more transparent without making the user decide which department was responsible for something," says Mulvey.

RESULTS

A Perfect Fit for the City and for the Public

Having Granicus host the website turned out to be a good decision for the City, Mulvey says.

"Now I don't have to worry about backups," says Mulvey. "I don't have to come in on a weekend because a drive died or a network cable became unplugged. If we were to be hit by catastrophic weather, the site's still up because the servers are in sunny Colorado."

"The public really likes it," Mulvey says. "Just this year, we converted again to responsive design and redesigned the whole site. It was a lot of work but at the end the public was very happy."

COUNTY OF SAINT
CHARLES, MO.

OVERVIEW

After using a variety of solutions to manage their enormous volume of land records, including an in-house, custom-built program, Saint Charles County in Missouri made the switch to Granicus. Since then, they've been able to easily manage all records, which include over 45 years' worth of deeds, licenses, and more.

SAINT CHARLES COUNTY MANAGES DECADES OF RECORDS WITH GRANICUS

SITUATION

Saint Charles County Overwhelmed by over 150 Years of Land Records

When Barb Hall was first elected to her position of Recorder of Deeds for Saint Charles County, MO. in 1987, one of her main priorities was to digitize the way her county stored and managed land and vital records. At the time, not many options were available, so she sat with a programmer and designed a custom solution built specifically for her department's needs.

This worked for a while, but after going through changes in the way the County managed records, Hall saw the need for a more long-term solution. At the time, all files were kept on discs in a machine that worked exactly like an old-fashioned jukebox. Once a user knew the number of the document they needed, they'd have to type that number into the jukebox, which would then pull up the image or document.

As the population of Saint Charles County continued to increase, the number of homeowners also increased, and Hall and her staff once again recognized the need for a better long-term solution, preferably one that could grow with the County. That's when they found Granicus.

SOLUTION

County Accomplishes More with Granicus

Implementing the Land and Vitals system was such a positive event for Hall that she even remembers the date it went live: "Late September 2003 - what a wonderful change." Hall and her staff members were pleased to be able to allow the public to visit a website and be able to search for documents. Not only that, but they were able to pay for the documents online, which meant that staff members no longer had to spend time looking for documents or taking payment for them. Marriage licenses became easier to issue as well, since applicants are able to fill out a form online - saving staff members from having to type the information onto a form manually.

In July of 2011, when the County experienced a critical system failure within their network, they lost all of their images, documents, and records. Staff members prepared themselves to have to rescan documents, comb through years of archived records stored on microfilm, and try to get records up and running again. However, since Granicus is a cloud-based system,

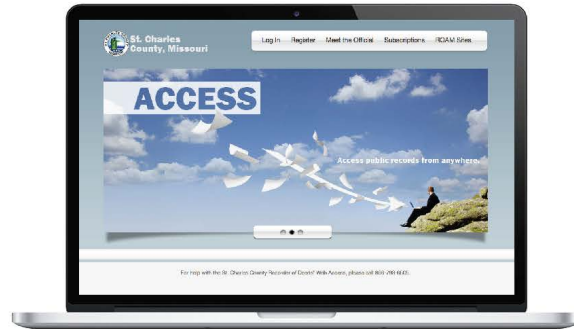

SUCCESS STORY

they still had copies of every single file that had been lost. After copying all of these files to an external hard drive, which was then overnighted to the County, Granicus and the County's IT staff were able to get the records department up and running again within days instead of weeks or even months.

"Thanks to Granicus, we were back up and running with everything long before our IT Department could have gotten us there," says Hall. "I am truly grateful for the excellent and timely service provided by Granicus."

RESULTS

A More Efficient Way to Manage Records

- Manages over 45 years of land records easily
- Allows citizens to apply for licenses and more online
- Decreases time to process applications

The Florida Fish and Wildlife Conservation Commission (Florida FWC) has more than 2,000 full-time employees across the state managing fish and wildlife resources for their long-term well-being and the benefit of people. WITH MORE RELEVANT, ENGAGING DIGITAL COMMUNICATIONS, FLORIDA FWC DRIVES OUTDOOR PARTICIPATION AND INCREASES REVENUE.

SITUATION

Reaching a vast audience comes with complex challenges.

The Florida Fish and Wildlife Conservation Commission (Florida FWC) manages fish and wildlife resources within the state of Florida. With more than 19 million residents and millions of visitors to the state, Florida FWC needed to find a way to effectively communicate with this vast audience.

The agency had too many distribution lists; and they were "owned" by separate divisions within the organization. Many of the contacts overlapped across lists without any way to manage them comprehensively. When Florida FWC wanted to cross-promote license sales, events, or other programs among divisions, it was a tedious task.

Florida FWC needed a solution for creating an easier process for people to sign up for communications and for employees to manage the process of sending communications. The agency needed to fulfill two goals:

1. Drive outdoor participation.
2. Increase revenues associated with permits and licenses.

SOLUTION

Florida FWC partners with GovDelivery to streamline communications.

After recommendation from other state agencies, Florida FWC partnered with GovDelivery. They implemented the technology in early 2013.

GovDelivery's solution provided a technology to elevate, streamline, and track its communication efforts: all within a secure, private, and compliant platform.

The solution provided a way for the Florida FWC to reach its vast audience, while also creating targeted messages for key geographic or topical areas.

Florida FWC used the robust analytics within GovDelivery to measure the success of its

messages. It regularly checks on web traffic spikes when new messages are distributed. The agency also keeps a close eye on data after sending messages and news releases.

RESULTS

With more relevant, engaging digital communications, Florida FWC drives outdoor participation and increases revenue.

With the implementation of the GovDelivery Communications Cloud, Florida FWC saw a 37 percent lift in total audience reached. With the use of Granicus' technology, Florida FWC successfully reached its goal of driving outdoor participation and experiencing cost savings.

Increased Email Subscribers

Today, Florida FWC has more than 726,000 subscribers. Rather than managing many different lists across departments, the agency could keep track of its contacts within one system, while still being able to segment the lists according to the division, topic, and geographic area. For example, the agency can message people regionally according to specific updates, like fishing information.

Greater Outdoor Participation and Permit Revenue

As a product, Florida FWC saw increased outdoor participation and license or permit revenue. Because the people could self-subscribe to a range of regionally focused communication topics, the information received is always relevant, making it more relevant and engaging to readers.

Added Benefit: Maintaining Alignment With Legislation

When laws like the Endangered Species Act are updated, the agency "gets the word out" to the public through GovDelivery. When emergency situations like excessive rainfall and flooding affect its stakeholders, the agency uses GovDelivery to warn residents.

Florida FWC uses GovDelivery to directly communicate with its stakeholders rather than only sending out messages to the media or trying to get a story on the news about important information.

The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision

for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of “funding agreement” under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended— Contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(I) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee

of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

If the Federal award meets the definition of “funding agreement” under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended— Contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401- 7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(I) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee

of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

The offeror further certifies that offeror will retain all records as required by 2 CFR § 200.333 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

CERTIFICATION OF COMPLIANCE WITH THE ENERGY POLICY AND CONSERVATION ACT

When Participating Agency expends federal funds for any contract resulting from this procurement process, offeror certifies that it will comply with the mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.; 49 C.F.R. Part 18).

Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition.

Required Clauses for Federal Assistance provided by FTA

ACCESS TO RECORDS AND REPORTS

Contractor agrees to:

- a) Maintain all books, records, accounts and reports required under this Contract for a period of not less than three (3) years after the date of termination or expiration of this Contract or any extensions thereof except in the event of litigation or settlement of claims arising from the performance of this Contract, in which case Contractor agrees to maintain same until Public Agency, the FTA Administrator, the Comptroller General, or any of their duly authorized representatives, have disposed of all such litigation, appeals, claims or exceptions related thereto.
- b) Permit any of the foregoing parties to inspect all work, materials, payrolls, and other data and records with regard to the Project, and to audit the books, records, and accounts with regard to the Project and to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed for the purpose of audit and examination.

FTA does not require the inclusion of these requirements of Article 1.01 in subcontracts. Reference 49 CFR 18.39 (i)(11).

CIVIL RIGHTS / TITLE VI REQUIREMENTS

- 1) Non-discrimination. In accordance with Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. § 2000d, Section 303 of the Age Discrimination Act of 1975, as amended, 42 U.S.C. § 6102, Section 202 of the Americans with Disabilities Act of 1990, as amended, 42 U.S.C. § 12132, and Federal Transit Law at 49 U.S.C. § 5332, Contractor or subcontractor agrees that it will not discriminate against any employee or applicant for employment because of race, color, creed, national origin, sex, marital status age, or disability. In addition, Contractor agrees to comply with applicable Federal implementing regulations and other implementing requirements FTA may issue.
- 2) Equal Employment Opportunity. The following Equal Employment Opportunity requirements apply to this Contract:
 - a. Race, Color, Creed, National Origin, Sex. In accordance with Title VII of the Civil Rights Act, as amended, 42 U.S.C. § 2000e, and Federal Transit Law at 49 U.S.C. § 5332, the Contractor agrees to comply with all applicable Equal Employment Opportunity requirements of U.S. Dept. of Labor regulations, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor, 41 CFR, Parts 60 et seq., and with any applicable Federal statutes, executive orders, regulations, and Federal policies that may in the future affect construction activities undertaken in the course of this Project. Contractor agrees to take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, national origin, sex, marital status, or age. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. In addition, Contractor agrees to comply with any implementing requirements FTA may issue.
 - b. Age. In accordance with the Age Discrimination in Employment Act (ADEA) of 1967, as amended, 29 U.S.C. Sections 621 through 634, and Equal Employment Opportunity Commission (EEOC) implementing regulations, "Age Discrimination in Employment Act", 29 CFR Part 1625, prohibit employment discrimination by Contractor against individuals on the basis of age, including present and prospective

employees. In addition, Contractor agrees to comply with any implementing requirements FTA may issue.

- c. Disabilities. In accordance with Section 102 of the Americans with Disabilities Act of 1990, as amended (ADA), 42 U.S.C. Sections 12101 *et seq.*, prohibits discrimination against qualified individuals with disabilities in programs, activities, and services, and imposes specific requirements on public and private entities. Contractor agrees that it will comply with the requirements of the Equal Employment Opportunity Commission (EEOC), "Regulations to Implement the Equal Employment Provisions of the Americans with Disabilities Act," 29 CFR, Part 1630, pertaining to employment of persons with disabilities and with their responsibilities under Titles I through V of the ADA in employment, public services, public accommodations, telecommunications, and other provisions.
 - d. Segregated Facilities. Contractor certifies that their company does not and will not maintain or provide for their employees any segregated facilities at any of their establishments, and that they do not and will not permit their employees to perform their services at any location under the Contractor's control where segregated facilities are maintained. As used in this certification the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, color, religion or national origin because of habit, local custom, or otherwise. Contractor agrees that a breach of this certification will be a violation of this Civil Rights clause.
- 3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment. In all solicitations, either by competitive bidding or negotiation, made by Contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by Contractor of Contractor's obligations under this Contract and the regulations relative to non-discrimination on the grounds of race, color, creed, sex, disability, age or national origin.
 - 4) Sanctions of Non-Compliance. In the event of Contractor's non-compliance with the non-discrimination provisions of this Contract, Public Agency shall impose such Contract sanctions as it or the FTA may determine to be appropriate, including, but not limited to: 1) Withholding of payments to Contractor under the Contract until Contractor complies, and/or; 2) Cancellation, termination or suspension of the Contract, in whole or in part.

Contractor agrees to include the requirements of this clause in each subcontract financed in whole or in part with Federal assistance provided by FTA, modified only if necessary to identify the affected parties.

DISADVANTAGED BUSINESS PARTICIPATION

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*", therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

- 1) Non-Discrimination Assurances. Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. Contractor shall carry out all applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or other such remedy as public agency deems appropriate. Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph. (See 49 CFR 26.13(b)).

- 2) Prompt Payment. Contractor is required to pay each subcontractor performing Work under this prime Contract for satisfactory performance of that work no later than thirty (30) days after Contractor's receipt of payment for that Work from public agency. In addition, Contractor is required to return any retainage payments to those subcontractors within thirty (30) days after the subcontractor's work related to this Contract is satisfactorily completed and any liens have been secured. Any delay or postponement of payment from the above time frames may occur only for good cause following written approval of public agency. This clause applies to both DBE and non-DBE subcontractors. Contractor must promptly notify public agency whenever a DBE subcontractor performing Work related to this Contract is terminated or fails to complete its Work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Contractor may not terminate any DBE subcontractor and perform that Work through its own forces, or those of an affiliate, without prior written consent of public agency.
- 3) DBE Program. In connection with the performance of this Contract, Contractor will cooperate with public agency in meeting its commitments and goals to ensure that DBEs shall have the maximum practicable opportunity to compete for subcontract work, regardless of whether a contract goal is set for this Contract. Contractor agrees to use good faith efforts to carry out a policy in the award of its subcontracts, agent agreements, and procurement contracts which will, to the fullest extent, utilize DBEs consistent with the efficient performance of the Contract.

ENERGY CONSERVATION REQUIREMENTS

Contractor agrees to comply with mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plans issued under the Energy Policy and Conservation Act, as amended, 42 U.S.C. Sections 6321 *et seq.* and 41 CFR Part 301-10.

FEDERAL CHANGES

Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Contract between public agency and the FTA, as they may be amended or promulgated from time to time during the term of this contract. Contractor's failure to so comply shall constitute a material breach of this Contract.

INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS

The provisions include, in part, certain Standard Terms and Conditions required by the U.S. Department of Transportation (DOT), whether or not expressly set forth in the preceding Contract provisions. All contractual provisions required by the DOT, as set forth in the most current FTA Circular 4220.1F, dated November 1, 2008, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. Contractor agrees not to perform any act, fail to perform any act, or refuse to comply with any public agency requests that would cause public agency to be in violation of the FTA terms and conditions.

NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES

Agency and Contractor acknowledge and agree that, absent the Federal Government's express written consent and notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to agency, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract.

Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS

Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq. and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.
