Utilities

CITY MANAGER RECOMMENDATION:

This is a recommendation for Commission approval to release in full the Subdivision Bond upon the Central Broward Water Control District's approval.

BACKGROUND OF ITEM:

The development of Ranchette Isle homes by Kennedy Homes, LLC, included paving of roadways and a drainage flow easement in the rear of the properties. The paving work and the drainage flow easement were constructed more than a year ago. The drainage flow easement required some improvements. Improvements were completed in accordance with the City and District approved plans and specifications. Further, pursuant to Section 22 of the City Water & Sewer Developers Agreement, and as more than a year has passed, the developer is requesting full release of the Subdivision Bond of \$589,414.15.

ANALYSIS:

The paving and drainage flow easement improvements were built in accordance with the City and District's approved plans and specifications for the development and are determined to be acceptable by the City Engineering Office. Attached are Resolution No. 25.31, the developer's Bond release request letter, and the Engineer of Record project certification letter. In consideration of the foregoing, Staff recommends Commission approval to release in full the Subdivision Bond No. SEIFSU 0662492 contingent upon the Central Broward Water Control District's approval.
