CITY MANAGER RECOMMENDATION:

The City Manager recommends approval of Resolution No. 26-50, which amends the Fiscal Year 2026-27 Stormwater Fund budget by appropriating \$145,870 from the fund balance to Contractual Services for the abandonment and replacement of the stormwater drainage pipe and outfall at 11681 SW 57th Street.

BACKGROUND OF ITEM:

On September 24, 2026, the Commission adopted the Fiscal Year 2026-27 budget by Resolution No. 26-49. The adopted Stormwater Fund budget includes \$177,000 in Contractual Services (440-315-531290-538), of which only \$50,000 is allocated to stormwater repairs.

The City's stormwater system on SW 57th Street drains from a catch basin through a 15-inch corrugated metal pipe (CMP) within a utility easement that runs through a resident's yard, discharging into the lake behind the property. The pipe has significantly deteriorated, with extensive corrosion and structural failure, and has caused recurring sinkholes that have required multiple emergency and interim repairs. A prior point repair by Shenandoah General Construction, LLC (Shenandoah) was followed by a new sinkhole at the transition to the remaining pipe. The Utilities Department has determined that the pipe is beyond practical repair.

A companion item on this agenda requests approval of Shenandoah Proposal No. P53505-v5, dated August 19, 2026, in the amount of \$145,870, under the City's piggyback of Broward College Contract No. RFP-2024-082-OA, which the Commission approved on April 8, 2025. The work abandons the existing CMP, installs approximately 155 linear feet of new 15-inch HDPE drainage pipe within the existing easement, and constructs a sand-cement riprap outfall at the lake.

Because the project was not included in the adopted budget, this amendment appropriates the Stormwater Fund balance to cover the full cost. Under Section 166.241(4) of Florida Statutes, an amendment that increases a fund's total appropriations must be adopted by the Commission in the same manner as the original budget.

1. Budget Amendment – Stormwater Fund (440)

Stormwater Fund appropriations increased by \$145,870, from \$1,185,700 to \$1,331,570.

	Adopted	Amendment	Amended
Appropriation from Fund Balance 440-000-389980-389	-	\$145,870	\$145,870
Contractual Services 440-315-531290-538	\$177,000	\$145,870	\$322,870
Total Stormwater Fund Appropriations	\$1,185,700	\$145,870	\$1,331,570

2. Fiscal Impact

The amendment is funded by an appropriation from the Stormwater Fund balance. Because Fiscal Year 2026 has not been closed, the available balance is a projection.

- Projected fund balance available for FY 2026-27: \$816,666
- Less this appropriation: (\$145,870)
- Projected remaining fund balance: \$670,796
