# Update Project Planning Phase

## Purpose and Need

Describe how the problem(s) the project will solve will be identified and evaluated

The City will hire a consultant to study the current and projected traffic volume, safety conditions, lighting, signalization, and signage, and produce a report with a plan for improvements

Describe how the alternatives identified to solve the problem(s) will be evaluated and the best solution selected

Alternatives produced in the above-mentioned report will be evaluated by City staff for feasibility and presented to the City Commission to ultimately select the best solution.

Describe what public outreach activities will be conducted during the project

The City will likely conduct a public workshop to present alternatives and solicit public input.

Upload agreement to participate in a before and after study (30 MB file size limit)
