

## CITY COMMISSION STAFF REPORT

**DEPARTMENT:** Commission

**SUBJECT:** Discussion on allowing private communities with private roads to add traffic calming measures without producing a full traffic study. – **Commissioner Katzman**

**RECOMMENDATION:**

Commissioner Katzman requests a Commission discussion regarding private communities being able to add traffic calming measures without a full traffic study.

**BACKGROUND OF ITEM:**

The private communities would still have to have an engineer certify that stormwater drainage will not be negatively impacted, and BSO Fire certify that emergency vehicles will be able to efficiently drive to emergencies.

**STRATEGIC PLAN:**

This item supports Priority #2 Public Safety. It will make our neighborhoods safer from speeding vehicles, which have become a threat to our community.
