CITY ATTORNEY: City Attorney Mike Stiff requested to Approve an Ordinance Amending Title 2 (Administration and Personnel, Chapter 26 (Finance Director) of the City of Crest Hill per the memo dated June 2, 2025.

Attorney Mike Stiff presented an ordinance intended to revert the Finance Director's reporting structure, so that the position would report to the City Administrator rather than the Treasurer. This amendment seeks to reinstate the structure that was in place prior to September 2022. Attorney Stiff explained that the ordinance was drafted at the direction of the Interim City Administrator and at the request of some Council members.

Alderwoman Gazal asked Attorney Stiff, for the record, if she had ever talked to him about this topic, and Attorney Stiff replied no.

Alderman Dyke asked how this came about since there was no discussion. Alderwoman Gazal commented that while conducting City Administrator interviews many interviewees pointed out that they had an issue with not having Human Resources and Finance under the City Administrator, which is what all municipalities have and that is how City of Crest Hill used to have it as well. She then commented on how sad it is that officials choose to trash the City publicly on social media.

Concerns about the lack of prior discussion regarding this change were raised by several Council members. Alderman Albert, among others, emphasized the importance of holding discussions before making such decisions and stated that it was crucial not to rush the decision without adequate dialogue. Some Council members felt blindsided due to the

absence of prior communication and discussions on this topic and believed that transparency was lacking in how the matter was brought forward.

Treasurer Jamie Malloy commented that no person likes to be blindsided, which she was blindsided by this and became very angry and questioned why it was good enough for Alderwoman Gazal's fiancé to have this power but not her. Alderwoman Gazal corrected the Treasurer stating he was not her fiancé at the City and to not bring personal life into this. Mayor Soliman stopped the discussion and stated that the City Council members have the comment time first.

Other Council members, like Alderman Deserio, were supportive of reverting the reporting structure to its previous state, arguing that it was common for the Finance Director to report to a full-time City Administrator rather than a part-time Treasurer. Alderman Albert and Alderman Kubal both seconded the views that this alignment was typical for municipalities and beneficial for the City's operation. They voiced the opinion that the change would ensure more coherent management and oversight of the City's financial operations.

(#7) Motion by Alderman Deserio seconded by Alderman Kubal, to Approve an Ordinance Amending Title 2 (Administration and Personnel, Chapter 26 (Finance Director) of the City of Crest Hill per the memo dated June 2, 2025.

On roll call, the vote was:

AYES: Ald. Albert, Kubal, Deserio, Gazal, Oberlin.

NAYES: Ald. Cipiti, Dyke.

ABSTAIN: Ald. Jefferson.

There being five (5) affirmative votes, the MOTION CARRIED.
Ordinance #2022

Alderman Albert asked who has the capability in the City to contact our City Attorney and initiate ordinances, and is it a collaboration of people or directions from the Administrator or Mayor? Attorney Stiff commented that he will not tell an individual Council member no and will listen to an individual Council member that asks him to do something, but he will consult with the City Administrator before moving on the request. Alderman Albert asked Attorney Stiff if that is all elected officials or just the Council members? Attorney Stiff commented that he has been consulted by the City Clerk in the past and has answered her questions since he feels he is obligated to answer her legal questions. Alderman Albert commented that the key word is transparency, and he wanted to make sure no individual is taking it upon themselves to make an ordinance and put it on the agenda without a discussion. Attorney Stiff stated that the City Administrator would always be consulted before moving forward.

CITY ADMINISTRATOR: Interim City Administrator Tony Graff congratulated Blaine Wing on the position and looks forward to working with him during the transition.

Interim City Administrator Tony Graff gave an update on his memo the Council had received.

He explained the details and the quote were included in the packet to the Council. The discussion included inquiries from Council members regarding the mower's use, warranty details, and whether it was specifically allocated in the budget. Interim Director Hansen clarified that the equipment was mentioned during the budget process, and it is specifically in the budget, aimed at enhancing the efficiency of the ground's maintenance crew.

Interim Director Hansen emphasized the efficiency that the new equipment would bring, especially for large surface areas, such as around the city hall building. It was highlighted that the wing mower, being an attachment to an existing tractor, would significantly cut down on the time required for such maintenance tasks by 50 percent, and be useful for mowing ditches. She also asked who chose what residents would be tested and asked who decided that the chosen residents would get a \$50.00 discount on their water bill, when the Council never approved that \$50.00 discount, which is taxpayer dollars?

Interim Public Works Director Hansen stated that he cannot answer a question regarding the list that was given before his time here with the City of Crest Hill. He then explained that two tests a year are needed to be done for the IEPA, and one test was done at the beginning of the year but since his arrival at the City he had to scramble to get the second test done before the deadline, and stated the list was not done correctly.
