

Agenda Memo

Crest Hill, IL

Meeting Date: 10-12-26
Submitter: Deputy Chief Ryan Dobczyk
Department: Police Department
Agenda Item: Approval request to approve bid for one new Motorola M500 in car camera

Summary: The Crest Hill Police Department recently received one of its budgeted squad cars for the current fiscal year. Each new squad car is equipped with a functioning in-car camera system as a standard component. The CHPD currently utilizes Motorola for both its in-car camera and body-worn camera systems. The new in-car camera installed in the vehicle is the Motorola M500, which provides approximately four times the data storage capacity of the previous system (1 TB compared to 256 GB) and features an upgraded 4K camera.

The M500 is the same in-car camera system the CHPD purchased and implemented last year. We have also been in communication with our grant-writing partner, ACS, regarding the possibility of applying for the ILETSB camera grant. If awarded, this grant could provide funding for future in-car camera purchases.

Recommended Council Action: Approve quote from Motorola for purchase of 1 new M500 in car cameras

Financial Impact: \$12,243.04

Funding Source: Capital Replacement Fund (11-007301)

Budgeted Amount: None

Cost: \$12,243.04
