Summary: During the past few years, the city has invested dollars to improve city's streets. Attached are exhibits giving a visual representation where work has been completed since 2020.

Staff would like to begin engineering work on the locations for the 2026 construction season. The locations are listed below. These locations have been selected based on the city's pavement management program completed in 2021 and currently being updated in 2025 in which analyzed all the city owned streets to provide a pavement rating in order to classify each road segment from a failed to good rating.

Suggested 2026 Locations-Rehabilitation
