§ 15.12.275 VARIATIONS

PURPOSE

The City Council may vary the requirements of the Sign Code. It is the intent of the Sign Code to use variations only to modify the application of the Sign Code to achieve a parity among properties similarly located and classified. Specifically, it is to be used to overcome some exceptional physical condition which poses practical difficulty or particular hardship in such a way as to prevent an owner from using his property as intended by the Sign Code. Such practical difficulty

or hardship must be clearly exhibited and must be as a result of an external influence; it may not be self-imposed.

STANDARDS FOR VARIATIONS

The City Council shall grant a variation to the Sign Code only when it shall have been determined, and recorded in writing, that all of that following standards are complied with:

1. That the property in question cannot yield a reasonable return if the Sign Code Restrictions are enforced without the requested variations.
2. That the plight of the owner is due to unique circumstances; and
3. That the variation, if granted, will not alter the essential character of the locality.

For the purpose of supplementing the above standards, the City Council, in making the determination, whenever there are particular hardships, shall also take into consideration the extent to which the following facts, favorable to the applicant, have been established by the evidence:

1. That the particular physical surroundings, shape, or topographical condition of the specific property involved would result in a particular hardship upon the owner, as distinguished from a mere inconvenience, if the strict letter of the regulations were carried out.
2. The conditions upon which the petition for a variation is based are unique to the property owner for which the variation is sought and are not applicable, generally, to the other property within the same zoning classification.
3. That the alleged difficulty or hardship is caused by the Ordinance and has not been created by any person presently having an interest in the property.
4. That the proposed variation will not impair and adequate supply of light and air to adjacent property or substantially increase congestion in the public streets or increase the danger of fire, or endanger the public safety, or substantially diminish or impair property values within the adjacent neighborhood.
5. That the variation granted is the minimum adjustment necessary for the reasonable use of the land.
6. That the granting of any variation is in harmony with the general purposes and intent of the Sign Code, and will not be injurious to the neighborhood, be detrimental to the public welfare, alter the

essential character of the locality, or be in conflict with the City's Comprehensive Plan.

7. That, for reasons fully set forth in the decision by the City Council, the aforesaid circumstances or conditions are such that the strict application of the provisions of the Sign Code would deprive the applicant of any reasonable use of the land. Mere loss in value shall not justify a variation; there must be a deprivation of beneficial use of land.

In addition, the City Council may impose such conditions and restrictions upon the premises benefited by a variation as may be necessary to comply with the standards established in this Section to reduce or minimize the effect of such variation upon other property in the neighborhood, and to better carry out the general intent of this Ordinance.
