**Subject:** Pedestrian Crossing

Ricky,

As per our conversation, we have purchased the 17 acres located at the corner of South 5<sup>th</sup> and Loop 304 directly across the street from Mimsy's. Our plans are to transform that area to incorporate overflow parking for our patrons as well as provide an picnic park like setting for our outdoor diners that may also include a children play area.

The traffic potential for 5<sup>th</sup> Street is high with the Industrial Park, the baseball and soccer fields as well as the Davy Crockett Park, not to mention the large volume of destination barbecue goers that we see at Mimsy's. We would like to ask that some Pedestrian Crossing signs as well as a painted crosswalk and perhaps speed bumps be placed just north of the parking lot entrances at Mimsy's and the aforementioned corner lot.

Please advise if this is a consideration you could help us with.

Thanks,  
Chuck Spellman
