To the City Council, City of Cosmopolis

My name is Nathan Klisiewicz. My partner Shaya Eppler and I own the home located at 1200 2nd St. Cosmopolis, WA.

On Thursday February 9th 2023 a Mr. Bill Sidor had stopped by our home and briefly informed Shaya that my Mother could no longer reside in the RV we have parked on our property. At that neither of us were aware that we were going against any City codes by having my Mother staying in the RV. I am writing this letter to give more context to the situation in hopes to legally obtain more time to remedy the situation in regards to my enclosed RV Dwelling Permit.

Roughly around June of 2022, Shaya's father became critically ill while residing at his residence in Arizona. With no family present in Arizona and no promising options for a living situation in Arizona, upon his release from the hospital we were left with the only option of moving him in with us as to not end up on the street. At that time my Mother was occupying the only downstairs room in our house that is feasible for a disabled elderly person to reside in. Being that my Mothers health condition is better than Shaya's fathers we moved her into our RV that is parked on our property. This move occurred around the end of June 2022 and from the beginning was intended to only be temporary while we found a permanent residence for my Mother.

My mother and I have tirelessly been searching for another living situation since setting her up in the RV and have yet to have any luck. She is living off of a limited disability income and with today's costs of living it is near impossible to even find an apartment to rent. She is on numerous waiting lists to get into a retirement home and our efforts continue each day.

In an effort to ~~avoid~~ avoid my mother ending up homeless and on the street, I ask that you please consider the above information during your review of my dwelling permit and ideally grant us a bit more time to find a solution.

Thank you very much for your time and consideration.

Respectfully,

Nathan Klisiewicz
