MEMO

To: BZA
From: Randy Mannino/ David Hardegree
CC: Keith Lovell
Date: January 11, 2024.
Re: File # V24-06 **Reduce lot area on two lots for construction of two homes**

The applicant requested a variance to reduce the lot size of the two lots at the November 9th BZA meeting, V23-29. The Board only had (4) members in attendance. By ordinance, all (4) members needed to vote unanimously for an approval. The vote was split 3-1 in favor, so the variance request was denied.

Per Sec. 21.6.2 of the zoning Appeals section of the ordinance:

The concurring four (4) votes of members of the board shall be necessary to reverse any order, requirement, decision or determination of the zoning administrator, or to decide in favor of the applicant on any matter upon which it is required to pass under this chapter or to affect any variation of this chapter.

The applicant has chosen to reapply for the variance in search of a favorable outcome. There have been no changes to the original variance application or request.

Variance application by David Munisteri for property located at 124 and 126 Lee Street, formerly known as 38 Walker Street and zoned R-7 (Single Family Residential). Said properties contain approximately 0.13 acres each.

This variance request is to reduce the minimum lot size for each lot from 7,000sf to 5,695sf (Lot 1A, 124 Lee St) and 5,718sf (Lot 1B, 126 Lee St). Initially, the applicant was able to receive “Density Bonuses” to reduce the lot area if one of the following occurred per Ord. Sec. 6.5.3 (N):

- 1. Submittal of an affidavit certifying that all units will meet certification standards of the EarthCraft House certification program or will be LEED certified homes.*
- 2. Submittal of an affidavit certifying that all units will be clad with exterior finishes of brick, stone, or hard-coat stucco on sixty-seven (67) percent or more of wall surfaces and one hundred (100) percent architectural roofing shingles.*

3. A donation of land to the City of Cartersville for one (1) of the following: community greenway facility including surface trails if directly accessible from the development, or a neighborhood park with public access. In either case, the minimum total area to be donated shall be ten (10) percent of the total acreage of the property. All legally necessary documents, including, but not limited to, a property deed to convey land to the City of Cartersville, shall be completed at time of approval of any final plats.

The applicant chose to certify the homes as Earthcraft Homes in item 1. The cost for doing this was determined to be excessive, so the applicant is seeking relief through the variance process to reduce the lot size to construct the houses. All other zoning regulations can be met.

For reference, there are (4) lots along Lee St from Herring St to Walker St. that are under 5,000sf in area. These lots are on the same side of the street. Area measurements are approximate per QPublic:

41 Walker St: 4,412sf	132 Lee St: 4,359sf
128 Lee St: 4,519sf	134 Lee St: 3,300sf

Lots on the west side of Lee St from Herring St. to Knight St. are a min. 9,000sf in area.

This project was reviewed and approved by the HPC on 8/15/23 per COP23-17. This approval was before the Earthcraft certification costs were known.

The variance request is for the following:

1. To reduce the min. lot size from 7,000sf to 5,695sf for Lot 1A, 124 Lee St; and
2. To reduce the min. lot size from 7,000sf to 5,718sf for Lot 1B, 126 Lee St.

Justification:

Please review the following findings, as stated in the Zoning Ordinance, that are to be utilized in determining justification for approval or denial of variance request(s).

See attached R-7 Zoning District Standards.

Sec. 21.3. - Powers and duties of the board of zoning appeals.

21.3.3. *Variances.* The board of appeals has the power to hear requests for variances from the provisions of this chapter. Variance may be granted only if the board finds all of the following to exist:

A. That one (1) of the following is true, through no action or fault of the property owner or predecessor:

1. The property is exceptionally narrow, shallow or unusually shaped;
2. The property contains exceptional topographic conditions;
3. The property contains other extraordinary or exceptional conditions; or
4. There are existing other extraordinary or exceptional circumstances; and

B. That the strict application of the requirements of this chapter would result in practical difficulties to, or undue hardship upon, the owner of this property; and

C. That the requested variance relief may be granted without substantially impairing the intent and purpose of this chapter.

Variance decisions shall be issued in writing within ten (10) business days of the hearing.

21.3.4.

Conditions. In granting a variance, the board of appeals may attach such conditions regarding the location, character and other features of the proposed building, structure, property, development standards or use as it may deem advisable so that the purpose of this chapter will be served, public safety and welfare secured and substantial justice done.

STANDARDS FOR EXERCISE OF ZONING POWERS.

1. *The existing land uses and zoning of nearby property.*
The surrounding properties are zoned for residential and used for that purpose.
2. *The suitability of the subject property for the zoned purposes.*
The property is suitable for the zoned purposes.
3. *The relative gain to the public, as compared to the hardship imposed upon the individual property owner.*
The public gain would be minimal. A variance approval would allow the property owner to construct houses on two vacant lots.
4. *Whether the subject property has a reasonable economic use as currently zoned.*
The property has a reasonable economic use as currently zoned.
5. *Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.*
The proposed variance would have no affect on the use of the subject or adjacent properties. Adjacent properties are under 5,000sf in lot area.
6. *Whether the proposed zoning will adversely affect the existing use or usability of adjacent or nearby property.*
The proposed variance will not have an adverse effect on the existing use or usability of adjacent or nearby property.
7. *Whether the zoning proposal is in conformity with the current future development plan and community agenda of the comprehensive land use plan as currently adopted or amended in the future.*
The proposed variance has no impact on the Future Development Plan or Comprehensive Plan.
8. *Whether the zoning proposal will result in a use which will or could adversely affect the environment, including but not limited to drainage, wetlands, groundwater recharge areas, endangered wildlife habitats, soil erosion and sedimentation, floodplain, air quality, and water quality and quantity.*
No adverse environmental impact is anticipated.
9. *Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.*
The proposed variance will not increase the burden to streets, transportation, or utilities.

10. *Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.*

There are no known conditions.
