Re: File # V24-04

Summary: To allow a privacy fence in the front yard of a double frontage lot.

### **Section 1: Project Summary**

Variance application by applicant, Alvair Krahembohl, for property located at 13 Jackson Farm Road, zoned P-D, Planned Development. Setbacks are Front- 20ft, Rear- 20ft and Side- 10ft. Said property contains approximately 0.24 acres. The lot is a double frontage lot with frontages along Jackson Farm Rd., and Doubletree Path.

The applicant has constructed a privacy fence to enclose the property to the rear of the home along a section of the Doubletree Path right-of-way. The fence ordinance, Sec. 4.16, requires privacy fences to be installed behind the front yard setback, less than 4ft tall, and non-opaque in a front yard.

### The variance request is for the following:

1. To allow an 6ft. privacy fence to remain in the front yard of a double frontage lot (Sec. 4.16).

# **Section 2. Department Comments**

**Electric Department:** Takes no exception.

Fibercom: Takes no exception.

**Fire Department:** Takes no exception.

Gas Department: Takes no exception.

**Public Works Department:** Takes no exception.

Water Department: Takes no exception.

### Section 3. Public Comments Received by Staff

None received as of 1/2/2024.

## **Section 4. Variance Justification:**

Please review the following findings, as stated in the Zoning Ordinance, that are to be utilized in determining justification for approval or denial of variance request(s).

### Sec. 4.16. - Fences and walls.

## A. In all zoning districts:

- 1. No fence or wall shall constitute an obstruction to the vision for or create a hazard to vehicular traffic.
- 2. No fence or wall, including retaining walls, shall be constructed of exposed concrete block, tires, junk or other discarded materials.
- 3. The fencing standards as stated in this section shall not apply to fencing for detention ponds.
- 4. The wall standards as stated in this section shall not apply to retaining walls approved by the plan review process for planned developments.

# B. In all residential and commercial zoning districts:

- 1. Any fence or wall which extends into the front yard shall be ornamental or decorative, and shall not be opaque. Any such fence or wall may be constructed of brick, stone, wood, wrought iron, split rail, or other decorative material as approved by the zoning administrator.
- 2. Fences and walls shall not exceed four (4) feet in height in a front yard and shall not exceed eight (8) feet in height in a side or rear yard.
- 3. Chain-link fencing material may be used in the front yard with prior approval of a variance by the board of zoning appeals. No variance is required if chain link fencing material is used in a side or rear yard.

- 4. For a corner lot or double frontage lot, a screening or opaque fence may be installed to the rear of the principal structure at a maximum of eight (8) feet in height provided that the fence shall be located behind the required front yard setback and shall not be located adjacent to or abutting a collector or arterial street.
- 5. Razor wire (ribbon) shall be prohibited.
- C. In all industrial zoning districts:

Fences or walls shall not exceed (8) feet in height in front, side and rear yards.

### Sec. 21.3. - Powers and duties of the board of zoning appeals.

The board of zoning appeals shall have the following powers and duties:

- 21.3.1. Appeals. To hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by the zoning administrator in the enforcement of this chapter. Appeals to the board of appeals may be taken by any person aggrieved or by any officer, department, board, or agency of the City of Cartersville affected by any decision of the zoning administrator. Such appeal shall be taken within thirty (30) days of said decision by filing with the zoning administrator a written notice of appeal specifying the grounds thereof. Decisions on appeals shall be issued in writing within ten (10) business days of the hearing on the appeal.
- 21.3.2. Continuance of a nonconforming use. The board of zoning appeals may allow a nonconforming use to be reestablished after discontinuance for twelve (12) consecutive months. The procedure for the request shall be the same as if it was a variance. If it is deemed by the board of zoning appeals that one (1) or more of the following apply, the board may grant said request.
  - A. The design, construction, and character of the building is not suitable for uses permitted in the district in which the nonconforming use is situated; and
  - B. Undue hardships to the property owner would result in not allowing the building to be reopened for a nonconforming use; and
  - C. Adjacent property would not be unduly damaged by such use of the building; and
  - D. The use is to be identical or similar to the prior nonconforming use of the building.
- 21.3.3. *Variances*. The board of appeals has the power to hear requests for variances from the provisions of this chapter. Variance may be granted only if the board finds all of the following to exist:
  - A. That one (1) of the following is true, through no action or fault of the property owner or predecessor:
    - 1. The property is exceptionally narrow, shallow or unusually shaped;
    - 2. The property contains exceptional topographic conditions;

- 3. The property contains other extraordinary or exceptional conditions; or
- 4. There are existing other extraordinary or exceptional circumstances; and
- B. That the strict application of the requirements of this chapter would result in practical difficulties to, or undue hardship upon, the owner of this property; and
- C. That the requested variance relief may be granted without substantially impairing the intent and purpose of this chapter.

Variance decisions shall be issued in writing within ten (10) business days of the hearing.

- 21.3.4. *Conditions*. In granting a variance, the board of appeals may attach such conditions regarding the location, character and other features of the proposed building, structure, property, development standards or use as it may deem advisable so that the purpose of this chapter will be served, public safety and welfare secured and substantial justice done.
- 21.3.5. Limitations on variances; improper variance requests. Variances cannot be given to totally remove a requirement or to exempt a property or applicant entirely from a requirement. If a variance is being sought that is, in the judgment of the zoning administrator, a request that would constitute a text amendment, then the application shall not be accepted. The applicant shall instead be directed to file for a text amendment. Furthermore, the board of appeals shall not be authorized to grant a density variance or a use variance to permit a use in a district in which the use is prohibited. A variance application shall not be accepted if the variance seeks something that cannot be varied. A variance application shall not be accepted if the variance is contradictory to the ordinance.
- 21.3.6. *Self-inflicted hardship*. The board shall not grant variances when the hardship was created by the property owner or his predecessor, and shall not grant hardship variances based on shape or topography for lots of record not existing prior to November 7, 1996. Configuring a subdivision to create lots that are difficult to build is an example of a hardship created by the property owner or predecessor, that does not justify a variance.

#### STANDARDS FOR EXERCISE OF ZONING POWERS.

- 1. The existing land uses and zoning of nearby property.

  The surrounding properties are zoned residential.
- 2. The suitability of the subject property for the zoned purposes.

  The property is suitable for the zoned purposes.
- 3. The relative gain to the public, as compared to the hardship imposed upon the individual property owner.

The public gain would be minimal.

- 4. Whether the subject property has a reasonable economic use as currently zoned.

  The property has a reasonable economic use as currently zoned.
- Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.
   The proposed variance would have no affect on the use of the subject or adjacent properties.
- 6. Whether the proposed zoning will adversely affect the existing use or usability of adjacent or nearby property.
  - The proposed variance will not have an adverse effect on the existing use or usability of adjacent or nearby property.
- 7. Whether the zoning proposal is in conformity with the current future development plan and community agenda of the comprehensive land use plan as currently adopted or amended in the future.
  - The proposed variance has no impact on the Future Development Plan or Comprehensive Plan.
- 8. Whether the zoning proposal will result in a use which will or could adversely affect the environment, including but not limited to drainage, wetlands, groundwater recharge areas, endangered wildlife habitats, soil erosion and sedimentation, floodplain, air quality, and water quality and quantity.

  No adverse environmental impact is anticipated.
- Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.
   The proposed variance will not increase the burden to streets, transportation, or utilities.
- 10. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.
  - There are no known conditions.

### Justification Letter

This is a new neighborhood, and it is my dream home. I waited for a corner lot to be available because I have a trailer (utility 5 x 8 ft) and also my hobby stuff to storage.

I moved from another County (Clarke) to Bartow to be closer to my workplace, in my previous County they didn't have the same Ordinances, so I was not aware about it.

Before I hired a company to build my 6 ft fence, I got all approvals necessary according to the Jackson Farm Community Guide. I prepared a drawing making sure that my fence will not obstruct the traffic view and sent it to HOA approval, also I called 811 to check if my fence lines is not close to any utilities pipes or cables, only after all approvals I bult the fence. (all drawings and initials approval are on the attachments.

Near to my house there is still a lot of construction work. This area is still under development and a lot of trucks and machines around, they use the side of my house as parking lot, the fence gives me more privacy and sense of security.

After the fence was built, I also built a shed ( $10 \times 12$  ft) the HOA does not allow sheds without fence. It is all already installed. I add some pictures on the attachments.

My fence does not obstruct the traffic view at all.

I also don't have the financial means of being able to relocate my fence.

With all being explained, I would like to ask you to approve the Variance on my case.

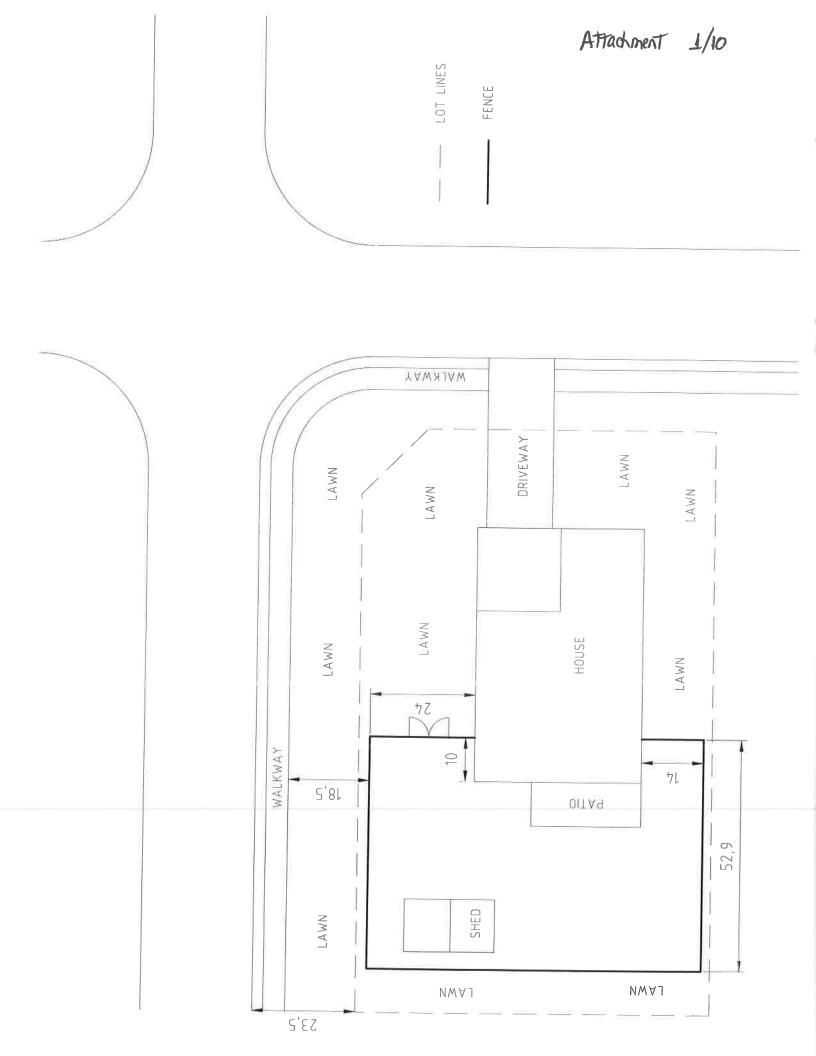

Respectfull

RE: Fence

Dear Alvair L. Krahembuhl,

On behalf of Jackson Farm Community Association, I'm writing you today to notify you of the decision of the Board of Directors. We appreciate your cooperation in submitting this Request. Your request was approved. Specifically, your request for the following change:

Fence is approved with one stipulation. The fence can come no further forward than 10' from the back corner of the home.

The Board reserves the right to make a final inspection of the change to make sure it matches the Request you submitted for Approval and the conditions are met.

If you have any questions, please don't hesitate to give us a call.

Sincerely,

Jeff Hope, CMCA, AMS Action Community Management Agent of Jackson Farm Community Association
