

## CITY COUNCIL ITEM SUMMARY

<b>MEETING DATE:</b>	September 21, 2023
<b>SUBCATEGORY:</b>	Bid Award/Purchases
<b>DEPARTMENT NAME:</b>	Fire Department
<b>AGENDA ITEM TITLE:</b>	2004 Pierce Aerial Repairs
<b>DEPARTMENT SUMMARY RECOMMENDATION:</b>	Respectfully request approval of repairs to be made to our reserve 2004 Pierce Aerial Apparatus for the auto leveling of the aerial bucket. The auto leveling hydraulic motor is no longer supplying fluid to assist in leveling the bucket while it is in operation. This in turn is causing the bucket to pitch forward or backward at an extreme angle and the firefighter in the bucket to become unstable. Therefore, causing the bucket to be unsafe to operate. We have received a quote for parts and labor for repairs from Ten-8, our single source provider for Pierce Fire Apparatus for a total of \$9,218.66. The repair is budgeted and will be covered under vehicle maintenance.
