

## CITY COUNCIL ITEM SUMMARY

<b>MEETING DATE:</b>	March 21, 2024
<b>SUBCATEGORY:</b>	Grant Application/Acceptance
<b>DEPARTMENT NAME:</b>	Public Works
<b>AGENDA ITEM TITLE:</b>	2024 LMIG Paving Contract – Supplemental Grant/Additional Roads
<b>DEPARTMENT SUMMARY RECOMMENDATION:</b>	<p>In 2023, Public Works awarded our annual resurfacing contract for FY-24 to the lowest bidder, Bartow Paving, Cartersville, GA for \$1,260,375.92. Bartow Paving began working on the current resurfacing contract last week. The proposed project consists of resurfacing 5.72 miles of city streets which is enough mileage to keep the paving program on a 25-year cycle to pave all roads in the city.</p> <p>Late last week the Georgia Department of Transportation officially notified the City of Cartersville that we are eligible for \$385,998.00 in supplemental LMIG grant money with no local matching funds required. Public Works is requesting the mayor’s signature on the grant application and associated documents. In addition, we recommend approval of budgeting an additional \$100,000.00 beyond the total grant amount to take advantage of the relatively low unit prices currently contracted with Bartow Paving.</p> <p>The list of streets to resurface on this contract are Summit Street, Thornwood Drive, Southview Drive, Jones Street, Ruby Street and Mayflower Circle. The total mileage of the supplemental roads is 1.77 miles bringing the total mileage for our annual resurfacing contract 7.49 miles. Based on the quantities utilized we will make minimum adjustments, as needed, to stay below an amount not to exceed the cost of \$485,998.00.</p>
