1. During service water and weather conditions must be safe.
2. Tank must be full at time of inspection and/or cleaning. Failure to have tank filled will result in a charge of \$375 per hour while crew waits for proper water level for service.
3. Tank must be accessible for a truck and 16-foot trailer, and must have proper safety ladders and climb protection.
4. Tanks must have entry hatch minimum 24" square with internal and external ladders. Additional costs for tanks without internal ladders.
5. Tank must be free from insects. Should conditions exist that prohibit the service team from gaining access to a tank, a charge of 50 percent of the service fee plus mob/demob will be applied.

6. If any information provided to us is incorrect or if any problems exist that inhibit our ability to complete the job on a timely schedule, then we will notify you of the problem and reserve the right to add on to the quote based on our estimate of the additional time it will take to complete the work. Time delays are based on \$250 per hour. If this situation arises, you will be notified of the problem prior to our completing the work. This paragraph only applies to any problems that are your responsibility and does not apply to any potential problems that we may encounter with our equipment or with our ability to complete the job.
7. Placement and disposal of effluent removed from the reservoir disposed of at direction of utility

NOTIFICATION: It is the utility's responsibility to notify state regulatory agencies. If you wish for us to make that notification, please advise us at least two weeks prior to start of work.

AWWA's C652-92 *standard*..requires that equipment, including divers in rubber suits, be sprayed with a chlorine solution of no less than 200 ppm before being introduced into potable water reservoirs.

DISINFECTION: The formula SE Diving uses is: no less than 4 oz. of a six (6) percent chlorine bleach per two gallons of water to form our disinfectant solution at a minimum strength of 200 ppm.. All equipment used in potable water tanks is reserved solely for use in potable water and is not used in other applications.

Our inspection procedure includes the following checklist:

Exterior Ladder	Exterior Reservoir Overall Appearance & Condition
Entry Hatch	Side Vents & Screens
Interior Ladder	Roof Vents & Screens
Floor and Coating	Interior Walls and Coating
Installed Sensors	Manual Level Indicator
Chlorine Injection System	Floor-to-Wall Seams
Overflow	Fill/Discharge
Man Entry	Scour/Drain
Cathodic Protection	Water Tap
Ceiling	Floor Seams and Integrity of Previous Repairs
Support Columns	Measurement and Sampling of Bottom Sediment or Debris

INSURANCE: SE Diving provides \$1 million in general liability insurance for our mutual protection. Higher limits may be furnished at additional costs.

TERMS: Net 10 days upon completion of project. Accounts not paid within twenty (20) days of billing will accrue interest at the maximum legal rate. In the event collection procedures are instituted to secure payment of any debt created hereunder, applicant hereby agrees to pay all costs of collections, including reasonable attorney's fees.
