

CITY COUNCIL ITEM SUMMARY

MEETING DATE:	January 22, 2026
SUBCATEGORY:	Bid Award/Purchases
DEPARTMENT NAME:	Water
AGENDA ITEM TITLE:	Water Tank Inspections and Cleaning
DEPARTMENT SUMMARY RECOMMENDATION:	The city's four water storage tanks are inspected every five years. Historically this has been performed manually by either draining each tank, or more recently by divers entering full tanks. The Water Department solicited quotes for remote operated vehicle (ROV) inspections for the current cycle. The lowest bid from SE Diving Services, LLC is for \$33,735.00. This includes ROV inspections with video and photo reports, in addition to pressure washing the exterior of the two concrete tanks at Center Road and Tank Hill. I recommend approval of this service. This is a budgeted maintenance item.
