3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

Participating Entities reserve the right to inspect the Equipment and Products at a reasonable time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. If a Participating Entity issues a purchase order, it may use its own forms, but the purchase order should clearly note the applicable Sourcewell contract number. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM. Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. SPECIALIZED SERVICE REQUIREMENTS. In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Sourcewell, including its agents and employees, will not be made a party to a claim for breach of such agreement.

D. TERMINATION OF ORDERS. Participating Entities may terminate an order, in whole or in part, immediately upon notice to Supplier in the event of any of the following events:

The Administrative Fee must be included in, and not added to, the pricing. Supplier may not charge Participating Entities more than the contracted price to offset the Administrative Fee.

The Supplier will submit payment to Sourcewell for the percentage of administrative fee stated in the Proposal multiplied by the total sales of all Equipment, Products, and Services purchased by Participating Entities under this Contract during each calendar quarter. 40	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcwell participating entities. 41	Describe any technological advances that your proposed products or services offer.	<p>At Musco, our approach is more than just selling and installing poles and fixtures. We are in the business of selling the right amount light, on and off the facility, for the least amount of cost over the life of the warranty. We work closely with the owner and their consultants to gain a full understanding of the facility, its use and surroundings.</p> <p>Musco's Light-Structure System™ has delivered long-term performance for thousands of customers around the world. Lights, structures, and electrical components are engineered to work together. This assures the designed lighting gets in the place and stays there over the life of the system, while also maintaining and protecting the operating environment so the components continue to function. We have included features like easy to reach remote drivers, integrated grounding, and surge protection to ensure the longevity of the LED's sensitive electronic components.</p> <p>For over a decade, the Musco Team has been testing the LED light source and applying it on projects where it was the best choice. We have researched LED's distinctive challenges and advantages and applied our knowledge of light control to the unique characteristics of the diode, assuring the quality of lighting for which Musco is known. We have paired our expertise in controlling light with the advancing output of LED to the point that we are confident it's a cost-effective option to consider for recreational facilities. Musco creates controlled light, not floodlights.</p> <p>LED brings many benefits and new opportunities, but it's a tool, not a solution. Controlling LED's intense light is challenging. But with Total Light Control – TLC for LED®, we are able to achieve things never before possible – from pinpoint precision to instant on/off, to varying light levels for different needs and sport presentation theatrics (choreographed light & music shows). With the ever-evolving sports and recreation landscape Musco continues to push boundaries in the marketplace.</p> <p>The key issue in sports lighting haven't changed: generating light, projecting it onto the target, keeping it out of the neighborhood and night sky, and creating an operating environment that allows it to last in real world conditions. Musco is able to carve out the area to be lighted and dramatically cut off any impact on the surrounding area. We use more of the light produced by the fixture, lose less light, and don't abuse the neighborhood.</p> <p>With cities and recreational needs growing faster than ever, it's critical to maximize the available resources and make solid decisions about managing and expanding facilities. The Control-Link® System is a reliable, cost-effective control system that helps control, monitor, and manage recreation facility lighting. It can control existing lighting systems and other electrically operated equipment. Whether for new lighting systems or to upgrade existing lights, the Control-Link® system includes our Control-Link Central™ team, the on-site Control-Link® equipment, and an industry-leading warranty. Our exclusive Control-Link Central™ team is staffed 24/7 to assist with your scheduling and reporting needs.</p> <p>Musco's Light-Structure System™ with Total Light Control – TLC for LED® is backed by an industry-leading 25-year warranty. Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcwell Price and Product Change Request Form.

Line Item	Question	Response *
57	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcwell discounted price) on all of the items that you want Sourcwell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Musco Sports Lighting provides a custom designed, engineered to order lighting system, pricing is based per the RFP. This price list should not be considered complete and exhaustive due to the nature of each project being a unique, custom design build situation. Extreme spill and glare concerns, pole locations, and wind zone variance may affect price. RFP quoted pricing is for the most common field designs based on structural code and utilizing IBC 2018, 110 mph, Exposure C. Installations services are available on a per project basis dependent upon Musco's compliance with state and local licensing requirements. Labor and materials for the complete installation, including foundations, pole erection, trenching, backfill, conduit, wire, electrical distribution and service cabinet(s) and site restoration shall utilize the current RS Means pricing, coefficient and must also include the appropriate City Cost Index.
58	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The percentage discount from list prices for materials offered under this RFP is 5%. The attached price list already takes into account the 5% discount for the materials.
59	Describe any quantity or volume discounts or rebate programs that you offer.	As Musco is a custom designed, engineered to order lighting system, there is no quantity or volume discounts available.
60	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	Musco Sports Lighting, LLC will work with the Sourcwell member regarding pricing and delivery of any open market, sourced and/or non-standard options which would be desired by the Sourcwell member. Musco and the Sourcwell member will agree upon a desired outcome and reflect this in the customer quote for use in issuing a purchase order.
61	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	As Musco is a custom designed, engineered to order lighting system, pricing is based per the RFP. The pricing can also include equipment installation. Labor and materials for the complete installation include, foundations, pole erection, trenching, backfill, conduit, wire, electrical distribution and service cabinet(s) and site restoration shall utilize the current RS Means pricing, coefficient and must also include the appropriate City Cost Index. If the construction project requires, Musco offers pre-shipment of the precast concrete bases. The additional cost for the pre-shipment of the precast concrete bases will vary depending on the location of the lighting project.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *
66	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	A self-audit process is in place specifically intended to verify compliance of cooperative purchasing contracts. <ul style="list-style-type: none"> Sales Administrator pulls monthly contract sales report for the cooperative purchasing contract and its associated fee for that time period. Each contract project PO is checked and validated that it is an awarded contract purchase Project awarded contract fee is validated as correct When validation complete, report sent to cooperative purchasing organization As a checks & balance process, Cooperative Contract Specialist pulls a Method of Purchase by type report on a quarterly basis and a comparison is done with quarterly contract sales reports to ensure totals for an awarded contract matches on both reports Invoice documents for projects of a contract member are available for review upon request
67	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	On a monthly basis, Musco is looking at the total number of projects sold & how they breakdown by method of purchase (bid, competitive negotiation, cooperative purchase & direct purchase). Several times during the year, we break down the method of purchase by each cooperative purchase contract. These numbers are compared to the previous timeframes and evaluated.
68	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Musco Sports Lighting, LLC proposes a 0.75% administrative fee calculated as a percentage of the customer contract sales price.

73	Describe your process for evaluating on-field and off-site glare for your sports lighting products, both pre-installation and post-installation.	<p>On-field – Musco's goal is to have no more than 500 candela at the home plate location while looking at the outfield poles. Similarly, our outfield positions will have no more than 500 candela while looking at the infield poles.</p> <p>Off-site – Musco strives to achieve candela equal to or less than 7,500 candela at 150' perimeter around the field. Candela is measured at 5' above grade at 150' perimeter.</p>
74	Describe the average life span of your sports lighting system.	In 2005, Musco started our Musco Constant 25™ or Musco Constant 10™ Product Assurance & Warranty Programs (coverage depends on the lighting system and the original design criteria). Musco has several lighting systems that are over 35 years old that are still in operation today.

75	Discuss your proposed product line in terms of sustainability and recycling.	<p>Musco is committed to excellence and leadership in the protection of the environment, and the implementation of sustainable guidelines. The reduction of waste and emissions, to an absolute minimum, is our policy. We will minimize the emissions to air, water, and land through programs to reduce pollution prevention at its source and will conserve energy through the use of our energy efficient lighting systems. During the spot maintenance and complete system relamping, all the lamps are recycled through a recycling service where both the mercury and glass are salvaged. Musco developed reusable packaging that is used to move its reflectors from original fabrication through the complete manufacturing process. • Musco aims to reduce, reuse and recycle whenever possible from the production process to the customer. Musco's on-site waste management includes recycling plant scrap, and wooden skids, along with paper and packaging materials. Packaging product utilized with Musco's Light-Structure System™ contains between 30 to 50 percent recycled material, depending on the type of packaging. • Electronic components that are not re-usable due to equipment failure, or are below minimum requirements, are recycled through an E-Waste Facility, including: laptops, desktops, servers, network devices, computer screens, televisions, keyboard, computer mouse, and printers. <p>Conserve</p> <ul style="list-style-type: none"> • Musco reuses water during the manufacturing process and conserves water when applicable. We utilize geothermal heating and air conditioning, which minimizes electricity consumption. Our operations also have automatic toilets and faucets to maximize water usage. • Musco conserves energy and reduces light pollution through our permanent and temporary LED light sources that are 30 to 80 percent more energy efficient than traditional lighting equipment. • Musco's Control-Link® system provides instant light automation, allowing customers to schedule our light systems that help maximize energy efficiency. • Preventing pollution by eliminating or reducing the use of hazardous substances, and reducing greenhouse gas emissions, is a first priority. • Technologies or methods which utilize non-hazardous materials and source reduction approaches will be given top priority in addressing all environmental issues. • Musco demonstrates corporate citizenship by following all federal, state, and international environmental regulations. • We promote cooperation between industry, government and the public for the shared goal of pollution prevention at the source, as well as continuing sustainable practices throughout all of our operations worldwide. • As part of our commitment towards social responsibility, we will create job opportunities and training for the local workforce. • Our team strives to create responsible sustainability standards that translate into generating a positive and lasting change in every community that we encounter. <p>In addition to the above, Musco's LED fixtures are RoHS compliant.
