

20" BLADE

- An easy-to-manuever 62 lbs.
- Powered by Milwaukee M18/M28 batteries
- 12,550 cfm
- Ergonomic handle and 180° tilt!
- Up to 50 min. run time

1

Compact, Roll-Cage Aluminum Frame:
Features one of the most compact, lightweight PPV designs

4

Polymer Blade:
Minimizes weight; Super Vac's single-piece cast aluminum blade is available by request

7

180-Degree Tilt:
Provides the largest tilt range among battery fans, allowing airflow to be directed virtually anywhere

2

Curved Handle:
Folds into the frame for compact storage; curved design provides higher grip for better ergonomics

5

Stream Shaper Guard:
Allows flexible setback; Air Cone Guard is available by request [See the difference >](#)

8

Milwaukee REDLITHIUM 18V HIGHOUTPUT Batteries:
Provides up to 50 minutes of max airflow, depending on battery selection

3

Flat-Proof Rubber Tires with Skid Plates:
Creates a highly maneuverable fan, even on stairs; easy for all firefighters to position

6

Standard Shore Power:
120-240V AC operation turns your Milwaukee cordless fan into an electric-powered fan for even more versatility. Note: Shore power does not charge batteries; however, the Milwaukee fan can run on a single battery.

9

LED Light:
Provides light for firefighters and assists seeing the fan in smokey room.
