

## CITY COUNCIL ITEM SUMMARY

<b>MEETING DATE:</b>	October 6, 2022
<b>SUBCATEGORY:</b>	Engineering Services
<b>DEPARTMENT NAME:</b>	Water and Sewer / Public Works
<b>AGENDA ITEM TITLE:</b>	Leake St and Erwin St Engineering Services Sanitary Sewer Design
<b>DEPARTMENT SUMMARY RECOMMENDATION:</b>	<p>In December 2021, Public Works received approval from Mayor and Council to proceed with engineering design of the storm system in the Leake Street and Erwin Street areas that have experienced localized flooding. This design is currently being completed by Consolidated Technologies, Inc (CTI). As a result of design and additional field work, it has been discovered that the sewer system in this area that intersects the storm system needs replacing.</p> <p>CTI has submitted an amendment to perform the engineering services for this sewer replacement. This will be in conjunction with the engineering services they have already provided for the storm improvements. This amendment will be paid out of the American Rescue Plan Act (ARPA) Funds. This is not a budgeted item, but it has been determined that these services would qualify for ARPA funding.</p> <p>The attached amendment agreement from CTI includes the development of civil documents for the sewer upgrade and construction administrative services for this project.</p> <p>The agreement for these additional services is \$9,700. The City of Cartersville Public Works and Water and Sewer Departments recommend approval of this agreement.</p>
