M500 IN-CAR VIDEO SYSTEM LICENSE PLATE RECOGNITION (LPR) – SOLUTION DESCRIPTION

DESCRIPTION

Safety is your primary concern. You have to ensure that every officer has the best possible information before engaging with a suspect. And a vehicle’s license plate can unlock critical data to inform your response to a situation.

The M500 in-car video system has powerful License Plate Recognition (LPR) capabilities, and is carefully integrated with our market-leading Vigilant LEARN LPR platform. The M500’s 120-degree 4K front camera can capture license plate and vehicle make/model information in up to three lanes of traffic simultaneously, while moving at up to 70mph. The process is completely automated, with no requirement for interaction with the camera or software. Officers can concentrate on other important tasks, while the M500 continuously scans its environment.

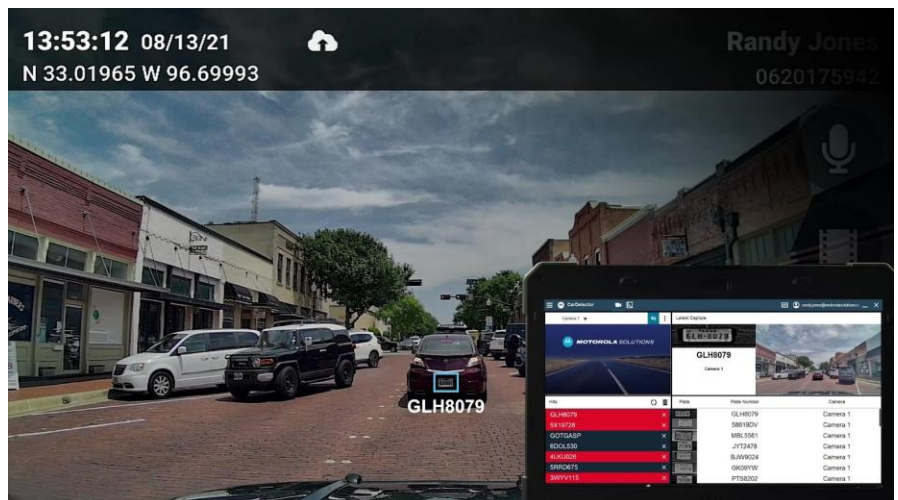

DETAILS

The M500 in-car video system is designed around a high-power processing core optimized for AI applications such as LPR. Using a high-accuracy OCR algorithm, the 4K front camera sensor can capture multiple license plates moving at normal highway speeds from up to 40 feet away.

The M500 is not recommended for high-speed (>70 mph), long-range or high-throughput LPR applications, or where target vehicles will not be visible through the front windshield. For these situations we offer our L5M purpose-designed mobile LPR camera.

The M500 system connects to CarDetector Mobile (CDM) software running on your in-car Mobile Data Terminal (MDT). CDM gives officers a convenient dashboard, showing the video stream(s), recently-captured license plates and recent “hits”. It can be configured to give visible and audible alerts whenever a plate matches an entry on a hotlist. Hotlists can be agency-owned or shared.

You also have access to the market-leading Vigilant PlateSearch application, for analysis of LPR data captured by agency cameras. Optionally, you can extend this to include LPR data from neighboring agencies and commercial customers.

Purchase Order Checklist

Marked as PO/ Contract/ Notice to Proceed on Company Letterhead
(PO will not be processed without this)

PO Number/ Contract Number

PO Date

Vendor = Motorola Solutions, Inc.

Payment (Billing) Terms/ State Contract Number

Bill-To Name on PO must be equal to the *Legal* Bill-To Name

Bill-To Address

Ship-To Address (If we are shipping to a MR location, it must be documented on PO)

Ultimate Address (If the Ship-To address is the MR location then the Ultimate Destination address must be documented on PO)

PO Amount must be equal to or greater than Order Total

Non-Editable Format (Word/ Excel templates cannot be accepted)
