

**Appeal of
Decision by the
Historic Preservation Commission
to City Council**

MEMO

To: City Council
From: Randy Mannino/David Hardegree
CC: Keith Lovell
Date: May 26, 2021
City Council meeting: June 3, 2021
Re: COP21-13. Appeal of HPC decision denying painting of unpainted brick

Following the appeal of the Womack residence painted brick situation at 716 West Avenue in April 2018, City Council requested that the HPC and staff review the city ordinance and design guidelines to recommend improvements to sections that were vague, ambiguous, or conflicted with other sections or guidelines, specifically pertaining to unpainted brick. Staff and HPC did this and provided a text amendment, T20-01, for review. The State Historic Preservation Office also reviewed the amendments and made comments that were incorporated into the final draft. City Council adopted the text amendment on 3-5-2020.

The original language that generally stated unpainted brick “should not” be painted, coated or waterproofed was revised to state that “one shall not” paint, coat or waterproof unpainted brick without approval from the HPC. This language clearly restricts the painting of unpainted brick, but allows the HPC to approve variances to paint or apply other treatments to unpainted brick when hardships exist as defined by Ordinance Section, 9.25-34 *Application to preservation commission for certificate of preservation, Section K, Undue Hardship*.

In reviewing this COP application at the regular meeting of the HPC on May 18th and holding a public hearing on the application, the Commission found that no undue hardship existed and denied the applicants’ request to paint the unpainted exterior brick which includes the entire house constructed c1939. The applicants are appealing the Commissions’ decision.

Hey David,

Abby and I would like to be added to the city council's agenda next week on Thursday June 3rd, to appeal the HPC's decision regarding the painting of our brick on South Ave.

Please let me know if you need anything from us.

Thank you for your help,

Clark and Abby Holden

Historic Preservation Commission Meeting
10 N. Public Square
May 18, 2021
5:30 P.M.

I. Opening Meeting

Call to order by Chairman Frisbee

Present: Greg Frisbee, Becky Carr, Jeff Glover, Brad Galland, Lynne Pritchett, Larry Gregory, and Vandi White

Staff Present: David Hardegree, Samantha Fincher, Meredith Ulmer, and Keith Lovell

Absent:

1. Call to Order

Chairman Frisbee announced a Work Session would be held after the meeting to discuss eligible items for administrative review.

2. Approval of Minutes

Chairman Frisbee called for a motion to approve the minutes of the last meeting. Board Member Pritchett made a motion to approve the meeting minutes from April 20, 2021. Board Member Carr seconded motion. Motion carried unanimously. Vote: 6-0.

3. New Business:

A. COP21-12 23 Etowah Drive Applicant: Ivan and Leah Phillips Scope: New front steps, new garage door, replace driveway and paint brick

Chairman Frisbee called for the next item on the agenda. Meredith Ulmer, Assistant City Planner stated the applicant would like to make exterior changes to the home, which include an addition of brick stairs, a variance to paint brick exterior, and removal of the metal fence. This home is contributing.

Chairman Frisbee opened the floor for discussion.

The Applicants, Ivan and Leah Phillips came forward to answer questions from the Board. Mrs. Phillips stated that the original home sat at 200 West Main Street. In 1961, the home was moved to 23 Etowah Drive. The center of the home is the original home and the brick wings were added later. They wish to paint the brick exterior to make the home look uniform.

Keith Lovell, Assistant City Attorney informed the applicants they will need to contact Public Works for the approval of the driveway.

The Architect for the project, James Macht came forward in favor of the application and stated this is “new brick” and not the porous brick that was used 100

years ago. Mr. Macht referenced other homes in the district that had painted brick recently.

The Board discussed that most of the work referenced was completed without approval from the Historic Preservation Commission and is subject to fines. The provided drawings for the project included brick piers/fencing that were not mentioned in the write up. Mr. Macht stated that the fence and piers are in the preliminary stage and can be revisited. Board member Glover asked for design solutions be submitted for review at a future date.

Abby Holden, 125 South Avenue came forward in favor of the application.

Board Member Glover made a motion to approve the following: addition of brick stairs, replacement of the asphalt driveway, removal of the chain link fence, and replacement of the garage and doors on rear of home with mahogany doors. The motion omitted the painting of the exterior brick. Board Member Pritchett seconded the motion.

Mr. Lovell asked Board Member Glover to clarify his motion because the project description on the application was slightly different from the staff write up.

Board Member Glover amended a motion to approve the following: addition of brick stairs, replacement of the asphalt driveway, removal of the chain link fence, addition of landscaping to correct drainage issues and replace the garage and doors on rear of home with mahogany doors. The motion omitted the painting of the exterior brick. Board Member Pritchett seconded the motion. Motion carried unanimously. Vote: 6-0.

Board Member White made a motion to grant a variance to allow the exterior brick to be painted. No second. Motion died.

No other motions were made.

Mr. Lovell informed the applicant that they have a right to appeal the denial to City Council. Appeals must be submitted to David Hardegree within 30 days.

B. COP21-13 125 South Ave Applicant: Abby Holden Scope: New deck, replace windows, paint brick

Chairman Frisbee called for the next item on the agenda. Mrs. Ulmer stated the applicant proposes to paint exterior unpainted brick, add a deck to rear of house, and replace all windows with single hung colonial style windows.

Chairman Frisbee opened the floor for discussion.

The Applicant, Abby Holden came forward to answer questions from the Board.

Laura Hadaway, 129 South Ave came forward in favor of the application.

Board Member Pritchett made a motion to approve the deck and replacement of all windows with single hung colonial style windows and to deny the request to paint the exterior brick. Board Member Glover seconded the motion. Motion carried. Vote 5-1. Board Member White opposed.

Mr. Lovell informed the applicant that they have a right to appeal the denial to City Council. Appeals must be submitted to David Hardegree within 30 days.

5. Adjourn

With no further business, Chairman Frisbee adjourned the meeting at 6:31 p.m. The next scheduled Historic Preservation meeting is Tuesday, June 15, 2021 at 5:30 PM.

Greg Frisbee
Chairman

**City of Cartersville Historic Preservation Commission
COP Application Staff Report**

Case: COP21-13

HPC Meeting – 5.18.2021

Application Information

Address: 125 South Avenue

Applicant: Abby Holden

Historic District: Olde Town

Zoning: R7

Setbacks: Front= 20ft. Rear= 20ft. Side= 8ft.

Brief Description: Exterior renovations which include: paint exterior unpainted brick, add deck to rear of house, and replace all windows with single hung colonial style windows.

Applicable Guidelines to Consider

Residential Design Guidelines			
<i>Part One: Maintaining, Repairing, Replacing Structures Contributing to a Historic District.</i>			
	A. Wood		K. Utilities and Energy Retrofit
	B. Masonry		L. Accessibility, Health, and Safety Considerations
	C. Architectural Metals	X	M. Additions to Historic Buildings
X	D. Paint		N. Aesthetic Recommendations
	E. Roofs		
	F. Exterior Walls		PART TWO: New Construction
	G. Driveways, Walkways, and Off-Street Parking		
	H. Lighting		PART THREE: Relocation
X	I. Windows and Doors		
	J. Entrances, Porches and Balconies		PART FOUR: Demolition
Commercial Design Guidelines (Historic Downtown Business District)			
	PART ONE: General Guidelines for Structures Contributing to the District.		
	PART TWO: Guidelines for New Construction –		

The following scope of work is proposed:

1. paint unpainted brick, whole house;
 2. add 17ft X 20ft deck to rear of house;
 3. replace (19) 1/1 windows, multiple dimensions;
 4. replace (1) 6/0 window (half window- rear of house);
 5. replace (4) 1/5 casement windows on rear porch.
- * all new windows to be single hung, aluminum clad colonial style windows.

History of the Property- Bartow County Tax assessor's records state the house was built in 1939. Georgia Historic Resources Survey states the house was built c.1939.

Previous COPs on file: No previous COP's on file.

Analysis of the COP:

The house is historic, contributing. The style of house is American Small House with English Vernacular Revival properties. The applicant wishes to paint the entire house which is currently all unpainted brick. There are some cracked brick near the rear porch that may have been damaged when a pergola or trellis structure abutted the house. Also, paint residue transferred onto the brick from this structure as evidenced in the pictures. The residue can likely be removed using a gel type paint remover.

Per Sec. 9.25-53, *Olde Town Historic District, Part 1 (B), Masonry, item 9, and (D) Paint, item 2*, unpainted brick shall not be painted. The commission may grant a variance to permit the painting of unpainted brick per Ord. Sec. 9.25-34 (k), *Undue Hardship*.

The applicant wishes to replace all windows with an aluminum clad, single hung, colonial style window. Limited information was provided regarding new pane configuration, but the commission historically would prefer to see the same pane configurations used. However colonial style windows are traditionally a multi-pane configuration like 6/6 which would be appropriate for the district. Discussion will be needed on the pane configuration, appropriateness of internal or external grids and muntin profiles.

Refer to Sec. 9.25-53, Olde Town Historic District, Part 1 (I), Windows and Doors

The deck addition to the rear of the house and the proposed materials seem appropriate for the district. Similar deck additions have been approved previously. Currently, the deck will be accessed from the back yard. No internal access is planned.

Refer to Sec. 9.25-53, *Olde Town Historic District, Part 2 (A), Additions to Historic Buildings*.

Commissioners Work Sheet Materials:

	Existing Materials	Materials to be Used
Roof		
Siding		
Windows	Undetermined	Aluminum clad
Doors		
Exterior Lighting		
Foundation		
Deck	NA	Trex (Composite)
Steps		
Porches		
Ornamentation		

Notes:

I move to (approve, approve w/ conditions, or deny) the application for (state proposed changes) at (address) (as submitted, or with the following conditions). I find (compliance or noncompliance) with the guidelines referenced in the staff report and those brought up during discussion.

Sec. 9.25-34. Application to preservation commission for certificate of preservation.

(a)-(d) omitted

(e) *Commission reaction to application for certificates of preservation.*

- (1) The commission shall approve or approve with conditions the application and issue a certificate of preservation if it finds that the proposed material change(s) in the appearance would not have a substantial adverse effect on the historic, or architectural significance of the historic property or historic district. In making this determination, the historic preservation commission shall consider, in addition to other pertinent factors, the historical and architectural significance, architectural style, general design arrangements, texture, and material of the architectural features involved, and the relationship thereof to the exterior architectural style, and pertinent features of the other structures, buildings, objects, or works of art in the immediate neighborhood.
- (2) The commission shall deny a certificate of preservation if it finds that the proposed new construction or material change(s) in the appearance of an existing structure(s) would have substantial adverse effects on the historic, or architectural significance of the historic property or the historic district. A certificate of preservation may not be denied on the basis of exterior paint color.

(f) *Necessary action to be taken by commission upon rejection of application for certificate of preservation.*

- (1) In the event the commission rejects an application, it shall state its reasons for doing so, and shall transmit a record of such actions and reasons, in writing, to the applicant. The commission may suggest alternative courses of action it thinks proper if it disapproves of the application submitted. The applicant, if he or she so desires, may make modifications to the plans and may resubmit the application at any time after doing so.
- (2) In cases where the application covers a material change in the appearance of a structure, building, object, or work of art which would require the issuance of a building permit, the rejection of the application for a certificate of preservation by the commission shall be binding upon the building official or other administrative officer charged with issuing building permits, and in such a case, no building permit shall be issued.

(g)-(j) omitted

(k) *Undue hardship.* Where, by reason of unusual circumstance, the strict application of any provision of this chapter would result in the exceptional practical difficulty or undue hardship upon any owner of a specific property, the commission, in passing upon applications, shall have the power to vary or modify strict adherence to said provisions, or to interpret the meaning of such provisions, so as to relieve such difficulty or hardship; provided such variances, modifications or interpretations shall remain in harmony with the general purpose and intent of said provisions, so that the architectural or historical integrity, or character of the property, shall be conserved and substantial justice done. In granting variances, the commission may impose such reasonable and additional stipulations and conditions as will, in its judgment, best fulfill the purpose of this chapter. An undue hardship shall not be a situation of the person's own making.

(l) *Requirements of conformance with certificates of preservation.*

- (1) All work performed pursuant to an issued certificate of preservation shall conform to the requirements of such certificate. In the event work is performed not in accordance with such certificate, the building official shall issue a cease and desist order and all work shall cease.

- (2) The city council shall be authorized to institute any appropriate action or proceeding in a court of competent jurisdiction to prevent any material change in appearance of a designated historic property or historic district except those changes made in compliance with the provisions of this chapter or to prevent any illegal act or conduct with respect to such historic property or historic district.
- (m) *Certificate of preservation void if construction not commenced.* A certificate of preservation shall become void unless construction is commenced within six (6) months of date of issuance. Certificates of preservation shall be issued for a period of eighteen (18) months and are renewable.
- (n)-(o) omitted
- (p) *Appeals.* Any person adversely affected by any determination made by the commission relative to the issuance of denial of a certificate of preservation may appeal such determination to the city council. Any such appeal must be filed with the city council within thirty (30) days after the issuance of the determination pursuant to section 9.25-34(j)(1) of this chapter. The city council may approve, modify, or reject the determination made by the commission, if the governing body finds that the commission abused its discretion in reaching its decision. Appeals from decision of the city council may be taken to the Superior Court of Bartow County in the manner provided by law for appeals from conviction for city ordinance violations.
- (Ord. No. 19-01, § IV, 5-17-01; Ord. No. 47-04, § 6, 6-17-04)

Sec. 9.25-53. Olde Town Historic District.

(a)-(d) omitted

DESIGN STANDARDS FOR STRUCTURES CONTRIBUTING TO THE RESIDENTIAL HISTORIC DISTRICTS

INTRODUCTION

The following Residential Design Standards are intended to identify the character-defining features of a site or structure used in determining the compatibility of the proposed alteration, repair, renovation, rehabilitation or restoration of an existing structure or the construction of a new structure regarding the appropriateness of the size, location, materials, style, rhythm, and any other quality deemed as contributing to the character of a historic property or structure as determined by the Historic Preservation Commission (Commission).

For items not addressed by the following standards or guidelines, the Commission will refer to the U.S. Department of the Interior, Secretary of the Interior Standards for the Treatment of Historic Properties, latest edition, for guidance.

In filing for a Certificate of Preservation all standards shall be complied with and so demonstrated on said application and supporting documentation. Guidelines, as indicated herein, may or may not be demonstrated in the application or supporting documentation for a Certificate of Preservation. Maintenance recommendations, if any, are included for informational purposes only and are not required to be included in an application for a Certificate of Preservation and, as such, shall not be considered by the Commission in reviewing said applications.

Generally:

1. It is not appropriate to introduce structures or contemporary equipment such as satellite dishes, solar collectors, playground equipment, heating and air units, storage units, and swimming pools, in locations that compromise the historic character of the building or site. Locate such features unobtrusively, and screen them from view.

2. When planning to alter the topography of a site substantially through grading, filling, or excavation, one shall contact the Cartersville Planning and Development Department to confirm that the proposed changes comply with the city building code and development regulations.
3. When remodeling historic structures or constructing new structures in historic districts, care shall be taken in retaining and preserving the historic relationship between buildings and related features of the district, to include but not be limited to, site topography, retaining walls, foundation plantings, hedges, walkways, driveways, parking lots, trees, gardens, yards, arbors, ground cover, fences, accessory buildings, patios, terraces, and significant vistas and views.

PART ONE—MAINTAINING, REPAIRING, AND REPLACING EXISTING STRUCTURES

A. *Wood- Omitted*

B. **Masonry:**

1. Retain and preserve masonry features that contribute to the overall historic character of a building and a site, including walls, foundations, roofing materials, chimneys, cornices, quoins, steps, buttresses, piers, columns, lintels, arches, and sills.
2. Protect and maintain historic masonry materials, such as brick, terra cotta, limestone, granite, stucco, slate, concrete, cement block, and clay tile, and their constructive features, including bond patterns, corbels, water tables, and unpainted surfaces.
3. Repair historic masonry surfaces and features using recognized preservation methods for piecing-in, consolidating, patching damaged or deteriorated masonry. One shall not apply a waterproof coating to exposed masonry.
4. Repoint masonry mortar joints if the mortar is cracked, crumbling, or missing or if damp walls or damaged plaster indicate moisture penetration.
5. Before repointing, carefully remove deteriorated mortar using hand tools. Replace the mortar with new mortar that duplicates the original in strength, texture, and composition. Match the original mortar joints in width and profile.
6. If replacement of a deteriorated detail, module, or element of a masonry feature or surface is necessary, replace only the deteriorated portion in kind rather than the entire surface or feature. Use compatible substitute materials only if using the original material is not technically feasible.
7. If replacement of a large masonry surface or entire feature is necessary, replace it in kind, with matching, substitute materials only if using the original material is not technically feasible.
8. If a masonry feature is completely missing, replace it with a new feature based on accurate documentation of the original feature or a new design compatible with the scale, size, and material of the historic building and district.
9. One shall not paint, coat, or waterproof unpainted masonry surfaces. Do not sandblast exterior surfaces. Use the gentlest means possible to clean exterior materials.
10. During rehabilitation and/or repair which requires a Certificate of Preservation, the following standards shall be observed:
 - a. Inspect surfaces and features for signs of moisture damage, vegetation, structural cracks or settlement, deteriorated mortar, and loose or missing masonry units.
 - b. Provide adequate drainage to prevent water from standing on flat, horizontal surfaces, collecting on decorative elements or along foundations and piers, and rising through capillary action.

- c. Clean masonry only when necessary to remove heavy soiling or prevent deterioration. Use the gentlest means possible.
- d. Repaint painted masonry surfaces when needed.
- e. Test any cleaning technique, including chemical solutions, on an inconspicuous sample area well in advance of the proposed cleaning to evaluate its effects. One shall not clean masonry features and surfaces with destructive methods, including sandblasting, high-pressure water blasting, and power washing.

D. Paint:

- 1. Preserve and protect original exterior building surfaces and site features that were painted by maintaining a sound paint film on them.
- 2. One shall not paint brick, stone, copper, bronze, concrete, or cement block surfaces that were historically unpainted. Do not sandblast exterior surfaces. Use the gentlest means possible to clean exterior materials.
- 3. One shall not replace painted wooden siding that is sound with new siding to achieve a uniformly smooth wooden surface.
- 4. One shall not remove paint films through destructive methods such as sandblasting, water blasting, power washing, or the use of propane or butane torches.
- 5. During rehabilitation and/or repair which requires a Certificate of Preservation, the following standards shall be observed:
 - a. Protect and maintain previously painted exterior surfaces in appropriate ways:
 - 1. Inspect painted surfaces for signs of discoloration, moisture damage, mildew, and dirt buildup.
 - 2. Clean painted surfaces to avoid unnecessary repainting. Use the gentlest means possible.
 - 3. Remove deteriorated and peeling paint films to the first sound paint layer before repainting. Use the gentlest means possible, such as hand scraping and hand sanding. Use electric heat guns and plates with caution and only if gentler methods are ineffective.
 - 4. Ensure that surfaces to be repainted are clean and dry, and that any exposed wood or metal surface has been primed so that new paint will bond properly.
 - b. Repaint previously painted surfaces with compatible paint.

E.-J. Omitted

I. Windows and doors:

- 1. Retain and preserve windows that contribute to the overall historic character of a building, including their functional and decorative features, such as frames, sash, muntins, sills, heads, moldings, surrounds, hardware, shutters, and blinds.
- 2. Retain and preserve doors that contribute to the overall historic character of a building, including their functional and decorative features, such as frames, glazing, panels, sidelights, fanlights, surrounds, thresholds, and hardware.
- 3. If replacement of a deteriorated window or door feature or detail is necessary, replace only the deteriorated feature in kind rather than the entire unit. Match the original in design, dimension,

and material. Use compatible substitute materials as determined by the Commission only if using original materials is not technically feasible.

4. If replacement of a deteriorated window or door unit is necessary, replace the unit in kind, matching the design and dimension of the original sash or panels, pane configuration, architectural trim, detailing, and materials. Use compatible substitute materials as determined by the Commission only if using original materials is not technically feasible.
5. If a window or a door is completely missing, replace it with a new unit based on accurate documentation of the original or a new design compatible with the original opening and the historic character of the building.
6. Replace deteriorated or missing wooden shutters with historically appropriate wooden shutters sized to fit the opening. Do not introduce shutters on a historic building if no evidence of earlier shutters exists.
7. If additional windows and doors are necessary for a new use, install them on a rear or non-character-defining facade of the building, but only if they do not compromise the architectural integrity of the building. Design such units to be compatible with the overall design of the building, but not to duplicate the original.
8. One shall not remove original doors, windows, shutters, hardware, and without approval from the Commission.
9. One shall not remove any detail material associated with windows and doors, such as stained glass, beveled glass, textured glass, or tracery, unless supported by historic documentation.
10. One shall not use snap-in muntins to create false divided-light appearance.
11. One shall not replace clear glazing with tinted or opaque glazing.
12. During rehabilitation and/or repair which requires a Certificate of Preservation, the following standards shall be observed:
 - a. Protect and maintain the wood and metal elements of historic windows and doors through appropriate methods:
 1. Inspect regularly for deterioration, moisture damage, air infiltration, paint failure, and corrosion.
 2. Clean the surface using the gentlest means possible.
 3. Limit paint removal and reapply protective coatings as necessary.
 4. Reglaze sash as necessary to prevent moisture infiltration.
 5. Weather-strip windows and doors to reduce air infiltration and increase energy efficiency.
 - b. Repair historic windows and doors and their distinctive features through recognized preservation methods for patching, consolidating, splicing, and reinforcing.
 - c. If desired, introduce narrow-profile exterior or interior storm windows so that they do not obscure or damage the existing sash and frame. Select exterior storm windows with a painted or baked-enamel finish that is compatible with the sash. For double-hung windows, operable storm window dividers should align with the existing meeting rail.
 - d. If desired, introduce full-light storm doors constructed of wood or aluminum that do not obscure or damage the existing door and frame. Select storm doors with a painted, stained, or baked-enamel finish that is compatible with the existing door. Bare aluminum storm doors are not appropriate.

- e. If desired and where historically appropriate, install fabric awnings over window, door or porch openings with care to ensure that historic features are not damaged or obscured.

J. *Entrances, porches, and balconies:*

1. Retain and preserve entrances, porches, and balconies that contribute to the overall historic character of a building, including such functional and decorative elements as columns, pilasters, piers, entablatures, balustrades, sidelights, fanlights, transoms, steps, railings, floors, and ceilings.
2. When repairing historic entrances, porches, balconies and their distinctive features and materials, use recognized preservation methods for patching, consolidating, splicing, and reinforcing.
3. If replacement of a deteriorated detail or element of an entrance, porch or balcony feature is necessary, replace only the deteriorated detail or element in kind rather than the entire feature. Match the original in design, dimension, and material. Use compatible substitute materials as determined by the Commission only if using original materials is not technically feasible.
4. If replacement of an entire entrance, porch or balcony feature is necessary because of deterioration, replace in kind, matching the original in design, dimension, detail, texture, and material. Use compatible substitute materials as determined by the Commission only if using original materials is not technically feasible.
5. If a feature or an entire entrance, porch or balcony is missing, replace it with a feature based on accurate historic documentation or a new design compatible with the historic character of the building and the district.
6. One shall not enclose a front porch or balcony without approval from the Commission.
7. One shall not remove any detail material associated with entrances and porches, such as graining, spindle-work, beveled glass, or beaded board, unless supported by historic documentation.
8. One shall not remove an original entrance or porch or add a new entrance or porch on a primary facade.
9. One shall not introduce features or details to a historic entrance, porch or balcony that would create a false historical appearance.

K.-M. Omitted

PART TWO—ADDITIONS AND NEW BUILDING CONSTRUCTION

A. *Additions to historic buildings:*

1. Design an addition to be compatible with the historic building in mass, materials, and relationship of solids to windows and doors in the exterior walls, yet make the addition discernible from the original.
2. One shall not construct an addition if it will detract from the overall historic character of the principal building and the site, or if it will require the removal of a significant building element or site feature.
3. One shall not construct an addition that significantly changes the proportion of built mass to open space on the individual site.
4. Construct new additions so that there is the least possible loss of historic fabric and so that the character-defining features of the historic building are not destroyed, damaged, or obscured.

5. Design new additions so that the overall character of the site, site topography, character-defining site features, trees, and significant district vistas and view are retained.
6. Locate a new addition on an inconspicuous elevation of the historic building, usually the rear one.

All remaining sections- Omitted

(Ord. No. 04-04, § 2, 2-5-04; Ord. No. 51-08, § 1, 12-4-08; Ord. No. 04-20, § 1, 3-5-20)

Cartersville Historic Preservation Commission CERTIFICATE OF PRESERVATION APPLICATION

PROCEDURE

Application Requirements

All Applications must be complete and include support materials listed on the reverse of this form and a \$25 non-refundable application fee.

Application Deadlines

See 3rd page of application for application submittal deadlines.

Application Representation

The applicant or authorized representative of the applicant should attend the public hearing to support the application.

Building Permits Requirements

In Addition to a COP application, building permits must be acquired from the Community Development Department. **Building permits will not be issued without proof of a COP.**

Deadline for Project Completion

After approval, the COP is valid for 18 months and void if construction does not begin within 6 months of approval.

Self/ Juarez Painting

Precedence of Decisions

Each application will be considered on its own merit with reference to the Secretary of the Interior's Standards and the Commission's published guidelines. While the Historic Preservation Commission may consider past actions when making decisions on an Application for a Certificate of Preservation, it is not held by those decisions when considering new applications that may appear similar in character.

APPLICATION CHECKLIST

The following list includes the support material necessary for review of a particular project.

New Buildings and New Additions

- ☐ site plan
- ☐ architectural elevations
- ☐ floor plan
- ☐ landscape plan (vegetation not required)
- ☐ description of construction materials
- ☐ photographs of proposed site and adjoining properties

Major Restoration, Rehabilitation, or Remodeling

- ☐ architectural elevations or sketches
- ☐ description of proposed changes
- ☐ description of construction materials
- ☐ photographs of existing building
- ☐ documentation of earlier historic appearances (restoration only)

Minor Exterior Changes

- ☐ description of proposed changes
- ☐ description of construction materials
- ☐ photographs of existing building

Site Changes – Parking areas, Drives, Walks

- ☐ site plan or sketch of site
- ☐ description of construction materials
- ☐ photographs of site

Site Changes – Fences, Walls, Systems

- ☐ site plan or sketch of site
- ☐ architectural elevations or sketches
- ☐ description of construction materials
- ☐ photographs of site

Site Changes – Signs

- ☐ specifications
- ☐ description of construction materials and illumination

Demolition

Must include a complete plan for the new development.

- ☐ timetable
- ☐ demolition budget
- ☐ new construction budget
- ☐ evidence of adequate financing

NOTE: Only complete applications will be placed on the agenda for design review. Submit to:

City of Cartersville
Planning and Development Department
P.O. Box 1390
Cartersville, GA 30120

PROJECT DESCRIPTION

Include support materials and attach additional sheets if needed. If the proposed scope of work will involve more than one type of project, please divide the description.
[Example: (1) Addition to rear (2) New roof]

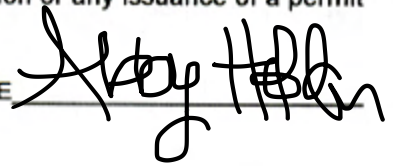

1. Paint the entire exterior of the house. Exterior Color: Sherwin Williams Oyster White SW7637

2. Add a 20ft x17ft Deck to the rear of house. Material: Trex Decking

3. Replace all exterior windows of the house with Single hung colonial style windows

AUTHORIZATION

In consideration for the City of Cartersville's review of this application for a proposed change to a locally designated property, the applicant agrees to hereby indemnify and hold harmless the City and its agents and employees from and against any and all claims, damages, and/or liability arising from or related to this application or any issuance of a permit hereunder.
