CASE NUMBER

Letter of Intent – Change in Conditions – Pick-up Window

This Change in Conditions request is for the 1.22 acres on the north side of Davis Rock Drive in the mixed-use development known as Harbins 316 (“Subject Property”) to allow a limited-service pick-up only window on the end of the proposed retail building.

WREG Harbins Land, LLC is the owner and applicant and is controlled by Watkins Real Estate Group (“Watkins”), who is the master developer. Watkins is also the current developer for the Publix anchored shopping center and out parcels associated with Harbins 316 and has been actively developing the project for over a year.

Since the COVID pandemic, many retail and food service tenants have had to change the way they operate and serve their customers. Consumer trends have also changed dramatically as we shift to a more online and e-commerce economy. As such, our buildings and infrastructure also have been changing to adapt to these new trends and needs from consumers and businesses which is what Watkins is proposing.

Watkins is requesting a change in conditions to allow for a limited service, pick-up only window on the northern end of the proposed retail building on Outlot A. This limited-service pick-up only window is specific to Chipotle, who is a national restaurant. This limited-service pick-up only window differs from a drive thru lane for a number of reasons:

1. There are no menu boards, no call boxes, and no way to order from a car.
2. There queuing for the limited-service pick-up window is limited to only 4 – 5 cars compared to 12-20 for a typical fast-food chain.
3. Customers must have previously ordered on the Chipotle App in order to pick-up their good in the limited-service pick-up window.

The original rezoning of Harbins 316 limited the project to only one fast food restaurant with a drive thru, and Watkins believes that this limited-service pick-up window does not compromise the original intent of the zoning. The limited-service pick-up window will not create more impulse driven consumer traffic, which is generated by typical fast-food restaurants, because the pick-up window can only be used after an order is placed online. Furthermore, once orders are placed online, the limited-service pick-up window increases the efficiency of the restaurant as the average service time from the limited-service pick-up window is 2 minutes and 33 seconds as compared to 6 minutes and 13 seconds from normal fast food restaurants with a drive thru. This not only gets the customer their food quicker but alleviates any potential traffic stacking, which is common with typical fast-food restaurants with drive thrus. Finally – the design of this building and limited-service pick-up window is to limit the car stacking and appearance of a pick-up window.

In closing, we believe the approval of the limited-service pick-up window does not undermine the original rezoning of fast-food restaurant with a drive thru. There is no menu board, no call box, and no noise pollution. Limited car stacking and a narrow pick-up lane will limit the visual appearance and the pick-up window can only be used after online orders are placed limiting the impulse consumer traffic. Watkins appreciates your consideration and look forward to delivering another first class building with a best-in-class restaurant in Chipotle.

IMPACT ANALYSIS STATEMENT

As required by the Zoning Resolution of the City of Dacula, the following standards are relevant in balancing the interest in promoting the public health, safety, morality, or general welfare against the right to the unrestricted use of property and shall govern the exercise of the zoning power. **ALL APPLICATIONS MUST BE COMPLETED WITH THE COMPLETED IMPACT ANALYSIS STATEMENT.**

DATE 1/10/24

APPLICANT WREG Harbins Retail, LLC

- A. Whether a proposed rezoning will permit a use that is suitable in view of the use and development of adjacent and nearby property: Yes, use will compliment the existing retail and residential uses
- B. Whether a proposed rezoning will adversely affect the existing use or usability of adjacent or nearby property: No, the change will enhance exiting uses and usability of adjacent properties.
- C. Whether the property to be affected by a proposed rezoning has a reasonable economic use as currently zoned: The change in conditions is needed for this restaurant to effeciently operate as a fast casual concept. The restaurant business is extremely competitve and the pick up window is needed for this business to operate.
- D. Whether the proposed rezoning will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools. No
- E. Whether the proposed rezoning is in conformity with the policy and intent of the Land Use Plan: Yes
- F. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the proposed rezoning: The current zoning allows for retail uses. The mixed use development will thrive with more restaurants to serve the residents and community. Allowing a pick up window enables the restaumt to stay in business but does not conflict with the drive thru condition as this is a pick up only window.
