MEMORANDUM OF UNDERSTANDING & AGREEMENT BETWEEN PAULDING COUNTY AND CITY OF DALLAS, GEORGIA REGARDING WATER AND SANITARY SEWER SERVICES

Whereas, Paulding County and the City of Dallas, Georgia, reached an agreement and entered into a Memorandum of Understanding in March, 2001 regarding water and sanitary sewer services to further explain specific aspects of the Service Delivery

Whereas, the aforementioned Memorandum of Understanding and Agreement entered into by Paulding County and the City of Dallas on March 13, 2001, contained terms and provisions that were to remain in effect until the required Service Delivery Strategy review and revision date of October 31, 2007;

Whereas, Paulding County and the City of Dallas have reached further agreement regarding water and sanitary sewer services through amendments to the sewer service boundary map and now seek to revise the Memorandum of Understanding and Agreement of March 13, 2001.

Now therefore, Paulding County and the City of Dallas, Georgia, by and through their respective governing authorities, hereby agree to the following special stipulations with regard to water and sanitary sewer services affected by the Service Delivery Strategy.

1.

ESTABLISHING UNIFORMITY IN BILLING PROCEDURES

Currently, there are nine residential developments where water and sanitary sewer service are billed separately by either Paulding County or the City of Dallas. In order to increase efficiency and decrease costs, Paulding County and the City of Dallas agree to move toward a billing system that allows whichever entity provides the water service to bill for both water and sanitary sewer services. Each month, the water service provider will remit to the sanitary sewer service provider, all amounts collected in the previous month for sanitary sewer service. Sanitary sewer service will be billed at the then published rates of the service provider. Until this transition to uniform billing is complete, Paulding County and the City of Dallas agree to the following terms regarding disconnection of water service for non-payment of sanitary sewer service:

a) Disconnection of water service will be performed by the Paulding County Water System within thirty (30) days of receipt of official written notification from the City of Dallas of non-payment of City of Dallas-provided sanitary sewer service by a resident that is a Paulding County water customer.

b) The City of Dallas will provide the Paulding County Water System with proof of full payment of all delinquent fees within one business day of the re-connection of water service to a resident of Paulding County.

c) The re-connect service fee change will be at the then-published rate of whichever entity provides the disconnect and re-connect, currently \$50 for re-connection and an additional \$75 for same-day re-connection.

MASTER METERS

The City of Dallas shall be able to install master meters on Paulding County water lines within the corporate limits of Dallas for all commercial developments and for residential developments larger than twenty-five (25) acres, and to purchase water from Paulding County at the wholesale rate as defined through these master meter points for distribution and billing to these developments at the retail rate. Paulding County agrees to allow the City of Dallas to install said water meters and purchase water as described above pursuant to the following conditions:

- a) The Paulding County Water System will provide water at the then-published wholesale rate to the City of Dallas. Wholesale rates are subject to change based upon rate increases by Paulding County's supplier(s), or any statemandated surcharges or fees.
- b) For any master meter set by, and at the discretion of, Paulding County for the purpose of enabling system-wide water distribution in the City of Dallas, the County agrees to waive the cost of said master meter as specified in its existing contract between the City and County.
- c) The City of Dallas shall be responsible for the initial cost and installation of said master meters and Paulding County will perform monthly meter readings and necessary perpetual maintenance of master meters installed in accordance with this agreement.
- d) These terms shall remain in effect until such time as the House Bill 489 Agreement (Service Delivery Strategy) is reviewed and revised, or at any other such times as the parties may mutually agree.

3.

EXTRA-TERRITORIAL EXTENSION OF WATER AND SANITARY SEWER SERVICES

Paulding County and the City of Dallas agree to abide by the water and sewer district boundary maps adopted and agreed upon by Dallas and Paulding County, and incorporated into the Service Delivery Agreements, dated October 31, 2007, in determining the extra-territorial extension of water and sanitary sewer services. Both jurisdictions also agree to the following terms when interpreting said water and sewer district boundary maps.

- a) Where a proposed development is situated on both sides of the district boundary maps for either water or sanitary sewer, the jurisdiction containing the greater percentage of the development shall be the water or sanitary sewer service provider.
- b) Where a proposed development is situated on both sides of the district boundary maps for either water or sanitary, and it cannot be determined which

jurisdiction contains the greater percentage of the development (i.e., the development is close to 50% in the Paulding County service and close to 50% in the Dallas service area), then the service provider shall be the jurisdiction having the nearest system connection to the development for water, and the nearest system connection t the development for sanitary sewer.

c) Nothing contained in this Agreement shall prevent Paulding County and the City of Dallas from mutually agreeing to allow one jurisdiction to service developments within the water and/or sewer district boundaries of the other

jurisdiction.

d) These terms shall remain in effect until such time as the House Bill 489 Agreement (Service Delivery Strategy) is reviewed and revised.
