### **INFORMATION:**

Article II Licensing Ordinance Change: The department is proposing to change wordage to the business license ordinance that would identify the need for an occupation tax certificate (business license) and a subsequent life safety inspection by the Paulding County Fire Marshall and the Building Official. The current ordinance does not indicate that a business owner needs a business license nor identifies the need for inspections. Current wordage only identifies the need to pay a tax. The Business Development Department has a more comprehensive change to the entire ordinance in the coming months.
