

RESOLUTION 2024-02

**A RESOLUTION OF FINDINGS ON PROPOSED LOCAL
AMENDMENT TO PLUMBING CODE FOR WATER
EFFICIENCY AND SUBMISSION OF PROPOSED AMENDMENT
TO THE GEORGIA DEPARTMENT OF COMMUNITY AFFAIRS**

WHEREAS, the current minimum water efficiency requirements for buildings in the City of Dallas, Georgia jurisdiction is the Georgia State Minimum Standard Plumbing Code (“Georgia Plumbing Code”) as approved and adopted by the Georgia Department of Community Affairs (“DCA”) from time to time;

WHEREAS, the City of Dallas, like all local governments in the State of Georgia, is authorized under O.C.G.A. § 8-2-25(c) to adopt local requirements when needed that are more stringent than the Georgia Plumbing Code based on local climatic, geologic, topographic, or public safety factors;

WHEREAS, the long-term availability, reliability, and resiliency of water supplies is a critical need of the City of Dallas and water efficiency is essential to meeting this need;

WHEREAS, the “Local Amendments to Plumbing Code” shown in the redline in Attachment A are more stringent than the Georgia Plumbing Code on water efficacy because the amendments require even more efficient uses of water and provide clarifications on existing allowable practices;

WHEREAS, based on its local climatic, geologic, topographic factors included in the regional water resources plan prepared by the Metropolitan North Georgia Water Planning District (“Metro Water District”), of which the City of Dallas is a part, water conservation is especially important to the City of Dallas and the Metro Water District;

WHEREAS, the City of Dallas has become aware that more water efficient technologies have become widely available at comparable prices and performance to the water efficient technologies currently required as the minimum in the Georgia Plumbing Code;

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The governing body of the City of Dallas finds that, based on local climatic, geographic, topographic, and public safety factors included in the Metro Water District’s plans, it is justified in adopting local water efficiency requirements more stringent than the Georgia Plumbing Code;

2. The City of Dallas is considering codifying these water efficiency requirements in local code as an amendment to Georgia Plumbing Code in the form of the Local Amendments to Plumbing Code shown in the redline in Attachment A; and

3. The City of Dallas is directing its staff to submit this resolution and the Local Amendments to Plumbing Code to DCA for review and comment within 60 days as required by O.C.G.A. § 8-2-25(c)(1).
